Yes it is a little warm, but then we have the draft.

When they speak of sharks at the seashore, wonder if they mean those in the hotel.

We would accomplish much in the war against Germany if we fired some of the big political guns.

Now that the President has decided the baseball season may continue, our national existence is safe.

Again let us remind you that now is the time to keep your feet warm and your head cool.

The difference between bull-headed and logical argument is this: If it's the other fellow it is bull-headed.

The big trouble with some people is that instead of upholding the country they are trying to hold it up.

Wouldn't it be a good thing to start a mess or at least a tobacco fund for our boys who have been called into the draft army.

A Chicago judge has decided there is no law as to how much a woman shall wear on the street. Well, who thought there was?

Each morning's mail from a hundred and one departments of the Government demonstrates that despite the war, advice is still cheap.

Speaking of man and woman's fullest responsibilities in life, are there any greater 'slackers' than those who do not marry and raise a family?

Every time we read the proceedings of the House and Senate we realize that some of the Kaiser's best fighters are not on the other side of the Atlantic.

It is a great world at that. A woman who steals bread for her family is a dirty, sneak thief. The woman who pilfers a \$300 fur coat is a kleptomaniac.

Russian women have organized a naval battalion. See no reason why they could not manage a man of war. They certainly can handle every other kind.

There's always something to worry about. For instance you may wonder whether your wife is lonely on her vacation or you may worry because she may not be.

There are a lot of people who think unprintable things of Senators LaFollette, Gore and Thomas, who will see some justice in their proposal that war profits and big incomes be utilized as the principal sources of taxation in providing funds for the war.

The big news of the day is the report of peace proposals from the Pope. If they guarantee the future of democracy and the crushing forever of militarism, they will be heartily welcomed by all the people at war.

Advertising is a commodity. If the Government needs advertising to sell bonds or accomplish other work it should pay for this commodity just as it pays for steel necessary for its ships and armaments. The wealthiest nation in the world has no more right to expect the newspapers to give it this commodity than it has to ask the steel corporation to give it steel for nothing.

UP TO THE GOVERNMENT

For months a long suffering public, mugged of every nickel it earned by food speculators, has born the injustice patiently, believing that ultimately the government would save it. It is a wonderful demonstration of faith of the people in the government and it is to be hoped that now the food bill has passed, steps will be taken immediately to reduce prices to normal.

THE TOWN SLACKER

In every town, just as in every lodge or church or club, there are a few people who, the slackers always say, "think they run things," or "want to run things."

things," or "want to run things." Are they not the people who, when there is a lot of committee or detail work to be done, are the only ones who will do it? Are they not the only ones who are willing to give their time and their energy for a public movement for the good of all? when you analyze the whole thing are not those people, who "think they run things" about the only people who have enough interest in their town or their lodge or their Church to spend their time and money for the good of others?

If you are honest with yourself you will admit they are. The next time you hear any one talk about the other fellow running the lodge or the town or the Church or the fire company, ask him to come to the next meeting of one of these organizations; see that he is appointed on one of the committees which have a lot of work for the good of the order or the town and watch him try to crawl out of the job of working for nothing for the good of others. You will find that he is perfectly willing to let the hard workers "think they run things, or run things."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F.
