WITH THE COLORS IN THE U. S. AIR FORCES

Following is a letter which was received by Mr. and Mrs. O. Middlekauff, of Corvallis, from their son, Mark, and which they kindly sent us. As Mark is a former Lincoln County boy we know our readers will be interested in hearing from him. Mr. Middlekauff believes that Mark is in active service among the aviators sent from Southern Italy to help the Italians against the Austrians, in the battle now raging.

8th Aviation Inst. Center,
U. S. Air Service, A. E. F.

Dear Folks:—

I received your fine letter this morning, Mamma; it was a fine letter; sure would like to step in and see you, all of you folks once again. I am sure getting tired of this blooming country.

Well at last I am ranked as an aviator, have completed my second Italian Brevet and have received my R. M. A. I finished my cross country raid yesterday; it covers . . . miles on the course. I received my Brevet when I had finished it. I had a fine ride, took me about 4 hours in the air. Nearly froze my fingers as I was at 15,000 ft. and over most of the way. Had on four sweaters, two suits of winter underwear, two pair of pants and a fur lined flying suit, and three pairs of gloves. I ran into a blinding snow storm once, at 16,500 ft. I am just laying around today, no flying, am barracks police.

I will go on my vacation Sunday. Will spend 7 days at Rome, Naples and the Island of Capri, in the Bay of Naples.

Yes folks I think that I am fairly competent as an aviator, finished up very quickly and have never had even a broken wire; am knocking on wood.

It is a wonderful game, and is worth the price you must pay, whatever you have to. Mine has been negligible so far.

Have had very few letters from anyone lately. Papers by the wholesale.

I intend to have a bunch of pictures taken in Rome, and will take a bunch myself, and will send you some of each. I will try and cable from Rome, in which case you will hear from me before this reaches you.

A number of my Delta U brothers from Ames are here now, or rather in France, and I hear from a number of them.

Saw Lyman Burgess last night; he failed to make a flyer; was not confident at altitude; that is where you are safe because you have the advantage of altitude if you should take a fall. Had a funny experience yesterday on my raid; got lost when over the sea in a dense fog cloud which was over 300 feet thick. I could not tell whether I was flying right side up or up side down. I got my directions 14 miles further on, and was headed straight out over the sea.

Much Love,
Mark

PROCLAMATION

The President of the United States has called on the people of the nation to indicate their self denial by pledging themselves on June 28th to purchase War Savings Stamps for the remainder of the year.

In order that the citizens of this city may not fall behind other communities in responding to the call, I hereby proclaim Friday, June 28th, as War Savings Day for the City of Toledo, upon which day all persons shall give their pledges for the War Savings Stamps, at such time and places and in such manner as may be appointed by C. S. Jackson, the War Savings Director for Oregon, acting under the authority of the Secretary of the Treasury, and pursuant to the Proclamation of the President of the United States.

FOOD CONTROL MEANS VICTORY

European Shortage Places Problem Before American Government—Farsighted Policy Adopted.

NEED 75,000,000 BU. WHEAT.

Food Administration Asks Aid of Every American in Gigantic Task of Feeding Millions.

It is the food problem over there that makes a food problem over here. If we wished to be supremely selfish—and supremely shortsighted—we could go on eating as much as we like and whatever we like, without much difficulty or interruption—at least, until the Germans came!

But we are not doing things in that selfish and suicidal way. We are trying to make a great common pool of all of our food, and all of the food of the allies, and all of the food we can get from South American and other neutrals, and dividing it up fairly among America, England, France, Belgium and Italy.

This does not mean that all of the people in the great pool are going to have the same ration, but means that we are trying to arrange to have enough for everybody, so that the soldiers—our soldiers and their soldiers—will be well fed, as they have to be to fight hard and continuously, and that the munitions workers and the workers in all the other necessary industries, and the men and women at home will all have enough to keep alive and well. It is absolutely necessary to do this if the war is to be won, and we are going to do it, but it means planning, working, arranging, co-operating, being careful, not wasting, saving.

And it means that each and every one of us has got to help.

Now, we have enough and more than enough food for ourselves, and the Government is going to see to it that we keep here at home a sufficient supply of every essential kind of food to support our people. But over there they simply have not enough. Lord Rhondda, the English food controller, recently cabled the American food administrator, that unless we can send the allies before the next European harvest 75,000,000 bushels of wheat in addition to what had been sent up to January 1 of this year he could not assure the people of the allies that they would have a sufficient supply of food to carry on the war.

He did not say anything in this cable about the other food necessary, but he has told of these needs in other cables—and by his actions in England. For example, his latest regulation compels a reduction of meat eating in the United Kingdom to a maximum of one pound per week per person, this pound including the bone and other waste parts in the meat as bought in the shop.

The allies must have more wheat, more meat, more fats, more dairy products, more sugar. Their harvests were very short—France had less than half her normal crop of wheat—and the available shipping is small in amount and constantly being lessened by submarines, so that it is now practically impossible to use any ships for the long voyage necessary to bring food from Australia and other remote markets. The food must come chiefly from America. In specific figures it is necessary for us to send to the allies 1,100,000 tons of foodstuffs a month. This is a great responsibility and a great problem. The food must be found, and also the ships to carry it. It is being done, but can only continue to be done by the help and full cooperation of all of us over our broad land. We must produce and save more.

To supply the wheat necessary until the next harvest, we must reduce our consumption by from one-fourth to one-third; we must cut down our usual average consumption of meats and fats by from 10 to 15 per cent. and dairy products by about 10 per cent.

Over there they are tightening their belts and doing everything they can. They are eating war bread; they are cutting down their sugar in England to two pounds per person per month, and in France and Italy to one pound—how much are you eating?—and they are using ration cards for most of the staples. We must meet sacrifice with sacrifice. If we don't, we are helping to lose the war instead of helping to win it.

LEADER

Makes Clubbing Arrangement With

The Oregon Farmer

Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

208 PAPERS FOR ONLY \$1.50; TWO FOR
PRICE OF ONE.

The LEADER every week for one year and THE OREGON FARMER every week for Three Years, all for only \$1.50. This is merely the price of the LEADER alone.
