

WILL PUT ROCK ON SILETZ ROAD

Road Supervisor Frank Lane is making preparations to start the rock crusher at Siletz next Monday preparatory to putting crushed rock on the Siletz-Toledo road. The people living along the road have donated some six hundred dollars' worth of work and the county will do an equal amount. With this amount of money the road can be put in pretty fair condition. During the past Winter the road was nearly impassable and it is hoped that it can be gotten in good condition for the coming Winter.

MAMMOTH GENERATOR FOR FORD POWER HOUSE

The six direct current electrical generators now being installed in the new power house of the Ford Motor company are likely to take their place in the "Manufacturing Hall of Fame" along side of the Panama Canal locks and other "biggest" manufactured things.

It is said that the Ford power plant is now the largest of its kind in the world. It will develop 45,000 horse power distributed to shop machines by means of numerous overhead motors.

It is estimated that one of the new generators when running at normal speed produces enough current to light more than 90,000 40-watt tungsten lamps of the kind commonly used in home lighting. Allowing an average of 25 such lamps to a house the current generated by these six dynamos would be sufficient to furnish home illumination for a city of 108,000 people. The total weight of the generator, including the shaft, is figured at 135 tons.

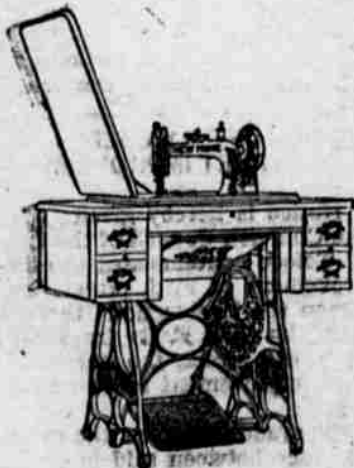

The new generators are so huge they could not be shipped in complete form from the plant of the Crocker-Wheeler Co., Amper, N. J., where they were manufactured, as it would have been impossible to get through railroad tunnels or under many of the bridges. They were therefore shipped and handled in sections which necessitated the sending of special men and machinery to the Ford plant.

If one of the new generators were placed before a two and one-half story house of the usual dimensions, the lower stories would be hidden from view, for the frame of the generator would reach from the sidewalk to the bottom of the attic windows and would more than span the front of the house. Some of the bolts used weigh 500 pounds each and some of the nuts 90 pounds. Twenty-six thousand separate parts were used in making the laminated cores and 8000 pounds of copper wire in the commutator alone.

SUMMONS

In the Circuit Court of the State of Oregon for the County of Lincoln. Isiah B. McJunkin, Plaintiff, vs. William F. McJunkin, A. E. Brooks and Laura Brooks, Defendants. To William F. McJunkin, A. E. Brooks and Laura Brooks, the above named defendants:

In the Name of the State of Oregon: You and each of you are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the expiration of six weeks from the date of the first publication of this summons, exclusive of the day of said first publication and if you fail so to appear and answer, for want thereof, the plaintiff will apply to the above entitled Court for the relief demanded in plaintiff's complaint, to-wit: For a decree of this Court foreclosing a certain mortgage executed by William F. McJunkin and Eliza J. McJunkin on the 18th day of July, 1910, on the following described real property situated in Lincoln County, Oregon, to-wit:

Beginning at a point 26 1/2 rods north of the section corner to sections 16 and 17, township 11 south, range 19 west of the Willamette Meridian in Oregon, run thence west 98 rods to Ollala slough thence up east bank of said slough to 1-16 section line, thence east to 1-16 section corner, thence north 29 rods, thence east in section 16 eighty rods, thence south 92 rods, thence west to place of beginning, containing 95 acres, more or less and being in sections 16 and 17, in township 11 south, range 19 west of W. M. in Oregon.

And that the above described property be sold by the Sheriff of Lincoln County, Oregon, as provided by law to satisfy the amount due and owing to the plaintiff on said mortgage and further that each and all of you and all persons claiming by, through or under you or either of you, may be barred and foreclosed of any estate, right, title, lien or interest in or to the said mortgaged premises or any part thereof and for such other and further relief as may be equitable and just.

This summons is served upon you by publication in accordance with an order by the Honorable R. R. Miller, County Judge of Lincoln County, Oregon, which said order is dated July 29, 1915, and which requires that this summons be published in the Lincoln County Leader at least once a week for six consecutive and successive weeks. The date of the first publication of this summons is July 30, 1915.

GEESE HISS AT HER; SHE ASKS RELIEF

Complaining that flocks of privately owned geese are making their habitat on lands belonging to the station of the Corvallis & Eastern railroad company at Yaquina, Mrs. C. M. Ferry has asked the public service commission to relieve the public of the nuisance, says the Salem correspondent in the Telegram.

She says the land is used as a thoroughfare, and that after a recent trip across it she was "both physically and mentally upset." The commission has assured her it will immediately act in the matter.

THE OLDEST INHABITANT IS RIGHT UP TO DATE.

TOBACCO satisfied—a clean, small chew. It's the Real Tobacco Chew.

So satisfying and comforting that men are glad to hear about it. And then when they've found it their next impulse is to see that their friends get the good news, too.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!! W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste.
