THE LATEST SONG HIT

Lincoln County Leader, I heard some boys sing the following song at a program given at the Lents Methodist church. I thought it so good, I am sending it to you, hoping you will print it in the Leader.
M. L. Hampton,
June 24th., 1918. Portland, Ore.

THE BATTLE CRY OF FEED 'EM

1. We'll rally round the hoe, boys,
And join the ranks of toil,
Shouting the battle cry of feed 'em,
We'll train the crops to grow, boys,
As tillers of the soil,
Shouting the battle cry of feed 'em.
Chorus
Nature, kind nature, will aid in our need,
Down with the 'taters, up with the weed.

2. So we'll rally round the hoe, boys,
And train the crops to grow,
Shouting the battle cry of feed 'em,
2. Where there is work to do, boys,
We'll gather on the spot,
Shouting the battle cry of feed 'em,
To duty we will be true, boys,

And till the vacant lot,
Shouting the battle cry of feed 'em.
Chorus
Onions forever, put on your jeans,
Chop down the pig-weed,
Hill up the beans,
So we'll help to fix the Kaiser
and set the Germans free,
Shouting the battle cry of feed 'em.

LINCOLN COUNTY AGRICULTURAL COUNCIL NEWS

Following are several articles of interest taken from the July issue of the Lincoln County Agricultural News.

PREPARE FOR THE EVERGREEN BLACK-BERRY HARVEST
CAN YOU HELP PICK A FEW

The County Agent has succeeded in making arrangements whereby buyers will receive evergreen blackberries at Toledo, Elk City and Eddyville, and perhaps a couple of other points, during the picking season. Pickers will receive at least 4c per lb. and very likely considerably more. Final offers have not yet been made but announcements will be set forth as soon as negotiations are closed. 100 tons have already been contracted for and it is expected that at least 250 tons will be harvested. Canneries will take an unlimited supply. They are under contract to furnish these berries to the Army in the form of jam, and the demand exceeds the supply. It is Lincoln County's duty to harvest every pound of these berries if possible. Our food production campaign is as important as the military campaigns—the latter cannot proceed without the former.

The Agent urgently requests that every person in the County who might be available during the picking season, plan and prepare now, to aid in the harvest. Women and children will doubtless be relied upon in the main, in as much as there is already a dearth of male labor in the County. At the aforementioned price pickers can make several dollars per day. If there be considerable quantities of these berries in other parts of the County, the Agent would like to be apprised of such fact, so as to arrange for the harvesting of same.

HOME DEMONSTRATION AGENT TAKES UP NEW POSITION

Miss Bertha Edwards, for the past few months Demonstration Agent for Benton, Linn, and Lincoln County, has resigned her position to take up similar work in Springfield, Mass., for the summer, after which she will take advanced work in Columbia University.

The loss of Miss Edwards is keenly felt in this as well as in the other two counties. Her work has been of a constructive and effective nature, the loss of which, together with her capability and enthusiasm will be greatly missed by the women of the County.

No successor has as yet been appointed. In the meantime the County Agricultural Agent will be pleased to assist in capacities consistent with his training and abilities, excluding, however, disclosures on the mysteries of batchelordom.

GATHER SPECIMENS AND HELP EXHIBIT LINCOLN COUNTY

The County Agent is anxious to receive good specimens of the various kinds of pasture and hay grasses, clovers, grains, roots, vegetables, weeds, wild plants, in fact all plants that grow in the county, (except perhaps, such as 8 ft. spruce trees,) to exhibit in his office for advertisement and educational purposes. The whole plant, including root should be taken. The Agent is gathering many specimens himself, but needs assistance to secure specimens from every locality. Gather at least several plants and tie them into a bundle, and keep them until the Agent comes around, or bring them in if convenient.

WOOL SALE REGULATIONS GOVERNMENT HAS FIXED PRICE

The Government has fixed the price of wool and has prescribed regulations for marketing it. Portland has been designated the distributing center for the Northwest. About a half dozen firms in Portland have been licensed by the Government as authorized dealers or distributors. The Government pays these dealers 4c per pound for their work of handling. These dealers are required to pay the grower a certain stipulated price for scoured wool, varying from \$1.74 to \$1.02 per pound, according to the grade. The grease or uncleaned (the condition in which the grower ships his wool) price is determined by deducting the percentage of shrinkage, due to cleaning, from the scoured price. Shrinkage of Lincoln County wool usually varies from 30 to 40 per cent. As soon as a consignment is received by a Portland dealer he will grade the wool under the supervision of a Government Appraisal Board. The Board will next estimate the shrinkage, after which a statement of the grades, and price therefore, together with check will be made out for each grower, and sent to the shipper. In this way fair treatment will be given each grower and he will be

paid on the basis of the grades of his wool or different wools, if he has more than one kind.

Under Government regulations local buyers are allowed to purchase wool from the individual growers at 1 1/2c. less than the fixed Portland price, as their commission for handling. These local buyers must sell this wool to the authorized dealers in Portland at the fixed price.

On the other hand growers of a County can pool their wool into car-load lots and ship direct to an authorized dealer in Portland, thus saving the 1 1/2c. per pound which would otherwise go to the local buyer. The grower must however, pay the freight on the car lot to Portland which is only about 1/2c. per pound. By pooling the growers will thus save 1c per lb. on their wool, and the government urges that growers ship by this method. The governments prime object in regulating the sale of wool, is to cut out the many middlemen and prevent profiteering. Growers are warned to investigate when approached by local buyers some of whom are, or are attempting, to buy for less than the 1 1/2c. under the fixed Portland price, which is a violation of the government regulations.

Growers who desire immediate payment may collect 75 per cent of the wool value as soon as graded, at 6 per cent interest, provided they request it. But growers will be allowed 6 per cent on the total value from the time it is graded until sold by the authorized dealer, thus one will balance the other. Request for immediate payment should be made to A. A. Asbahr, Secy of the Pooling Assn. On account of the off-setting of the two interest charges, nothing in particular will be gained by requesting immediate payment, unless the grower be in urgent need of his money. Just how soon the wool will be sold by the authorized dealer is not known.

Shipping Arrangements
The Board of Directors of the Eddyville Mohair Pool and Woolgrowers Association met at Eddyville on June 27th, and made arrangements for the cooperative shipment of County wool in car load lots. The car will be loaded at Eddyville on July 6th. All growers who wish to ship should have their wool at Eddyville on that date or before. Consign to A. A. Asbahr who will be there to load out the wool. Use tag, on which also write name and address of sender. Your sacks will be re-marked by the shipper at Eddyville and a record kept of same. It would be best to put your different wools in separate sacks to facilitate and assure more accurate grading in Portland. This is, however, not necessary and where growers have only one sack they may not care to
