PUBLIC SCHOOLS OVERLOADED

There is a disposition to reduce taxation and levies are falling off in all departments of government but school taxes are growing.

Adding commercial colleges teaching journalism, and adding law courses in high schools are samples of overloading the patient ass.

A town of two or three thousand only needs two journalists, but needs a dozen barbers. Why not put in a school of tonorial art?

Why state schools should teach journalism any more than forty other occupations is not readily explained, but it sends up taxes.

It costs more to educate high school students in some of these expanded state high schools than it does to send students to college.

The public schools are overloaded with fads, and should be trimmed of everything but manual training, domestic science and gardening.

These features, with possibly vocal music, are of universal benefit, and will help nine children out of ten to make a living.

There are too many incompetent lawyers, "journalists", bookkeepers and stenographers now, without multiplying them in high schools.

RESOLUTION

The following resolution has been submitted to all granges and commercial bodies in the state by C. C. Chapman of the Oregon Voter.

WHEREAS the so-called People's Land & Loan Law, if adopted by popular vote in November, would become part of the Constitution of Oregon, and

WHEREAS, it would make all farm-owners and home-owners mere tenants of the state, possessed of empty titles and burdened with the obligations of paying each year the full rental value of their homes and lands into the public treasury, and

WHEREAS, by its provisions for loaning \$1,500 cash without interest for five years to anyone who with his family has failed to accumulate property of the total value of \$2,250, it penalizes thrift and puts a premium upon shiftlessness and extravagance at taxpayers expense, therefore be it,

RESOLVED, that we urge our membership and all other intelligent citizens to give attention to the revolutionary proposals of this radical measure, so it may be voted down by so large a majority that the promoters of this single tax legislation may be brought to realize the futility of their visionary but dangerous schemes at every general election.

Before the present administration went into power sugar could be purchased for five cents a pound. Now you can buy it for ten cents a pound.—Harney County News.

A CANDIDATE FOR THE DEMOCRATS

"President Wilson," says the non-partisan press, "is entitled to re-election because he kept us out of war with Mexico. President Wilson ordered the bombardment of Vera Cruz, which would have resulted in war if Huerta had been strong enough to fight us. President Wilson ordered the invasion of Mexico, which would have caused war if Carranza had had the men and the money with which to fight us. Huerta is dead, but if the Democrats are looking for the man who really kept us out of war with Mexico, they should elect Carranza.—Portland Spectator.

FOR SALE

Six cows, some of them dry; 5 calves; 5 2-year-old steers; one roan durham heifer, 2-year-old; 3 saddle ponies at \$50 dollars each; one mare, single driver, good one for \$75. I ask the market price for this stock, inquire of—
Geo. Hodges, Salado, Ore.

UNIVERSITY OF OREGON
EUGENE, OREGON

308 X YES IS A VOTE FOR YOUR CHILDREN

ONE NORMAL NOT ENOUGH

Oregon has but one Normal School. This school is located at Monmouth. Excellent as is the work of this school it is utterly unable to supply but a small part of the need for trained teachers for the State.

Of more than 6,000 school teachers in the public schools of Oregon, but 13 per cent have been trained for their profession of teaching in Normal Schools. It is a well established fact that our one Normal School cannot supply the needs of the entire state. That is why we ask for your work and vote for the proposed Eastern Oregon State Normal School at Pendleton, Oregon.

GIVE EASTERN OREGON SQUARE DEAL

Eight counties in the Willamette Valley have employed during the past five years, 203 teachers who have graduated from the Monmouth Normal as against 39 Monmouth Normal School graduates for the eight leading counties of Eastern Oregon.

During the past five years the attendance of students from nine Willamette Valley counties was 877 students as against 81 students from nine of the leading counties of Eastern Oregon.

Owing to the crowded condition of our one Normal at Monmouth and also the distance and expense of attending, students from Eastern Oregon are compelled to go to neighboring states to secure their training as teachers.

ONLY COSTS 4 CENTS PER \$1,000

The annual maintenance cost of the proposed State Normal School in Eastern Oregon amounts to but one 1/10th of a mill or 4 cents on a thousand dollars of taxable property. Isn't it worth this to have your children trained to become useful and productive citizens?

STRONG ENDORSEMENTS

Among those who strongly endorse the establishment of the proposed Eastern Oregon Normal School are Governor Withycombe, J. H. Ackerman, President of the Monmouth State Normal; W. J. Kerr, President of the Oregon Agricultural College; P. L. Campbell, President of the State University; Robert C. French, former President of the Weston Normal, and practically all of the leading educators of the State.

J. A. Churchill, Superintendent of Public Instruction, voices the sentiments of those who are most familiar with the need of more adequate Normal facilities when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training."

"It trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to students to get the amount of teaching practice required in a standard normal school."

All the above educators insist that a Standard Normal School must be located in a town of 5,000 or more population and having enough grade pupils for teaching practice.

VOTE RIGHT

By voting YES for No. 308 you will help to give to the school children of Oregon the same advantages enjoyed by the school children of our neighboring states.
Vote YES for No. 308.

Eastern Oregon State Normal School Committee

By J. H. Gwinn, Secy., Pendleton, Ore.

POLITICS, STRIKES, BOMB THROWING AND WAR

National politics, local politics, war, strikes and bomb throwing have held the center of the stage the past few months.

Is it any wonder the country is in a state of unrest?

Agitators have the privilege of going through our country and saying what they please, where they please and when they please.

Satisfied workmen are kept in a constant state of unrest and no manufacturer knows what he can count on from one month to the next.

Whether the general feeling of war the world over has brought on this spirit of lawlessness in the United States no man can tell, but the fact remains that unless conditions are changed, capital is going to be harder and harder to get to invest in all lines of industry, for the man with money will be afraid to take the chances he now assumes when he starts a payroll.

FOR SALE

FOR RENT

Three husekeeping rooms, partly furnished; city water, on business street in Toledo. \$5.00 per month. Enquire at this office.

Fred Lockley of Portland was a visitor at Toledo yesterday, Mr. Lockley is here in the interest of the proposed Eastern Oregon State Normal school at Pendleton. In speaking of the matter, Mr. Lockley said, "The voters at the coming election in November will be called upon to decide whether Eastern Oregon shall have a State Normal to train teachers for the schools of Eastern Oregon. The cost of maintenance of this school will be one twentyfifth of a mill or four cents on each thousand dollars of taxable property a year.

Nowhere else in the state are teachers paid as high salaries as in Eastern Oregon, yet in spite of the high salaries, the teachers are, to a very large extent, inexperienced and untrained. When you need the services of a physician, a surgeon, a lawyer or a plumber you try to secure the services of a man who knows his business; yet when school boards employ teachers to train and educate your children and mine, fitness for the work of developing and training the character of their charges is but little considered.

Pendleton has more than a thousand pupils in her public schools. Practically every educator in the state favors the establishment of a Normal school in Eastern Oregon.
