DANGERS OF DRAFT

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuritic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist.

Why should deciduous (temporary) teeth receive early and systematic treatment?

To preserve them until the time of physiologic eruption of the permanent teeth, preserving the normal size, shape and articulation of the arches.

What objections are there to the premature extraction of the temporary teeth?

Proper space may be lost for the eruption of permanent teeth, causing malocclusion or possible impaction.
