**TO THE FARMERS OF LINCOLN COUNTY**

I wish to announce that I am so well pleased with my HINMAN MILKING MACHINE that I want you to know what it is doing for me and thousands of others in this country.

I investigated milking machines thoroughly and decided to install the HINMAN for the following reasons:

1. Simplicity—There being no complicated, delicate mechanisms to get out of order.

2. Low Cost—First cost much less than other standard machines. Upkeep cost so small that it is practically nothing.

3. Ease of Operation—No mechanic needed; any person can easily understand and operate. I myself installed and started my machine without any assistance. No expensive man and travelling expenses to pay in installing.

4. Ease of Cleaning—As easy to clean and keep clean as a milk pail or a separator.

I have secured the Agency for Lincoln County for the HINMAN

**Real GRAVELLY'S Chewing Plug**

When you chew Gravelly you are Better Satisfied, A Little Chew is Enough and it Lasts a Long While. The Good Gravelly Taste Lasts, too.

A 10c. POUCH IS PROOF OF IT

PIPE HIS EXPRESSION! HE THINKS HE IS HAPPY WITH THAT BIG CUD OF HIS—BUT YOU'VE GOT IT ALL OVER HIM. YOU CAN READ MY BILLBOARD AND CHEW GRAVELLY!

LOOK FOR THE PROTECTION SEAL—IT IS NOT REAL GRAVELLY WITHOUT THIS SEAL

as I fully believe it is the final solution to the milking problem. See advertisements in your farm papers announcing the NEW HINMAN, then call on or write me. I will be more than pleased to show you my own plant. Let me prove to you that if you milk 8 cows or more you cannot afford to be without the HINMAN. Very truly yours, F. B. Davis, Yaquina, Ore.

**ELECTRICITY FOR THE FARM**

These are long, dark nights and short days. A big share of the farmer's work is done by artificial light. Why carry a smoky lantern from place to place as you work. Why read or write by the light of a coal oil lamp, when you can have ELECTRIC LIGHTS on your farm.

Why let your wife stumble around in poor light from lamps when you can have ELECTRIC LIGHTS in your home.

This is what a WESTERN ELECTRIC FARM LIGHTING PLANT on your place will mean to you:

- No dark nights.
- No gas to explode.
- No lamps to fill.
- No matches to burn.
- No smoky chimneys to clean.
- No pressure tanks to blow up.
- No water to carry.

Turn a switch anywhere, day or night, and get a flood of light. Turn a switch and electricity will wash and wring the clothes. Turn a switch and the churning is done.

Turn a switch and the carpets are cleaned without stirring up a particle of dust.

Turn a switch and the cream separator does a perfect job while you do something else.

Turn a switch and your ironing is done in half the time with an Electric Iron that stays hot and clean.

Turn a switch and the Electric Motor runs any small machine you have.

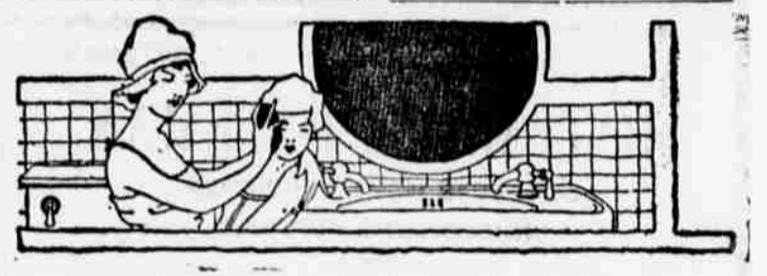

Turn a switch and you turn on the light that brightens up the farm.

Don't even turn a switch, as the Automatic Water System gives you plenty of running water anywhere on the place, house or barn.

For further information telephone or write to Western Electric Company, Incorporated, 84 Marion St., Seattle, OR.—F. B. DAVIS, Agent, Yaquina, Ore.
