TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, JUNE 29th, 1917.

NUMBER 19

## NEWPORT

The wind storm of Saturday was of unusual severity for the time of year. The wind blew at Newport and along the coast, seventy miles an hour. Slight damage was done gardens by the wind and rain storm Saturday night, potato vines and other garden truck were blown down and some of it out of the ground.

The Newport and Toledo porc commissioners met Monday evening at the city hall and transacted some business but nothing of special importance. W. E. Ball of Toledo one of the commissioners represented that city. It was thought best not to advertise for the sale of bonds until they could get the co-operation of the government, so the meeting adjourned indefinitely. This was the only thing to be done. The government has entered the great war in Europe and there is no telling when it will end and before it is finished it may tax the nation's resources to the utmost. A number of gentlemen were present representing different bonding firms most of them were from Portland, viz. P. A. Gilmore, Carl Kelta, T. B. Pratt, Fred Glenn and W. C. Clark. These gentlemen are all registered at the Abbey.

O. W. Wittingstead from San Francisco, engineer and employee of the Southern Pacific, is also registered at the Abbey. He will spend several days at Newport.

The money raised at Newport for the Red Cross fund amounted to \$600 of this amount \$57.50 was raised at Yaquina. The \$2,000 that was assigned to Lincoln county has not been raised yet but we hope it will be.

In this war every American should stand ready. It is a fight for supremacy, autocracy or democracy must rule the world. The Kaiser is the hereditary King of Prussia and the emperor of Germany. His mother was the eldest daughter of Queen Victoria, England's greatest queen. He is the third German emperor. His father, Frederick, died after a reign of three months. The Kaiser patterns after the Iron Chancellor, Bismarck, who built the German Empire. The Kaiser believes the Divine Right of kings to rule. He believes in Prussian militarism and he has organized the greatest military machine the world has ever known. His power with the German people is unlimited and his desire to rule the world through military force is insatiable but like Napoleon he will fail and it may cost millions in the treasury and thousands of lives to prevent human liberty from being blotted from the earth. America has nobly responded to the call.

Deep sea fishing is growing in interest. The Sea Foam and Spray have joined the other ten or so boats that have been engaged in this business for some time. The Decora came in Monday evening and she will also engage in the fishing business.

The summer travel is increasing right along and the cottages are being rapidly filled up. The road to the Valley is said to be in fair condition but still more work ought to be put on it, which I understand is being done now. Autoes are coming in every day and the beaches are beginning to put on a summer appearance. From this on we expect good weather and increased travel.

Joseph Gideon was in Newport Monday on his way home to Seattle. He had been on a visit to Waldport where a good many of the years of his life had been spent. He is an engineer and school teacher but moved to Seattle a good many years ago, because of the better opportunities offered there for his business, but he thinks Yaquina Bay is the ideal place to live and Newport is the ideal seaside resort in Oregon. He will visit his sister in law, Mrs. Henry Howell at Toledo.

The wharfs on Front Street are being fixed in good shape. The piling are being driven by Clarence Altree and his crew.

Ashael Bush who built the \$10,000 bungalow at Agate

Beach is now finished. It is of elegant style and it will be one of the most beautiful seaside homes in Oregon. The location is ideal. It overlooks the Pacific on the south for many miles along the coast. The location is just where the Megginson and Briggs, the original owners of the Cape built their home. No doubt other elegant buildings will be erected there in the near future.

Mr. and Mrs. M. M. Davis of Eugene and their daughter, Mrs. Walker of Portland, and their two little boys are spending a few weeks at the seashore. Mr. Davis owns a fine dairy farm near Yaquina and has it fitted up with modern barns and is now milking about 25 fine dairy cows. The cow is one of the best assets the county has.

## LITTLE ELK

Little Elk has become again civilized and its inhabitants have come to. The reason we have not been heard of in the past few weeks was on account of a cougar scare. On Sunday, June 10, a posse consisting of W. F. Cline, Vance Cline, Oscar Matthews, Elmo Wehnert, Leonard Wakefield, T. F. Willoughby and Alfred Weaver accompanied by several dogs succeeded in capturing the beast which measured over eight feet. W. F. Cline fired the fatal shot. We are sure glad to see these animals killed off as they have no mercy on sheep and goats.

Hornor Willoughby now has a big barn almost completed which is a mark of prosperity to Little Elk.

The Cline sawmill is very busy at present.

Mrs. C. H. Wakefield and children returned from Woodburn last Friday.

Mrs. Vance Cline returned from a visit at Eugene last week.

W. J. Cline is the first on Little Elk to own an auto. He and wife were accompanied by W. F. Wakefield and wife to the "Round-up" at Philomath last Thursday.

Mrs. S. T. Loudon returned Friday evening from a visit with relatives at Woodburn.

Oscar Matthews has the Willoughby barn contract nearly completed. Vance Cline, Alfred Weaver and Frank Willoughby have been helping him.

M. L. Selts, a former merchant of Eddyville is moving back to this part of the county.

The recent showers will prove a great help to the crops; especially the late grain.

Ernest Cook has been hauling lumber for G. L. Landess the last few days.

Floyd Pepin and Lloyd Cordell went to Portland last Saturday and returned Monday in an auto. Floyd bought a Saxon runabout and brought it out with him.

N. W. Miller reports that some one politely took a super of honey off some of his bees lately. He says that the party that took the honey had better look out for he knows pretty well who the guilty party is. It seems that some thing should be done with these house breakers and thieves in this vicinity, for they are getting to bold.

Mrs. E. M. Wood, Mrs. U. G. Hart and son, Haniel and Rolan Wood and Myrtle Weaver all walked from the place here to Toledo Tuesday.

E. A. Wildman, the strawberry wizzard, will hold his Annual Strawberry Festival on Sunday, July 8, everybody come and have a good time.

## PORT BOND SALE INDEFINITELY POSTPONED

Having failed to receive word from Washington with regard to the program outlined for the improving of the Yaquina Bar, with funds derived from the sale of the bonds of the Port of Toledo and Newport, the local Port Commissions decided to indefinitely postpone the bond sale which was advertised for last Monday. Six bond buyers were present in person, beside a number of sealed bids were received.

Whenever assurance is received from Washington, that the Federal Government is ready to take our money and proceed with the work, then the bonds will be sold. Until that time arrives nothing of a definite nature can be accomplished.

## TOLEDO DISTRICT EXCEEDS QUOTA

Lincoln County was apportioned to raise \$2000 for the Red Cross, of which sum \$1000 was apportioned to the Toledo Chapter and \$1000 to the Newport Chapter. The Toledo teams went at the work with a spirit and vim that just couldn't be resisted, and they have in their treasury today the neat sum of \$1228.45 with one team yet to report. J. C. Dixon sent word down from Elk City last evening saying, "If we lacked any of raising the amount required, that Elk City was ready to raise \$100 more." This is the right spirit.

The local Chapter has a membership of 234 and the list of donors is so long that the committee has decided not to publish same.

## SAWMILL AND CAMPS RUNNING FULL BLAST

The local sawmill and logging camps both started operations last Monday morning and have been running full blast all week. Here's hoping they will be able to continue running for all time.

## HAWLEY FIGHTS IN VAIN FOR OREGON PROJECTS

Washington, June 27.—Congressman Hawley yesterday made a spirited but unsuccessful effort in the house to have the rivers and harbors bill amended by adding \$975,000 for continuing the north jetty work at the mouth of the Columbia. He contended that the discontinuance of the work one season would depreciate the value of the work already done to the extent of \$100,000. By a close vote the house rejected the amendment and also rejected the Hawley amendments to adopt the Coos bay and Yaquina projects.—Telegram.

## MAKING RECORDS

The month of May 1917, with the Ford Motor Co., topped all records both for daily and monthly production. On Saturday, May 19th, the output was 3,496 cars, and for the entire month the aggregate production was 83,616 cars—and still the demand for this popular motor car continues far ahead of production. Certainly from all indications the much feared period of "saturation" is still far distant to the automobile industry.
