CLAIM \$10,000 BOARD BILL AGAINST CUDAHYS

Old High Cost of Living has been cornered. Now comes a court record which talks of a \$10,000 unpaid board bill. Suit has been filed by a hotel company of Pasadena, Cal., against Jack Cudahy and wife, a son of the famous meat packer, alleging that this sum is unpaid for the housing and feeding of the Cudahy family. Here is a new picture of Mrs. Cudahy and her three daughters, Anne, Edna and Marie.

Champ Yank Aces Report to Chief

This is proof that there is only one thing that can "take" a Yank "ace." That thing is a "camera"—one of which took these three premier aces as they posed with the big chief—General W. L. Kenly, of the United States air service, at Washington. These three Yanks are the champions of our air fighters; reading left to right they are: Major James Meisner of Brooklyn, General Kenly, Captain Eddie Rickenbacker of Columbus, O., and Captain Douglas Campbell of California.

OLE HANSON IS NOW NEW IDOL OF WEST

A new idol has appeared on the western horizon of this nation. It is Mayor Ole Hanson of Seattle, Washington, who proved a man big enough for the place he held in the prompt action he took to suppress the recent strike which threatened bloodshed.

COUNSELS U. S. WOMEN TO FIGHT ON

"Fight on" is the message of Mme. Catherine Breshkovskaya of Russia to the suffragettes of America in the wake of the recent defeat of measures at Washington. Mme. Breshkovskaya, known as the grandmother of the Russian revolution, is now in America. She has been an ardent equal rights advocate for years.

NEW U. S. AMBASSADOR TO FRANCE

Hugh Wallace of Washington, D. C. and Tacoma, Wash., personal friend to President Wilson, is the new United States ambassador to France. Wallace has been appointed to the post made vacant through the resignation of former Ambassador William Graves Sharp. Mrs. Wallace, daughter of the late Chief Justice Fuller, was an untiring war worker. Their son is a captain in the overseas army.

ROOSEVELT SLAYER WOULD COME HERE

Lieut. Christian Donhauser, weighing 94 pounds, is the German aviator who claims the victory over Quentin Roosevelt and which cost the latter his life. This little flyer is credited with 12 planes in eleven days. He says he wants to come to America—he a citizen and fly for our army—as soon as possible.

ELEPHANT SHOES NEW ZOO STYLE

Now we know why leather is so scarce and shoe prices so high. They are making shoes for elephants. It has been learned that elephants suffer from cold feet during the winter months here. So Lena of the New York zoo has been fitted out in new "brogans" for the cold months—and two "maids" to lace 'em up.

The Back Comb Is Back Again

An accessory season is not anything necessarily to be desired, still what is more natural than its arrival with the peace year. Woman knows that it is the accessories which go to make her the well-dressed and attractive woman. The back comb is making its periodical reappearance. This one shown here in amber has each tip finished in green brilliants. The rich luna satin combing jacket is cut in kimono lines, carrying design in flow ending in tassels. For the banded necklace jet is enormously favored this season. The black bag of satin with unusual needlework decoration is the most practical thing shown.

Armored Cars Now Fight Against John Barleycorn

Stop! Pause! Read!—This is not "another war picture" from France, Belgium or even Germany. Instead it's a picture of a fighting car from the very heart of America and is used daily because of its armored protection. It is a car used in combating the "whisky runners" between Toledo, O., and Detroit, Mich., since the latter city went "dry" with the state. This car is part of the equipment of the Michigan state constabulary used at Monroe, Mich., on the line between Michigan and Ohio. Colonel Roy C. Vandercook is in charge of the work enforcing the law, pitched battles with the smugglers being a big part of the daily happenings.

Woman Would Visit North Pole in Airplane

With the war ended and peace virtually upon us, new and startling performances by inventions of the war will be in order. Trans-continental and across ocean flights by airplane—new altitude records—wireless communications developed to an uncanny degree and other scientific stunts, will furnish the news of the day. First is a woman trying for a visit to the North Pole by airplane. Miss Ruth Law, famous American aviator, is equipping a special machine to accompany the Admiral Peary party in a try for a visit to the Pole by the air route. Here is the famous woman flyer in her machine, ready for a trial flight.
