CAN YOU CONCEIVE OF SUCH A SITUATION

The so called "Land and Loan Measure" (single tax) on the November ballot provides for loaning \$1500 without interest for 5 years to anyone who with his family has failed to accumulate property of a total value of \$2,500. It's hard to imagine a more absurd proposition. Every pauper in the U. S. would come to Oregon.

A sane man cannot conceive of such a condition. A man and his family who have failed to accumulate a home are unfortunate. Would it help them, however to loan them \$1500. Nothing is easier to get rid of than cash and the next thing the borrower would know, his money would be gone and he would be worse in the hole than ever.

A man who has failed to accumulate a home would stand small chance of paying back \$1500.

Why not change the law and simply give the propertyless person \$1500 outright. There would be as much sense to it.

The proposed Land and Loan Law penalized thrift and puts a premium upon shiftlessness and extravagance at taxpayers expense.

From an industrial standpoint it would kill the state, as industry could not assume such a burden and survive.

DO WE WANT IT AMENDED?

General Grant said: "Let us have peace." But he didn't add "at any price."

CAN YOU BEAT IT?

We do not believe that you can do any better than vote 'er straight.

SHOOTING STARS PROMISED

University of Oregon, Eugene, Oct. 2.—Two separate annual displays of shooting stars will be visible throughout Oregon, November 15 and 24, according to E. H. McAllister, professor of astronomy and mechanics in the State University. The display due on November 15 may be seen in the early morning hours; that of November 24 is due in the early evening. The earth at these times will be cutting through the orbit of the swarm of meteors from which the stars come.

Display of the aurora borealis will be visible in Oregon next winter, for the first time in 11 years. Mr. McAllister says, Northern lights are dim in this latitude of the west, except when the sun spots have reached their maximum number, which occurs only once in 11 years. A connection between the sun spots and the aurora borealis is believed by many scientists to exist.

Prince Albert gives smokers such delight, because

—its flavor is so different and so delightfully good;
—it can't bite your tongue;
—it can't parch your throat;
—you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT
the national joy smoke

YOU'LL find a cheery hardy-do on top no matter how much of a stranger you are in the neck of the woods you drop into. For Prince Albert is right there—at the first place you pass that sells tobacco! The toppy red bag sells for a nickel and the tidy red tin for a dime; then there's the handsome pound and half-pound tin humidors and the pound crystal-glass humidors with sponge-mistener top that keeps the tobacco in such bang-up trim all the time!

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

This is the reverse side of the Prince Albert tidy red tin. Read this "Patented Process" message-to-you and realize what it means in making Prince Albert so much to your liking.
