What is believed to be the  
first "printless newspaper" in  
America is now a flourishing  
institution in Switzerland coun-  
ty, Indiana. The "newspaper"  
is a daily telephone bulletin fur-  
nished to the subscribers of the  
Farmers' Telephone company.  
At a certain hour each day the  
exchange operators in all parts  
of the county call the subscrib-  
ers to the telephone and report  
news developments of interest.  
Weather forecasts, births, deaths,  
weddings, accidents, serious ill-

A. T. Peterson, the rustling

has sold six Ford cars for spring

prospects in sight. This is not  
so bad for the quiet times we are  
having. Among those buying  
cars he mentioned Billy Graham,

**OREGON INDUS-**

**TRIAL REVIEW**

Oregon Industries are slowly  
but surely regaining former ac-  
tivity. Tendency of Legislature  
and people to refuse enactment  
of industry killing measures is  
restoring faith in Oregon invest-  
ments.

Roseburg, Feb. 19.—Eastern  
capitalists lease 3200 acres of  
land near here to drill experi-  
mental wells for oil.

Florence—Vancouver men  
take option on large amount of  
cedar near here and plan to er-  
ect shingle mill.

Grants Pass—Chrome depos-  
its in Illinois Valley to be exten-  
sively worked this summer.  
4000 tons shipped out past sea-  
son.

Grants Pass—Beet growing  
is becoming the popular indus-  
try here. The land can be made  
to produce from \$75 to \$100 per  
acre under correct treatment.

Portland—Tacoma ship yards  
place rush order for 4,000,000  
feet of lumber.

Hood River—Mt. Hood R. R.  
will build two-mile extension to-  
wards Lost Lake.

Independence—Valley and Sil-  
letz R. R. reported ready to be-  
gin erection of shops here soon.

With the danger of war hang-  
ing over the country, we are  
brought face to face with the  
value of our industrial plants  
and railroads to the govern-  
ment. Conservative legislation  
for their protection should be  
the order of the day.

Suburban residents are seek-  
ing extension of carlines but  
President Griffith of P. R. L. &  
P. Co. said that it was impossi-  
ble, "until Prtland treats the  
street car company a little more  
generously." We would sug-  
gest that the residents ask the  
jitney drivers union to put au-  
toes on the run at 5 cent fares.

The Dalles—\$260,000 to be  
spent here this year on building  
Wittenberg-King Co's. new  
plant to cost \$60,000—Catholic  
boy's school will be erected at  
a cost of \$12,000—Libby, Mc-  
Neill & Libby to construct dor-  
mitories for employes—New  
garage worth \$35,000 to go up  
and addition of another is start-  
ed.

Bandon—More than \$1,000-  
000 of goods shipped over bar  
here last year.

Portland—Ship yards here are  
humming. Big steam schooner  
to be built, owned and operated  
by Portland men.

Toledo—Lincon county plans  
buying portable sawmill to cut  
lumber for planked roads.

Toledo—Packing herring is  
new industry here. Eighty-five  
foot lumber carrier being built  
at Taft, fishing schooner Free-  
mont and passenger boat New-  
port being put in commission at  
Hansen ship yards here.

Grants Pass will experiment  
with New Zealand flax in this  
district.

Coos Bay—Keel laid for sixth  
large vessel in local ship yard.

Roseburg—Chinese start big  
truck farm of 250 acres.

Bandon—Woolen mill to op-  
erate and employ 20.

Toledo—Farmers are working  
for a cheese factory.

Coos Bay—North Bend Mill &  
Lumber Co. to build 14 miles  
logging road up Davis Slough at  
once.

Lebanon expects to establish  
a fruit cannery.

The wonderful potential possi-  
bilities of western water pow-  
ers still await the pleasures of  
eastern millionaire conserva-  
tionist, (so called) and log roll-  
ing politicians.

Independence—Electric ser-  
vice on S. P. to be inaugurated  
as far as this city March 1st.

Aside from the direct inter-  
est to the farmers, many benefits  
are derived from a sugar factory  
—it employs from 400 to 500  
men from October until Febru-  
ary, turning the unproductive  
time of 500 men into productive  
time and at low estimate of \$50  
per month would mean an in-  
crease of wealth to the extent  
of \$25,000 a month.

Portland—Eccles interests  
order \$125,000 worth of new  
equipment for Sumpter Valley  
Railroad.

Southern Pacific, at its own  
expense, is maintaining com-  
plete patrol system for tunnels  
and bridges as well as its stores  
of supplies which might be de-  
stroyed and hamper operations of  
road when needed for rapid  
transportation of troops and  
supplies.

And now a bill is before Con-  
gress to prevent launching any  
vessel for foreign owners. This  
act should kill American ship-  
building as successfully as La  
Follett's Seaman's act has killed

American shipping and both in-  
dustries would then be dead  
enough to satisfy the most rad-  
ical politician and labor agitator.  
Of course, our workmen  
can go to a foreign country to  
get jobs after the war unless a  
bill is passed to prevent that.

Toledo—Schafer Bros. in-  
stalling shingle mill on upper  
Siletz.

Klamath Falls—Box factory  
to be started at once and will  
employ 50.

Vale to have new brick busi-  
ness building.
