The Misses Branch of Yaquina, studied music under Mr. Grabam and that is the reason why they are so accomplished in music, and that is why their services are so often demanded at public gatherings. They made a special study of violin music. Miss June Reed, one of the world's greatest violin ists, assisted by Miss McElroy at the piano, and Mrs. Hampton at the organ and Mr. Dunsworth at the cello rendered some of the finest pieces of music Newport people have heard for many days. The violin is said to be the King of all musical instruments and Miss rusticate beside The Lake.
