The Winter storms carried it more than a mile north of the entrance.

The Artisan lodge of Waldport is in a flourishing condition with over forty members in good standing.

A row of Callas in the yard of J. H. Glines is in full bloom, after remaining outside all Winter with no protection from storms or frost. Some of the Easterners might not believe this.

The Waldport baseball club has been organized for the Summer season. J. B. Simmons will act as manager and Fred Chapin will act as captain.

Leslie Evens will operate his motion picture show three times a week hereafter. Shows will be given Tuesday, Thursday and Saturday evenings with a complete change of program.

Through the efforts of the Oregon Journal the patrons of the Waldport-Tidewater mail route will enjoy daily service beginning July 1st. This was definitely announced a few days ago in a letter from the Journal to Mrs. M. E. Earley of Tidewater.

Rock Creek

Your humble correspondent noticed by the Sentinel that F. F. Foster of Rock Creek was arrested, found guilty and fined for striking one Mrs. Edith Birdwell, and that His Honor assisted the county fund to the tune of 50 bucks. I am rather short on law but have always understood that when a person appeals a case the "county fund assistance" is not paid over to the county, but is allowed to remain and jingle in the jeans of the defendant until tried by the Circuit Court and found guilty or acquitted. I wish to say that Mr. Foster is well known in this country and has always proven himself a gentleman, and, knowing both parties as we do we can hardly understand how a jury could return a verdict of guilty unless it was for the purpose of "assisting the county fund." In such a case the old saying that "J. P. (Justice of the Peace) stands for judgment for the plaintiff," is more truthful than it appears. One "horse" on Foster. Oh! well, he should worry. Two more shakes coming.

Joe Streitmatter is working for Henri Zebinden the fine rainy days.

Hoxie Simmons is hauling the doors and windows for Merchant Wilson's new store building at the Upper Ford on the Siletz.

Rock Creekers, have you registered? If not, why not?

Three more weeks of school here and then comes the vacation. (Vacation on the farm is not what it is cracked up to be.)

Elk City and Big Elk

James Whittfield left for Portland last week. He expects to rent a small farm near Portland.

Frank Updike left Elk City Thursday and will visit friends and relatives in Colorado and Oklahoma. He expects to be in Frisco May 15th to go to Alaska. Frank leaves many friends who wish good luck.

The people of Elk City were startled last Saturday at the disappearance of Mr. Daniel and Mrs. R. King, but they returned Saturday night as Mr. and Mrs. Daniel. We all wish them much happiness and prosperity.

Newport

The Ahwaneda, Mirene and Enterprise have all crossed the bar this week with full cargoes of freight for Newport and Toledo. The Enterprise is running in connection with the Mirene. The freighting business is now almost entirely done by water, because it is much cheaper. The people of Newport have been wise enough to keep the water front out of the hands of corporations and now she will always have the benefit of competition, and will therefore always have cheaper rates. The consumption of merchandise in this section has more than doubled during the past five years; consequently it stands to reason that our waterways should be kept open and free.

Plans and specifications are now being prepared to build this Summer a modern high school building on the plat of land in the central part of the city bought some two years ago, of nearly two acres of ground. This is a beautiful location and Newport may well be proud of the interest the people take in education and the building and beautifying of the city.

On last Saturday a case was brought before his honor Judge David Harding, the City Recorder, wherein J. W. Flowers was arrested on a complaint brought by John Loomis, administrator of the estate of Blakley, Taft & Co., charging the defendant with using profane, and indecent language in the city of Newport. It appears the plaintiff in settling up the estate found two jack screws charged to the defendant. When Mr. Loomis asked about the screws the defendant told him that the screws were borrowed and that he had taken them back to the owner. The evidence showed in the trial that the plaintiff went into the house where the defendant was at work and demanded the screws again and intimated that the defendant was trying to steal them. This so enraged the defendant that he told Mr. Loomis that he was a d--d liar and to get out of his house and off his land. The defendant was represented by W. E. Gwynn and Will Embry and the plaintiff by Dr. Berry. It was a jury trial. The Judge presided with much dignity and the case was ably argued on both sides. Newport, perhaps, has never had such a flow of forensic eloquence as occurred on this occasion, especially by the attorney for the plaintiff. The jury deliberated three or four hours and could not agree, standing four for acquittal and two for conviction. The costs will be about \$50 which will fall on the city. The case should never have been brought as it was not of sufficient importance, or if brought the plaintiff should have put up bonds for the costs. No wonder tax payers complain.

He comes highly recommended as one of the best educators in the state.

The gas schooner Enterprise, Capt. Cassidy master, which was recently placed on the run from Portland to coast points, was unloading freight at the Waldport docks this week.

The proposition to bond the county for road building met with small favor in Waldport and vicinity. Uncertainty as to where the money will be spent and objection to the expense of a special election are the main objections. The general sentiment is that the matter should be thoroughly discussed before it is voted upon and that the November election is the proper time for it to be brought before the people.

Surveyor Wygant of Newport passed through Waldport on his way home from Lane county where he had been surveying for parties who have made applications for homesteads in the reserve. If a majority of the applications are granted, and there is no good reason to the contrary, the south end of the county will receive a large addition to its population in the near future.

The Mirene made port Tuesday on her regular run from Portland with a load of freight for the local merchants and saloon fixtures and supplies for Chas. Fosner.

A petition is being circulated here asking the County Court to appropriate \$300 for the Waldport-Tidewater road. Also one asking the Forest Service for a like sum for the same purpose. It is the opinion of those who have looked over the ground that this sum will be sufficient to build the road. This road if completed will be of great benefit not only to Waldport and the south end of Lincoln county but to the whole county, as it furnishes a new line of communication with the outside world.
