VOLUME 26

TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, JULY 13th, 1918

NUMBER 23

HARLAN

Geo. Ridenour had the misfortune to suffer a fracture of his collar-bone while shoeing a horse. Dr. Neuth of Philomath was called and the patient is recovering.

Born. To Mr. and Mrs. Houston Grant, on July 10th a son, another one to swat the Kaiser.

Born. To Mr. and Mrs. Will Parks of Elk City on July 12th twin daughters. One baby died but the other baby is doing nicely. Mr. and Mrs. Parks are with Mrs. Park's mother, Mrs. M. H. Young.

Born. To Mr. and Mrs. Frank L. Allison, on July 21st a daughter. The little lady arrived in time to bid her father good bye, as he has been called to the colors, and leaves the 24th of July.

Frank Davis made a trip to Philomath last Friday night to take a little son of Mr. Williams of the Racks Dist. to the Dr. The little boy fell from a horse and broke his arm. He was accompanied by his sister and Mrs. Jones.

The last heard from Clifford McDonald, he was at Ft. Kearny, and Clarence Davis was on his way south to "Somewhere." Willie Kessi went to Toledo last week to find out if he is fit to save his country.

Miss Evelyn Osborne of Turner is visiting her sister, Mrs. Chas. Allison.

Mr. and Mrs. Miller and Mr. and Mrs. Handsaker of Turner spent several days visiting friends and enjoying an outing on Big Elk. They had the misfortune to break their car and had to have Jack Thompson bring them from Blodgett. Chas. Cator took them to Blodgett Thursday.

Mrs. Wilks Grant departed Sunday for a visit with her mother in Washington, and to bid her brother Gerald farewell before he goes into service. Mrs. Grant motored as far as Portland with her nephew, Lee Lang, who with his sister, Claire have been visiting here.

Jess. Daniels passed through Harlan Sunday with a fine team he had purchased of Chas. Liehard of Philomath.

Mrs. Ralph Darting spent several days last week with Mrs. Mortie Lake, who has been very low with blood poisoning. Mr. Lake was sick at the same time with an abscess in his throat.

Mr. and Mrs. Frank Davis and son Wilber and Mr. and Mrs. I. R. Payne and daughter Florence motored to Tillamook recently going via Siletz and returning via Sheridan. They report a fine trip.

SILETZ

The sawmill recently bought by the Franklin brothers will run a night shift in a short time, and the mill will be kept running day and night at its full capacity, which will cut 25,000 feet per day. This will make about 50,000 feet for the day and night run. Fifty-four soldiers from Newport came up Sunday to help run the mill. They are a fine husky bunch of boys. After a week or two of work under a competent foreman, they get along alright. They are used to work at home.

The crop at Siletz is good. It has been cut and put in the barn before the rain came. It is in fine condition. The rain is timely and will make thousands of dollars for the farmer. The grain and gardens began to look dry, but the late rain will bring them out alright. We had a heavy drenching rain, and the ground was thoroughly wet.

The news from the Western front makes us all feel good. The Kaiser, no doubt, is beginning to feel the weight of Uncle Sams big arm, and he will feel it more and more until the end. Many of our brave boys, like Lieutenant Quentin Roosevelt will die on the battle field, fighting for liberty, humanity, and the freedom of the world. Colonel Roosevelt said his son gave his life for his country. It takes brave young men to do this, and we have lots of them. Young Roosevelt show-

ed the stuff he is made of as hundreds of others are doing in the great battle that is now on. The Huns are outmatched and are on the run. May they be kept running until the last one, the leaders and instigators of this needless and brutal war, are annihilated. The world will then be at peace. The Germans are responsible for this war. They filled this country with spies and plotted against American factories to destroy them, tried to stir up a revolt in Mexico, tried to destroy and did destroy some of the American ammunition factories. Germany resorted to sub-marine warfare and sunk millions of dollars in food supplies. Germany sunk the Lusitania without warning and killed hundreds of Americans. Germany promised after sinking the Sussex to warn all merchant ships before torpedoing them and then threw these solemn pledges to the wind and broke every one of them. Germany started Anti-Americanism in the United States and taught the German people to hate our President. Germany supplied Russia and Roumania with arms and ammunition and criticized Americans for supplying the Allies. Germany permitted all kinds of atrocities to be committed on women, children and non-combatants and never tried to stop it. These are only a part of the wrongs, atrocities, and brutalities committed on innocent, helpless people, and yet the Kaiser has the audacity to say he is doing God's will. This is a master piece of blasphemy. The Kaiser wants to fasten on the world a military machine that has not one spark of humanity or christianity in it.

Mr. Ketola is putting up a nice Silo on his ranch. He has a fine place and is doing lots of work. Alvina Strome is on Lower Siletz getting ready to build a new barn.

Every body is busy putting up their hay.

For Sale—2 good cows, milking, 2 good yearling heifers, 2 good calves, 1 good driving mare.

At mouth of Bear Creek on Big Elk. Richard Green, Elk City Oregon.

Frank Mulvany went to Toledo the 18th as witness for T. J. Buford who is proving up on his Klickitat Lake homestead.

By some manner of mistake, C. F. Lindley's and Z. A. Kessi's names were omitted as subscribers to W. S. S. on Presidents day. Gale Shane and Percy Mulvany took thrift stamps, and Geo. Tubbs has since taken W. S. S., thereby giving our district exactly 100 per cent, so depend upon Feigles Creek to back Uncle Sam when he gets down to brass tacks. Let me tell you, we, as a nation, must get down to our bottom dollar if we expect to win this war, and then some. "The Mills of the Gods Grind Slow, but Exceedingly Fine."

THE MELTING POT OF AMERICA

It must hearten those who were wont to despair over the success of our national melting pot to read the stories of the valor of American soldiers.

It must make the Americans of Irish birth just a little prouder of their Americanism to read that, "O'Brien, single-handed, brought in seventeen prisoners."

The chest of our Swedish-born citizens must be inflated by the story that Axel Jermias, "wounded, refused to quit."

That valorous race, the Scots must have rejoiced over the American, Lindlay MacPhail, "who exposed himself in caring for the wounded."

The loyal American citizen of German birth, who left the fatherland because of military oppression, must have felt the pride of real patriotism when they read that, "Fritz Schueder, separated from his men, held twenty Huns at bay until help arrived."

The melting pot has justified itself. Never before were the people of this country as united as today.

Yet bravery is not the possession of our boys alone, but it is gratifying to note that beneath the flag of freedom there are as brave men as ever faced a foe. Heroism has no nationality, but a nation's heroes are a nation's proudest possessions. —Chicago Herald and Examiner.

BUYS REGISTERED STOCK

Mr. and Mrs. F. B. Davis of Mill Four this week purchased the L. A. Hulbert herd of registered Jerseys. This herd consisted of seven cows and three heifers. Some of the cows brought as high as \$150, which goes to show that it pays to breed good stock.
