SILETZ

A party was over Monday on a fishing bout, consisting of Major Hitchcock, A. J. Hill, C. B. Burch, C. A. LaBarr and M. C. Clough. The party got a couple of row boats and put them in the river about a mile above the Agency and fished down the river and over the riffles till they came opposite the north side of the Agency a distance of about eight miles. They had a most hurting his leg in stepping on some munity? rocks did not take this trip. The party took dinner at the Hotel King.

A number of autos are now coming last week. to Siletz to have an outing and to enjoy fishing in the beautiful Siletz river the most beautiful river in all Oregon. It's waters are as clear as crystal and ripples, splashes and tumbles over a day. clean gravelly bottom till it reaches the head of tide. Because of the beauty of the river and its clear cold water it was named after a beautiful Indias. girl the daughter of a chief who's name was Celestia but now changed to Siletz. The length of this river from it's source to where it empties into the Pacific ocean is a distance of 125 miles. But from the head of the river on a line as the crow flies, to the ocean is only 15 miles. It is a most romantic river, containing in its history some beautiful stories and legends -some day we may write some of them up.

The auto people who come in here complain of some bad pieces of road between here and Toledo and between Toledo and Summit. I wonder if the McBrides Saturday. Mrs. Trapp resupervisors wont get in and fix them turned to Chitwood on the evening as soon as possible. The auto people train while Miss Della went on to Deer leave a good many dollars in Lincoln Creek where she will finish the term county.
