DEMOCRATS WIN NATIONAL VICTORY

The Rod and Gun Club gave a dance at their hall Tuesday evening. It was well attended by the elite of the city. Music by the Pickens Orchestra. The room was beautifully decorated and was thronged with over a hundred persons. Everyone had a good time. Light refreshments were served and the dance went merrily on till after midnight.

The ladies of the W. C. T. U. gave a dinner on election day at the banquet room of the L. O. O. F. Hall. One hundred persons took dinner. It was a fine twenty-five cent dinner. The receipts were \$25 which will be used for the benefit of the Society.

At this writing the result of the presidential election is still in doubt. The odds seem to be in favor of Mr. Hughes. No election in the United States has ever been held where so many votes were cast and where the candidates have run so evenly together. In some of the states the votes were only a few hundred in difference. This evenly balanced number of the parties is a good thing for the country because the party in power will be put upon its good behavior and watched so the people will get a more efficient and better government. Parties being long in power become corrupt and arrogant and for that reason the people change them. The best government after all is "by the people, for the people and of the people."

President Kirkland of the Commercial Club called a special meeting Saturday evening for the purpose of admitting into the club Mr. Wickland who is surveying for the Portland and West Coast and Navigation Railroad Company, and Mr. Fitzgerald the manager. Both gentlemen made speeches. Mr. Fitzgerald among other things, said the Port Commission ought to send a man to Washington to boost for appropriations for the harbor improvement, they should pay the man all his expenses and if Congress appropriate the funds to pay him a per centage thereof for his labor. On motion it was ordered that the president appoint a committee of two to furnish correct statements of the doings of the club to the Toledo papers, in discussing the question it was claimed the reporter of the Lincoln County Leader from Newport misrepresented a statement alleged to have been made by Mr. Fitzgerald in this report in Leader. Mr. Fitzgerald said we must have 35 feet of water on the bar to make it possible to build the railroad. Certain members claimed Mr. Fitzgerald did not make this statement but he did say boost for 35 feet of water on the bar.

Watchful Woodrow Wins

The latest returns give the Democrats a victory for President of the United States, they having re-elected Woodrow Wilson to that high office. The electoral vote standing 268 for Wilson and 263 for Hughes. Some fight! The result is so close that it may take the official count to determine for certain, but at this time the election is conceded Wilson.

The local Republicans have some consolation in the fact that they gave the Democrats an unmerciful drubbing in the county for the county officers, the Democratic candidates failing to land in a single instant.

C. E. Hawkins came off with the largest majority on the Republican ticket, and Al Waugh received the largest Democratic vote, but lacked several hundred of being elected.

It was also a Republican year in Oregon, Hughes leading by about 8,000.
