now has an attendance of about sevty-

The League will meet every Sunday at the M. E. Church at 6:30 P. M. All young people are invited to attend.

A number of people are coming from Toledo and Newport to fish in the Siletz river, one of the best streams in the state for fishing. Will Peterson and Ralph Salvage came over Sunday and had good fishing. They caught one hundred splendid salmon trout measuring all the way from ten to fourteen inches. Grant King chaperoned the party and caught a few fish him self.

I see some of the candidates running for office have their pictures in the papers and other candidates have not. B. A. Armitage, J. C. Dixon and William Simpson, candidates for sheriff, should have their pictures in the papers. J. H. H. Andersen has his picture in the papers and it looks fine. I have heard some of the Siletz ladies say if the other candidates for sheriff don't put their pictures in the papers they will not vote for any of them except Mr. Andersen. The ladies wish to see the pictures and they will make their own selections as to who they will vote for, therefore it is up to the candidates to put on their best bib and tucker and their best smile and make the best showing possible. Other things being equal the ladies may vote for the best looking man.
