**WANTED**  
10,000 Tons

The third collection of used and surplus clothing for the distressed and suffering people of Europe will be made by the American Red Cross during the week of March 24th 29th. Our quota is 600 tons and you are asked to collect garments of all kinds—both sexes, piece goods, ticking, sheeting, blankets and woollens, light cotton flannels to make garments for new born babes, and shoes of every size.

But please don't offer these afflicted people a miscellaneous lot of flimsy material—This clothing will be subjected to the hardest kind of wear and must be strong and durable.

The clothing problem is the most serious yet faced and an immediate supply is absolutely vital to the health and very life of the men, women and children who have been freed from the German Yoke.

Do no mending. There are thousands of women in Europe who will be glad of the opportunity to earn a small but self-respecting wage by mending or making over garments more suited to their own countries.

So clean out your closets—put old clothes to work.

Clothing to be delivered to the Court House any time after the 24th of March and not later than the 29th.

**GEN. PERSHING COMMENDS AID RENDERED ARMY**

Post Exchanges Overseas Are Taken Over by the Military Authorities

Asserting that the valuable aid rendered by the war service of the Y. M. C. A. had been a large factor in the final great accomplishments of the American army, General Pershing, in a communication to E. C. Carter, in charge of association operations with the American Expeditionary Forces, pays a splendid tribute to the work which this agency accomplished under extreme difficulties and handicaps. "The Y. M. C. A. served the army better than could have been expected," says General Pershing.

At its own request the American Y. M. C. A. has been relieved from maintaining post exchanges with the Expeditionary forces overseas, the need for such service having been relieved with the signing of the armistice. Correspondence exchanged between General Pershing and E. C. Carter, in charge of the Y. M. C. A. with the army, resulted in this decision. Carter wrote to General Pershing January 29th as follows:

Dear General Pershing:  
A year and a half ago you requested the Y. M. C. A. to undertake operations for post exchanges for the American Expeditionary Forces in order that "officers and enlisted men may not be taken away for that purpose from their paramount military functions of training and fighting."

As soon as hostilities ceased we raised with you the question whether time had not come for the Y. M. C. A. to be relieved of the operation of post exchanges in view of the fact that there was no longer the same pressing demand on man power of the army for training and fighting. When we first raised the question with you it did not appear to you that it was feasible in the best interests of maximum service to the army that a change be made. Now the situation is materially altered.

Recent general orders from main headquarters and requests from commanding officers have laid on the Y. M. C. A. increased responsibilities in promoting educational, athletic and entertainment activities in the American Expeditionary Force. This is placing a rapidly increasing burden upon our personnel. The army is also now preparing for the delivery of all supplies for post exchanges which heretofore have been imported, manufactured and delivered by the Y. M. C. A.

In view of the changed situation I wish to know whether you do not think it would be possible for the army at a very early date to assume full responsibility for the maintenance of post exchanges throughout the American Expeditionary Force?

Very cordially yours,  
(Signed) E. C. CARTER.  
General Pershing immediately acted upon the suggestion made by Carter and relieved the Y. M. C. A. of its task of maintaining the post exchanges. He said:

My Dear Mr. Carter:  
I have received your letter of January 29th asking whether, in view of present changed situation, it would be possible for the army to assume full responsibility for maintenance of post exchanges throughout American Expeditionary Force.

As you correctly state, the Y. M. C. A. undertook the management of post exchanges at my request at a time when it was of greatest importance that no available soldier should be taken away from vital military functions of training and fighting. As reasons which impelled me at that time to request you to undertake this work no longer exist, I am glad to approve your suggestion in reaching this conclusion. Consideration has been given to new burdens in connection with entertainment, athletic activities and education that you have assumed. I have accordingly given directions that army units themselves take over and operate their own post exchanges.

In making this change permit me to thank you for the very valuable services and assistance which the Y. M. C. A. has rendered to the American Expeditionary Force in handling these exchanges. Handicapped by shortage of tonnage and land transportation the Y. M. C. A. has, by extra exertion, served the army better than could have been expected, and you may be assured that its aid has been a large factor in the final great accomplishments of the American army.

Very cordially yours,  
(Signed) JOHN J. PERSHING.

**Ribbed Bonnets Voice Spring**

The word spring means just one thing to woman. That thing is "Fata." Therefore this Fashion Art artist in portraying three distinct types for early wear holds the spotlight of attention. Upper left's broad brim tips the key to spring lines when the crown of violets leads away into a broad brim topped with purple de luxe ribbon. On the right a milan straw reaches unthought of heights in black gros-grain ribbon. Lower motor models have touches of leather, the left a perky bonnet for the open-faced miss—the right a blue leather brim on tan colored body, and a veil of Sellin for the lady who just can't make her eyes behave.
