This is done to protect the county bridge which crosses just below the racks or dam, and which came near washing out last winter. PENDLETON IS IDEAL LOCATION FOR NORMAL

CITY'S RAILROAD, HEALTH, EDUCATIONAL AND OTHER FACILITIES ADAPT IT FOR SCHOOL SITE.

Pendleton, Ore.—Pendleton's claims for the establishment of a State Normal School are based upon the unusual advantages offered for such an institution. It is ideally located with respect to railroad facilities and in the center of the country which it will serve. Its health conditions are excellent. It has a bountiful supply of clear, cold, pure mountain water.

It offers a library of 12,000 volumes, to which are added 3000 annually, housed in a beautiful new building, erected at a cost of \$40,000. The largest athletic stadium in the Northwest, capable of accommodating 20,000 people; a natatorium, modern and equipped for the use of men and women, built at a cost of \$11,000; ample auditorium room for lyceum courses and lectures and a school system that is without equal in a city of its size. Its facilities and the students necessary for practice teaching have been guaranteed by the city board.

OREGON RANKS LOW IN NORMAL SCHOOLS

U. S. BUREAU OF EDUCATION REPORT UNCOMPLIMENTARY TO STATE'S SCHOOL POLICY.

Pendleton, Ore.—Oregon is one of the most poorly equipped states in the Union for the training of teachers according to the United States Bureau of Education. Only five states in the Union have less Normal equipment than Oregon. Oregon has one Normal School and forty states have more than one. New York has 18, Pennsylvania 18, Massachusetts 12, California 8, Washington 3 and Idaho 2.

The report of the Bureau of Education shows that even the little state of Idaho, with a population only half as large as that of Oregon, is spending more than twice as much for Normal Schools as is this state.

The same report urges that Normal Schools be located in the railroad centers with public schools sufficiently large to give teaching practice to the Normal students.

State Superintendent Churchill's annual report shows that of the 6055 teachers in Oregon last year but 791, or 13 per cent, were Normal School graduates. The same official estimated that 1900 new teachers are needed each year and the present Normal school is turning out but 150. The majority of Normal trained teachers are shown to be teaching within a small radius of Monmouth, although Eastern Oregon pays on the average of \$10.41 a month more for teachers than does the Willamette Valley.

Ice Cream and Cake served every Saturday and Sunday at the Bonboniere.
