Several of the parents attended the meeting and offered helpful suggestions. The program consisted of songs, (one especially, "The Secret of Success," being very appropriate), an excellent composition and short talks. The Grange and the Club are both working for a fine Fair at Rose Lodge next Fall.

M. E. CHURCH NOTES

The Argatheas will be entertained at the home of Miss Edna Plank Friday night.

Mr. Allen will occupy his own pulpit next Sunday. The morning topic will be "The Relation of the Child to the Church." Christ took the little children into his arms and blessed them, and said "Of such is the Kingdom of Heaven." Let us be watchful that we do not deny our children of their rightful place in the Church. In the evening the pastor will preach the Baccalaureate Sermon for the graduates of the High School. One of the features of this service will be the rendering of a number of College songs by the Choir. Al will be welcomed at both services.

CARPET TACKS

Preliminary plans often save time spent in correcting errors.

Self confidence inflates the heart, self conceit swells the head.

If the average man knew all that people think and say of him behind his back, he'd be totally discouraged.

Workmen who are constantly afraid of working themselves out of a job, often wonder why they have such difficulty in holding a job.

If you want a lot of friends don't get intimate with anyone.

All one needs to libel some people is to tell the truth about them.

An unpopular man is one who has brains enough to form an opinion and courage enough to express it.

Many persons have learned that the money it takes to make the mare go doesn't run an automobile very far.

When some men try to think it seems to make their scalp itch.

The greatest joy in going a-visiting is the blessedness of getting home again.

The Ford is lighter than any other car of its size and power. Yet stronger, sturdier, longer lasting. Vanadium steel, that's why. Vanadium is the hardest, strongest, toughest steel made. It is the only steel that is hard and tough at the same time. It is the highest priced steel that is used in automobile construction. Yet the Ford is very low in price. Its quality, terms, price and small cost of operation and upkeep, less than two cents a mile, have made it the universal necessity in town and country.

Buyers will share in profits if we sell at retail 300,000 new Ford cars between August, 1914, and August, 1915.
