Every train brings in from a
half dozen to twelve or fifteen
would-be homesteaders, who are
anxious to gobble up one of
those much-advertised Siletz
claims. After spending a few
hours here or at Siletz they re-
turn to their homes looking and
feeling blue and disgusted.

About twenty-five Oddfellows
and Rebekahs met last Tuesday
evening at the Oddfellow hall,
that evening being the regular
Rebekah lodge night. After the
business meeting a very enjoy-
able evening was spent in a so-
cial form. Games were played
and a light refreshment served.
The hostesses for the evening
were Mrs. Hall and Mrs. Derrick.
The Rebekahs are looking for-
ward to more of these pleasant
evenings. The next social even-
ing will be held April 18th. All
Oddfellows and wives and Re-
bekahs are invited to be present
at that time.

COLONIST RATES ON

MARCH 25th to April 14

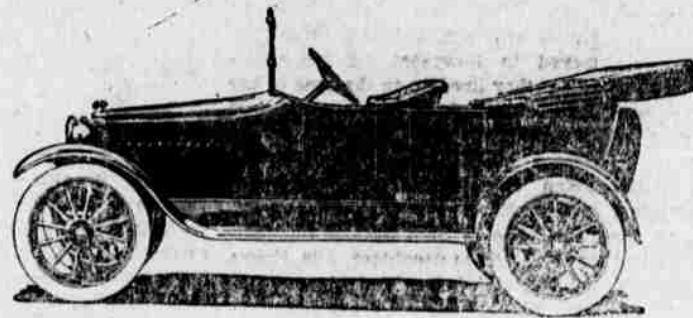

Low one-way Colonist Rates from
the East to Oregon will be on sale
March 25th to April 14th. The Sou-
thern Pacific has issued a little book-
let for general distribution through-
out the East, calling attention to the
many opportunities for settlers on the
Pacific Coast.

Oregon receives prominent mention
in this booklet. Special attention is
given the three great valleys of West-
ern Oregon, Willamette, Umpqua and
Rogue River. In speaking of the el-
bow room in Oregon for settlers the
booklet says: "Oregon has a vast
acreage of untitled farm lands. Farm-
ers have more land than they can cul-
tivate, and the western part of the
state is a land of great agricultural
opportunities."

The class of colonists that will take
advantage of these low colonist rates
will be mostly farmers from the East-
ern and Central states who have dis-
posed of their farms in the East and
are coming West to a milder climate
to own a home and develop the land.
These low rates have not been in ef-
fect since the Spring of 1914, and for
that reason there should be a heavy
travel to the Pacific Coast this year.

SAXON "SIX"

A big touring car for five people

The top place car in its price class

Here is a finished example of the
modern quality car. It will meet
fully your ideals—in beauty, in
luxury, in comfort, in strength, in
power.

It typifies—in every feature, in
every detail—the newest develop-
ments in fine automobile con-
struction. And the price—\$785—
a new price for a class car.

Here are resistless attractions

If you seek the utmost in present-
day automobile value—then this
Saxon "Six" at \$785 will surely
win you.

It has lightness—gained through
costly materials and ablest de-
sign. So it is strong and rugged,
too.

It has power—of fluid smooth-
ness and flexibility. No car of
like price can compare—we be-
lieve—in acceleration and all-
round performance under all con-
ditions. And this Saxon "Six"
high-speed motor develops great

er power per gallon of gasoline.

It has beauty—unrivaled yacht-
line grace. Its finish is of superb
and lasting lustre. It has com-
fort—it is a big, roomy car.
All five passengers have ample
space. The wheel base is 112
inches.

It has operative economy. Saxon
"Six" high-speed motor saves
greatly in fuel cost. It has a
two-unit electric starting and
lighting system—silent, efficient,
reliable.

It has Timken axles, with full
Timken bearings throughout the
chassis. Even costly cars have
no better. It has helical bevel
driving gears. Thus the noise
and friction common to many cars
are eliminated in Saxon "Six."

It has linoleum covered alumi-
num bound running boards and
floor boards—and nearly a score
more of further refinements.
Come see this new series Saxon
"Six." You'll find it the top
place car of the times—at any
where near its price.

THE "WHY" OF GASOLINE PRICES

The why and wherefore of the ad-
vance in price of gasoline is explained
by the following, furnished us by Jack
Fogarty, representative of the Stan-
dard Oil company on this bay:

"Supply of crude oil increasing .6 of
1 per cent; consumption of gasoline
increasing 27 per cent. Put very
briefly, this is the why and wherefore
of the advance in gasoline prices. It
is the working of the inevitable law of
supply and demand. In California oil
fields last year, there was an actual
falling off in crude oil production of
over 14,000,000 barrels. The United
States Geological Survey shows that
the total 1915 production of crude oil
increased only six-tenths of 1 per cent
over that of the previous year. And
yet 500,000 automobiles were put in
use in the United States in 1915 and
increased the gasoline consumption for
automobiles alone, fully 27 per cent
over the consumption in 1914. Mean-
while, thousands of gasoline engines
and tractors are being put into service
on our farms and ranches and depleting
the available gasoline supply.

Thus far this year production has
run considerably less than normal.
Just as was the case last year, the
United States government suits
against operators on unpatented lands

is greatly limiting production and the
severe January storms, which wrecked
hundreds of rigs in the California fields
has further retarded production. The
California state mineralogist estimated
a daily average loss in production of
40,000 barrels as a result of this storm
damage."

- ? Do you know that tickets to Eastern destination via Cali-
fornia cost but a trifle more than on more Northern
Routes?
- ? Do you know that only one change of cars is necessary if
you go via California to Chicago, Omaha, Denver, Kansas
City or St. Louis?
- ? Do you know that the transit limit of tickets is longer
if you go via California? This allows liberal stop-
overs.
- ? Do you know that there are library observation, standard
