Newport

The Oregon State Pharmaceutical Association held its 25th annual, Silver Jubilee, convention at Newport commencing on the 14th and ending on the 19th. 250 druggists and their families attended the convention. This was the largest attendance the society has had since its organization. The meetings were held in the Opera House. The sessions were all interesting and a number of able papers were read by different members of the society and the discussions that followed were very able and instructive. A more cheerful, jolly set of people never met at Newport, they had left the dull cares of business at home and were out for a good time. The weather was all that could be desired. The thermometer ranged from 65 to 70 degrees—just pleasant. In the Valley at that time the temperature was 95 to 106 at Albany and Medford. The business sessions were held in the forenoon and the afternoons were devoted to strolling on the beach and to taking excursions to various points of interest along the coast. The seagate beach, Punch Bowl, Otter Rock, Lighthouse, Jump Off Joe and other points of interest were visited. Several excursions were taken out over the bar to deep sea fishing. This was greatly enjoyed by all the party. Newport provided a number of stunts to amuse the people. Among them the clam bake, the Indian feather dance, the baseball game, the tug war pulled off by the druggists and traveling men, the latter winning. The traveling men were heavy weights and won in the tug of war and got the silver cup. The clam bake was of the most interest and drew a big crowd. The management was good, no trouble of any kind. This bake consisted of clams, crabs, fish, and potatoes cooked to the Queen's taste by the prince of cooks, Jesse Frey and R. A. Tooser. By their association with the Indians gave them a knowledge of how the clams should be cooked with hot rocks and sea weed, according to the ancient manner of cooking them. About 1500 people partook of the feast. By this mode of cooking all the flavor of the articles cooked is retained. The clam bake was gotten up by the Commercial Club and the citizens of Newport as a special treat for the druggists, and the druggists were served first as the guests of honor, yet there was enough for all present. None was made sick by eating the clams because they were so nicely cooked. The Indian feather dance was also a special feature of the entertainment and gave general satisfaction. Twenty-five Indians and white men and women were in the dance dressed up in true Indian style and you could not tell the Indian from the white. A paleface was tied and burned at the stake in the old-fashioned way. This was a thrilling and exciting scene and looked almost as if it were real. A red light was burning around the captive and the warriors danced around with wild terrific yells that made the hair of your head stand on end. It was a good imitation of the way the Indians killed their captives and greatly interested the audience. On Saturday evening the druggists with their families took a swim in the natatorium. This was a real luxury enjoyed by all who took part in it. On Sunday at 1:30 our guests and visitors left on a special train for their homes, all expressing themselves as being well pleased with Newport and their entertainment and thought this city would be a good place to permanently hold their annual conventions. The officers elected for the ensuing term are as follows: President, D. O. Woodworth of Albany; 1st Vice President, F. A. Nickolls of Portland; 2d Vice Pres. W. H. McNair of Ashland; 3d Vice Pres., A. E. Crosby of The Dalles; Treasurer, B. F. Jones of Portland; Secretary, A. W. Allen of Portland. Mr. Allen has been elected secretary of the society for twenty-one consecutive years. He was also elected a delegate to the American Pharmaceutical Association which meets in Detroit this fall. Mr. Allen was also given a vote of thanks for his efficient work for the society. A resolution was passed thanking the people for their kind hospitality while in the

city and to the railroad for the many courtesies received from it. Sunday more than 1000 people passed over the railroad between Albany and Yaquina. The Newport with the barge, Julia, made five trips Sunday between Yaquina and Newport to accommodate the travel. During the day two trains came in and three went out. Capt. Harry Valbush of the Patsy met with a severe accident Saturday night in trying to step from the wharf onto the vessel. His foot slipped and he fell between the boat and wharf, striking on the guard with his back and side, inflicting a severe injury. He was taken to Astoria Sunday evening on the Patsy.

The Bandon came in over the bar on half tide and went to Toledo on flood tide Tuesday noon. She brought in 15 tons of freight for Toledo and Newport. This boat ought to have 100 tons of freight at least on her return trips. It is much cheaper.

Ona

One bride in a community usually causes a ripple of excitement in social circles. We have three on Beaver creek, and the ladies are all delighted. When John Covert persuaded Miss Hester Hill to become Mrs. Covert, there was heard whispers of "showers" and parties in honor of the bride, who is very popular. The plans of the ladies were not fully matured until Bert Ryan brought his bride home. Mrs. Ryan, who is a charming little lady, was Miss Carrie Wheelock of Linville, and it was concluded something must be done to give the new bride a welcome, for, even tho' a stranger, she has quite captivated the residents of Beaver creek. However, in the midst of all this natural interest in two brides, A. W. Weber quietly leaves home for a few days and before his friends were informed of his departure, he returned from Washington with his bride, formerly Mrs. Wm. Hulse, who owned a very fine ranch on Beaver creek, which she sold about two years ago. Mrs. Weber is loved by everyone. The ladies insist that Mr. Weber has conferred a lasting favor on them by persuading such an estimable lady as Mrs. Weber to reside on Beaver creek again. The surprise was complete and events became quite stirring. Consequently everybody was invited to

the Grange Hall Saturday evening at 8 o'clock. The three brides, with their husbands, were seated at the head of a long table and special attention shown them during the evening. Over fifty suppers were served. At ten o'clock dancing commenced. The event was a success in every way. All had a rousing good time and every body happy as they should be when "hearts are trumps."

Haying is on in earnest this week.

The petition for a road down Beaver creek to the beach was signed by everyone in this neighborhood; also the bonding of the school district to build a new schoolhouse carried, there being only one vote against it.

Nevin Barclay is away on a business trip to Anacortes, Washington. He will be gone indefinitely.

The mail route from Tidewater to Alsea, a distance of 26 miles, is discontinued, leaving over thirty families without mail service. The government is too poor to pay the bids and these mailcarriers are silly enough to think they can't live without eating. But the route from Tidewater to Waldport is a daily now, instead of three times a week. There is a difference, you see, if you go on horseback or by boat.

Toledo Again the Victors

In the best game ever played on the local grounds, Toledo beat the Meier & Frank team last Sunday by a score of 5 to 1. The local boys were in fine form and made few errors, demonstrating to our Portland friends that we can play some ball over here on Yaquina bay. Hi Davis certainly made a hit with the ball, also the fans, by clouting out two two-base hits and another that was very nearly good for two sacks. Peter Casey also hit the ball when needed and showed that he is still there with the stick.

The Meier & Frank team went home feeling fine and were loud in their praise of the treatment accorded them in Toledo, and wish to come back in a few weeks for for another game if same can be arranged.

These boys played a game at Newport while here, beating Newport 7 to 2.
