**FIGHT FOR TAX REDUCTION**

Persons with bills to go be-  
fore the legislature or by initia-  
tive before the people, involving  
large expenditures, might as well  
save themselves trouble as they  
will not be authorized.

Political crazes and their ef-  
fect on taxation are being  
thought over by the people as  
never before and not many more  
steps in that direction will be  
taken on this coast in the near  
future.

The high cost of living and the  
high cost of government are in  
large due to the development of  
a trained army of experts, or po-  
litical pests, called uplift boards,  
commissions or whatnot.

The average per capita tax in  
Oregon is nearly as high today  
as in war-ridden Germany and  
from \$20 per capita to \$60 per  
capita within a decade on pro-  
gressive lines.

In 20 years Oregon taxation  
increased five hundred per cent,  
and the per capita in the three  
coast states is about the same—  
all higher than New York. The  
tax rate should come down 25  
per cent.

Cheap capital, with high tax-  
ation, will not employ high  
priced labor, and establish-  
ment of new industries will go on  
very slowly until the average rate  
of taxation has been reduced con-  
siderable.

Cheap capital becomes dear  
capital when taxes amount to  
two and a half to three per cent.  
Low rates of interest are im-  
possible for industrial develop-  
ment or manufacturing enter-  
prises.

It is only the interest-eating  
mortgages that can live when  
the cost of government is too  
high, and the high cost of living  
can not be reduced with taxation  
applied in too many forms.
