SHORT CHANGE GRAFT.

An "Honest" Industry That Does Big Business in New York.
"One form of honest graft a hotel keeper has to fight the hardest in this town is 'accidental short changing,'" said the manager of a very popular hotel near the Grand Central depot, famous for its oyster bar.

"The same sort of 'honest graft' obtains at almost every cash changing place in the city where there is a netting on the cashier's desk to protect the cash and a lower bar of wood to hold up the netting or glass screen. This bar of wood or metal runs across the hand hole for change. The cashiers have figured out the angle of vision of all men, short and tall, and the distance they stand from the desk to receive their change.

"Say a dollar is changed to take out 30 cents. The 'accidental short change' artist will push forward the 70 cents in coin, but his hand will halt one dime that is hidden from the angle of vision of the man getting change by the line of the bar over the cash hand hole. If the man is in a hurry or absentminded he grabs the change he sees and rushes off without one dime. Always, stop, stoop and look if in doubt.
"And you would be surprised to know how much money is left on cashiers' counters, box offices, subway ticket booths and other places. I'll wager \$100,000 is short changed annually in New York. They never call you back."—New York World.

In the Pocket.
A tramp approached an old gentleman who was reclining in a comfortable arm-chair on the porch.
"Please help a poor cripple, sir," he whined.
The old gentleman slowly thrust his hand into his pocket as he gazed with anxious concern at the ill-kept creature standing before him.
"Bless me, why, of course," he said, as he handed him a coin. "How are you crippled, my poor fellow?"
Pocketing the money quickly the tramp replied: "Financially crippled, sir."—Manchester Union.

SWINGING A PENDULUM

Articles Needed for Trick Are Easily Picked Up.

With Little Practice Anyone Can Become Skilled Medium—it is Only Necessary to Move the Table That is in Use Slightly.

To swing a pendulum, picked out from a number of them at random, without touching it is a very puzzling trick. The articles necessary are a medium-sized table and a number of pendulums, some of which are suspended from a rod with their lower weighted ends inside of water and wine glasses placed on the table, and others attached to corks so that they will hang inside of bottles.

The spectators gather around the table, which can be in full light. writes James A. Hart of Philadelphia

Any One Pendulum Can Be Made to Swing at Will by Moving the Table Slightly.

In the Popular Mechanics. The performer sits at one side of the table with his hands flat on the top. A person may pick out any pendulum and ask him to swing it, which he will proceed to do without touching it, also making it strike the glass while it swings. Another pendulum may be pointed out and he will start that one apparently by looking at it, while the other one stops.

This may seem to be impossible, yet it is very easy. It will be seen that no two pendulums have the same length. A pendulum makes a certain number of swings in a given time, depending on its length. A long pendulum requires more time to complete its swing and will, therefore, make a less number of swings than a short one in the same time. It is only necessary to move the table slightly and watch the pendulum picked out until it begins to swing independently of the others, which soon happens. To make the longer pendulums swing, longer movements of the table top must be made. With a little practice anyone can become a skilled medium in pendulum swinging.

LITTLE TOY IS EDUCATIONAL

Wheel Rolls Round Ends of Magnet, but Does Not Fall Off—Puzzling to the Uninitiated.

A toy that is both amusing and of educational value has been patented by an Ohio man. A horseshoe magnet with unusually long poles has the ends of these poles rounded. A single wheel, with a round steel bar running through it for an axle, rests upon this axle on the poles of the magnet, which form an endless track for it. The wheel, of course, is made light enough that the attraction of the magnet keeps it from falling off, yet the wheel can roll about easily on what is practically an endless track. To a child this toy brings home more forcibly than any lecture by his school teacher the power and principle of magnetism, and he will delight in

An Educational Toy.

"fooling" his friends with it. The uninitiated will naturally expect the wheel to roll off the arms of the horseshoe and will be amazed to see it merely roll down the ends and back on the under side.

"BLOOD IS THICKER THAN WATER"
Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill-ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.
DR. PIERCE'S GOLDEN MEDICAL DISCOVERY
Is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in \$1 or 50c size. Address R. V. Pierce, M. All Blood Disorders Quickly Driven Away
Astonishing Results With the Greatest Blood Purifier Ever Discovered.

Strength, Power, Accomplishment are all Typified in S. S. S.
Some blood disorders become deeply rooted in the glands and tissues and the mistake is made of resorting to drastic drugs. These only aggravate by causing other and worse troubles. A host of people know this to be true. They know from painful experience.
To get right down into where the blood is vitiated requires S. S. S. the greatest blood purifier ever discovered.
This remarkable remedy contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment and the medicinal elements of this matchless blood purifier are just as essential to well balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.
Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kindred troubles, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence.
Then, too, S. S. S. has such specific stimulation on these local cells as to preserve their mutual welfare and a proper relative assistance to each other.
In a very brief time S. S. S. has the reconstructive process so under control that remarkable changes are observed. All eruptive places heal, mysterious pains and aches have disappeared, and from head to foot there is a conscious sensation of renewed health.
From the fact that S. S. S. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Ask for S. S. S. and insist upon having it. And if you desire skillful advice upon any matter concerning the blood and skin write to The Swift Specific Co., 105 Swift Bldg., Atlanta, Ga. Do not allow some zealous clerk to larrip the atmosphere in eloquence over something "Just as good" as S. S. S. Beware of all counterfeits.
