Newport

On July the 24th the steamer Bandon left Toledo at 1:30 p. m. with a cargo of 600,000 feet of lumber bound for San Francisco and San Pedro. She crossed the bar at 3:30 the same day; soundings showed 17 feet of water on the bar at half tide; piloted by the Ollis S. Capt. Carner, master. From the time the Bandon left Toledo she passed over the bar in less than two hours, a distance of 14 miles, without any mishaps or delays whatever. This fully demonstrates the fact that a vessel drawing 13 1/2 to 14 feet of water can go to Toledo and load with six or seven hundred thousand feet of lumber and go out without any trouble. This proves that the twenty billion feet of standing timber on Siletz can be transported over the Yaquina bar to the markets of the world. The channel can be deepened to five or six feet more by an expenditure of \$300,000 or \$400,000 more in the way of improving the harbor. I believe this can be secured by a proper representation to the government of the importance of this improvement. Unless we ask for aid from the government to make these improvements we will never get it. Keep knocking at the doors of Congress until they pay attention to us. Send in data and information to our Congressmen so they can have something to work on.

J. H. Fitzgerald, manager of the Portland & West Coast Navigation company, was here during the week and met with the city council and the pilots, etc., placed on file. This completes the work up to the present time, according to plans and specifications of the franchise. The first ground will be broken within the next six months, ready for the laying of the rails and before the expiration of the four years the road will be completed and trains running from Portland to Newport. This is the guarantee of the company.

The new Baptist church located May street was dedicated last Sunday, July 26th, Rev. H. W. Davis of Eugene preaching the dedicatory sermon. He was assisted by Rev. O. C. Wright of Portland and Rev. O. C. Moody of the same city. The music was in charge of Mrs. Milina Waagener, principal of the conservatory of music in the Albany College. A large congregation was present. The chorus sang some appropriate pieces accompanied by the piano. The sermon was eloquent and impressive. The church is large and commodious and will seat 500 persons. It is built on the tabernacle plan—light, airy and well ventilated. The cost is about \$2,500, which is provided for, except about \$300. The congregation starts out under the most favorable auspices. Its membership is composed of some of the best people in Newport and numbers over fifty persons. Newport, with her splendid schools and churches, has as good social, moral and intellectual standing as any resort city on the coast. The building of this church is another evidence of the progress and stability of Newport.

On last Thursday evening a social was given at the Nicol Hotel by the ladies of the Baptist church. The parlors were nicely decorated with evergreens and flowers. A splendid musical program was rendered and some fine readings and declamations were given. A light luncheon was served. The proceeds were \$49, to be used for church purposes.

The Presbyterian church also gave a social on the same evening, gotten up by the Ladies Aid Society. A short musical program was rendered and a splendid chicken dinner was served. A general good time was had. The receipts amounted to \$50, which amount will be used for church purposes. The Catholic church will also give an entertainment in the near future.

Sunday was the big day for Newport. The two trains brought to Newport 725 passengers and on Saturday 400, making the largest number to come to Newport on these days this season. The barge Julia and the Newport handled the crowds without any trouble. Since the railroad track has been improved and the Newport painted

and fixed up and a new gas engine installed a much better service has been rendered. This accounts for the increased travel to Newport. It is hot in the Valley and cool on the coast and this brings a good many people to the coast. It is said the Newport, according to her size, handles more passengers than any other boat in the world. Last year she handled over 60,000 people without a single accident. This year the number of people passed over the road will be much greater.

Mr. Loudon and the other members of the Fair board are working hard to make the 1914 Lincoln County Fair bigger and better than ever, and anything you can do to assist them will be appreciated by these gentlemen. The premium lists will be ready for distribution next week and one will be mailed you on request. Address the secretary, Jos. Swearingen, Toledo, Or. As soon as these booklets are off the press the secretary will mail them to all former exhibitors and to such other persons as he thinks will be interested, but if you are overlooked do not be backward about sending in your request for same.

Superintendent Knott C. Egbert was in the city last Friday afternoon, going on down to Newport where his family was stopping for a few days. Sunday evening they departed for Tekon, Washington, where Mr. Egbert will take a position in the Indian service at the Coeur d'Alene reservation. The people of the Siletz agency and Toledo regret losing this family. Mr. Egbert has been agent and superintendent of the Siletz reservation for the past ten years, and has made a capable official and has endeared himself to all who have had dealings with him. His position as superintendent of the Siletz is now filled by Supt. Chascraft, formerly stationed at the Chemawa Indian school. Mr. Chascraft is an old Indian service man and our people are glad to see him stationed at this reservation. We wish Supt. Egbert and his estimable family success in their new location.

Gladys Freeman

Drowned

Last Wednesday afternoon at three o'clock Gladys Freeman, youngest daughter of Mr. and Mrs. George K. Freeman of this city, was drowned in Olalla slough while in bathing. In company with two little Derrick girls the unfortunate little girl was in the water when without warning and apparently without a struggle Gladys sank. Mr. Brown, who lives on Olalla where the accident happened seeing the girl in trouble jumped into the water and tried to reach her, but not being able to dive he was unable to reach her. He waited for her to come to the surface but she failed to do so. The alarm was immediately given and Dr. Burgess and many others hurried to the scene and within a short time the body was recovered. An hour or more was spent in a fruitless attempt at resuscitating. She had been in the water thirty minutes.

Gladys was born in Portland May 30, 1900. With her parents she came to Toledo eight years ago. She was a bright little girl, and will be greatly missed by her school mates and other acquaintances.

Funeral services will be held at two o'clock today, and the remains will be laid to rest in the Toledo Cemetery.

Mr. and Mrs. Freeman and family have the heartfelt sympathy of the entire community in this sad hour of bereavement.

Toledo Eight; Corvallis Seven

Toledo won the game last Sunday again, but by a very narrow margin, and by some very ragged ball playing. It was the boys' off day and they did not play anywhere near their usual game, still, considering that they were playing against the best team that has come over from Corvallis in years, we think we were indeed fortunate in annexing the game to our long string of victories. Things looked bad in the ninth though, when Corvallis had three men on bases, but a long run and a hard catch by Hi Davis in center field, retired them without a score.

Archie Lane of Siletz and a Corvallis man did the umpiring.

Here is the lineup:

Corvallis	Toledo
Swan	2b Carson
Smith	ss Casey
Colbert	3b Bissett
Reardon	cf Davis
Fegley	1b Groth
Bier	lf Center
Dilley	c Lane
Graves	rf Reed-Plank
Farmer	p Hauser

F. C. Paul of Harlan has been in the city several days this week.
