THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and

is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out Surely get a 25-cent bott's of Knowlton's Danderine from any drug store and just try it.

Absent-minded persons are continually leaving their packages and umbrellas in the street cars, but the limit was reached the other day when the car from Warren, Me., into Thomaston was found to contain a baby which had been left behind in the rush.

Mothers will find Mrs. Winstow's Southing Byrup the best remedy to use for their children during the teething period.

There is always a censor at the German court dances who watches the dancers, and if anyone is awkward or unacquainted with the steps he is notified that he will not be invited again unless he learns to dance better.

Free to Our Readers Write Murine Eye Remedy Co., Chicago, for depage Ilustrated Eye Book Free. Write all about Your Eye Trouble and they will advise as to the Proper Application of the Murine Eye Remedies in Your Special Case. Your Druggist will tell you that Murine Relieves Sore Eyes, Strengthens Weak Eyes. Doesn't Smart, Soothes Eye Pain, and sella for 50e. Try It in Your Eyes and in Baby's Eyes for Scaly Eyelida and Granulation.

And About as Dear. Filling your coal bins with ice is one way of getting them thoroughly cold.—Philadelphia Record.

The material taken from the Panama canal would make a pile higher than the Woolworth building in New York and 1350 feet square at the base.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Boweis-They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery-indlgestion, foul gases, bad breath, yellow skin, mental fears, everything that is and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep-a 10-cent box from your druggist will keep you feeling good for months.

Alfalfa Proved to Be Most Satisfac tory at the lowa Station, Furnishing Pasture Most Constantly of All Crops Tried.

(By W. C. PALMER, North Dakota Ag-ricultural College.)

age Crops for Swine.

The profits in hog raising come largely through pasturing. The lowa experiment station in bulletin No. 136 reports the result of experiments with forage crops for swine. It was found that the profits from grazing an acre of alfalfa in 1911 was, with corn at 50 cents and hogs selling at five cents, \$65.99; hogs, at six cents, \$97.09. The cost per 100 pounds of pork was but \$2.88. In 1909, the profit was \$23.62 with hogs at five cents, and \$46.39 when hogs sold at six cents.

In 1909, clover when grazed with hogs retruned a profit of \$32.34, hogs selling at five cents, and \$57.07, at six cents. In 1910, the clover pasture returned \$28.82, and \$51,20 with hogs

at five and six cents. In 1909, rape returned \$27.50 and \$47.47 with hogs at five and six cents respectively; in 1910, \$37.51 and \$68.64. In 1910, sweet clover returned \$42.07 and \$74.50 with hogs at five and six cents; in 1911, \$23.46 and \$39.50. Oats pasture returned \$15.33 and \$32.53, with hogs at five and six cents respectively. In 1909, cats, Canada field peas and rape returned \$22.83 and \$43.86, with hogs at five and six cents. In 1911, three different lots returned \$53.45, \$39.52 and \$64.63 each with hogs at five and six cents. In 1909, the returns from blue grass were \$15.23 per acre, with hogs at five cents, and \$31.85 at six cents.

In all the trials corn was fed and charged at 50 cents a bushel. Land rent was charged at six dollars per acre. All costs of producing the crop were figured in. Some meat meal was fed. This was charged at two and one-half cents a pound. Alfalfa proved to be the most satisfactory. It furnished pasture the most constantly of the crops tried. Sweet clover was

too rank the second year. The results of these experiments should mean a good deal to North Dakota. The season is a little shorter, but this is in a measure offset with lower land rents. It is necessary to keep in mind that some grain needs to be fed the hogs in addition to the forage. When the pasture is alfalfa, corn is a good grain to use.

LAWFUL WEIGHT OF APPLES

Lawver, One of the Heavlest Varieties Grown, is About Only One to Reach Fifty Pounds.

Some states have passed laws fixing the legal weight of a bushel of

VALUE OF PASTURING ber of varieties and fcound that the varieties weighed as follows: Pounds

1	Talman Sweet
2	20-Ounce Pippin
8	Wealthy
l	McMahin
l	Jonathan
1	Pound Sweet
ł	Ben Davis
1	Hyslop Crab
1	

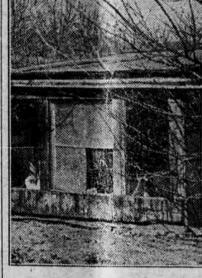

The average weight for these VRrieties is a trifle over 42 pounds.

From this statement it would appear that about the only variety that will weigh full 50 pounds will be the Lawyer, which is one of the heaviest apples grown.

SHELTER FOR EARLY CHICKS

Warm, Comfortable Quarters Are Essential for Success With Young Birds-Brooding Is Neglected.

Don't try to raise early chicks unless you have a place to properly care for them. It is a waste of time and money. A good many think if

Good Winter House.

they can hatch the chicks, brooding them is a small matter. Such is not the case. Brooding the early chicks successfully is a subject that needs more attention than is usually given it. Hatching early chicks is comparatively easy.

To artificially brood the earlyhatched chicks successfully, warm, comfortable quarters that are not subject to sudden change of fitful winter and early spring weather must be provided. More people fail in the brooding than in the hatching, and no doubt for the reason stated. Give the brooding more attention and see if the result will not be better.

WINTER CARE OF THE SHEEP

Fleece of Good Quality Cannot Be Grown on Poor, Half-Starved Anlmals-Weak Lambs Result.

If the sheep are neglected and allowed to run down in flesh when the winter sets in the fleece will be injured in both weight and quality.

A fleece of good quality cannot be grown on a poor half-starved sheep. the ewes are allowed to get poor during the winter the chances are that the lambs will be weak and will perish for lack of nourishment and from cold, while the lambs from a wellcared for ewe will be much abler to stand the cold if they should happen to be dropped when the weather is cold.

TYPICAL BLUE GRASS MEAL

When Preacher Came to Dinner Dellcacles Were Offered Which No Hunger Striker Could Resist.

Were you ever in the blue grass region upon a Sunday when the preacher was to come home with ma and pa to dinner. On the day before, it would get out to the negro quarters somehow that the "preacher man" was coming, and then the feathers would fly.

The jam and jelly shelves would be rifled and finally the dinner came on the table. There would be about half a bushel of friend chicken from which the necks, backbones and wings had been eliminated, done to rich brown color; flanked with mashed potatoes on one side (old blue Meshannock) as white as the driven snow and as light and pleasing as the laugh of a child; beaten biscuits; jams, preserves and that old-fashioned apple butter; corh dodger about the size of your clenched fist with a husk like the shell of a cocoanut, and so on ad infinitum.

We children all had to wait for the second table, but the old colored mammy never let us suffer and I imagine sometimes we were better served than the grownup people. Then the ple, the "punkin" ple. Never served in less than a quarter and always with a spring-cooled glass of cream as a 'chaser."

Do you know how to eat a "punkin" ple? Some of the degenerate scions of a long-forgotten race of barbarians clip it off with a fork and I actually saw a fork the other day in your city which had one of the tines widened and sharpened so that it looked to me like a kind of shovel, and they use these instruments to eat a "punkin" pie with.

But no well-bred citizen would desecrate a "punkin" pie by treating it in this manner. The well-bred citizen takes his piece of pie in his hand and bites out crescents of rich, amberhued deliciousness from the pie, while the crust around the ple and the sides of the pie and the bottom of the pie are browned flakes of ecstacy. Half the enjoyment of eating a "punkin" ple is in smearing some of it over your face. A pie having the kind of crust that wouldn't stand alone and which would allow its contents to run all over your fingers and gum them up would be hastened to the pigpen .-Kansas City Star.

Music for Children.

It is never too early to draw the attention of little children to music. They love rhythm; let them clap their hands, and stamp their feet in time to some little march or jig played for them. Then let them hear a little song repeated often, or two songs of different character, one sad, one gay; they will soon ask for more, and learn to sing themselves. Music will become for them the means of self-expression, a beneficient outlet of pent-up nervous energy, leading their little feelings into channels of cheerfulness, possi bly averting illtemper, whining inertia. and dulness. A little drill done to music as a game will be helpful to mother and children. There are action songs published for kindergartens, but a resourceful mother can contrive something of the kind herself according to the child's age. Marching round the room with a clap of the hands on the first beat of the har first in four-four time, then threefour time, lastly six-time will make a pleasing diversion for noisy little ones, and help them to realize their sense of rhythm. On no account should the children hear ragtime frequently.

Which? Maud-Mrs. Newcomer never gets asked to any bridge parties. Beatrix-Does she play too well or not well enough?-Life.

The estimated production of rice for Japan is 16,662,000 pounds, an increase of 5.1 per cent over the crop of last year.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

mold, dirt or foreign material, it should be removed immediately, the manger swept clean and a much smaller amount given until her appetite returns, as evidenced by the cleaning up of her manger.

Quick and clean milking is essential to successful milk production.

Nutritious Peanut.

Scientists assert, after long research, that the peanut, which in the past was not very highly regarded, is the only food staple that will at once nourish man, beast and the birds. It is the most nutritious of the whole nut family, rich in tissue building properties, consisting glucose and carbohydrates-and at the same time is the cheapest.

Sacrifice Fruitful.

The seed dies, but the harvest lives. Sacrifice is always fruitful, and there is nothing fruitful clae. Out of the suffering comes the serious mind; out of the salvation, the grateful heart; out of the endurance, the fortitude; out of the deliverance, the faith .- Frederic W. Farrar.

Rejected Manuscript.

Answer to Correspondent.-We have no space for your story, "R. A. W.;" it reminds us of the North Country bill posting candidate who implored the local public to stick up for him because be had stuck up for them. -I.ondon Globe.

Husbande Like Christmas Gifts. Husbands are like Christmas gifts, you can't choose them; you've got to sit down and wait until they arrive and then appear perfectly delighted with what you get.

Matter of Belfishness.

Do mother and the girts carry in the wood or coal? Pretty hard job for a woman, but then, more men don't like a beskache - Exchange.

sufferers find instant relief in Sloan's Liniment. It penctrates to the painful partsoothes and quiets the nerves. No rubbing-merely lay it on.

SLOANS N DN Kills Pain

For Neuralgia "I would not be without your Lini-ment and praise it to all who suffer with neuralgia or theumatism or pain of my kind."-Mrs. Henry Bishop, Beisma,

Pain All Gone

"I suffered with quite a severe neu-ralgic headache for 4 months without any relief. I used your Liniment for two or three nights and I haven't suf-fered with my head since."-Mr. J. R. Swinger, Louiseille, Ky.

Treatments for Cold and Croup

"My little girl, twelve years old, caught a severe cold, and I gave her three drops of Sloan's Liniment on sugar on sroing to bed, and a he got up in the morning with no signs of a cold. A lit-tle boy next door had croup and I gave the mother the Liniment. She gave him three drops on going to bed, and he got up without the croup in the morning." — Mr. W. H. Strange, Chicage, III.
