VOLUME 27

TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, JUNE 6th, 1919

NUMBER 15

SILETZ

Sergeant Dick Adams of the 162 Rainbow Division is now on a visit with his parents, Mr. and Mrs. John Adams. He first enlisted in the Third Oregon and was sent to New York, where he was transferred to the famous Rainbow Division and sent over the seas. His Division was on the firing line up to the time the armistice was signed. He was wounded at the great battle of Chateau-Thierry, and was out of service several weeks, but returned as soon as he recovered. His company, in making a charge, went too far and was captured by the Germans and kept without food for four or five days, but finally they got after the Huns and drove them back and took their meager supply, which kept them alive till they could get back to a place of safety. The Sergeant has had many thrilling experiences to relate. His comrades were shot down on either side of him but he was unhurt and kept on fighting. Sometimes he would crawl in front of the lines to reconnoiter and was shot at by the snipers, but they missed him. He was in the great Argonne Forest fight, which was kept up till the armistice was signed. He says the American soldier is a great fighter and knows how to take care of himself in a pinch. General Pershing spoke in the highest terms of the American soldier, and said he was the greatest fighter in the world.

James Gibson and Alec Catfish have returned from a trip to Rogue River, hunting gold. At one place twenty-five miles from Grants Pass they found some quartz mines. The country is so rough, the mountains are so high and gorges are so deep that it is hard to work mines if you should find them. They found some good gold bearing quartz, but nothing sufficiently good as to invest money.

A meeting was held Saturday in the afternoon at the Government school building for the purpose of making arrangements to celebrate the Fourth of July. The meeting was called to order and F. M. Carter was elected chairman and A. B. Siocum, secretary. The following were elected as an executive committee: A. C. Crawford, Lower Farm; Phil Elting, Upper Farm; Edwin L. Chalcraft, Arthur Bensell, Chris Larson, F. M. Carter and A. L. Crawford. F. M. Carter was elected chairman of the committee. A meeting will be held at A. L. Crawford's next Tuesday evening, at 8 p. m., to appoint subordinate committees and make further arrangements for the celebration. Siletz has beautiful grounds for celebrating. A beautiful grove near the Agency buildings, a spring of clear cold water, and a carpet of soft green grass to walk upon, plenty of play grounds and a good auto road leading to them. Nature's preparations are ample. It is the purpose to have a two days celebration. The roads will be fine and the trip through the big forest along the Siletz river will be a rare treat. The Siletz is also one of the best fishing streams in Oregon.

ROAD MEASURES CARRY; CITIZENS JUBILANT

Both the Roosevelt Highway and Newport-Corvallis Highway measures carried at the special election held Tuesday of this week, and by larger majorities than predicted by the most radical and optimistic good roads enthusiasts. The Roosevelt Highway measure will have better than twenty-five thousand majority in the state. The county bonding measure for building the Newport-Corvallis road resulted in a landslide, and the measure carried by a five to one vote. Precincts that were considered doubtful gave it strong support. Yachats precinct, situated thirty miles off the route of the proposed road, voted 49 to 1 in favor of the road. This is the right spirit and will not be forgotten when Yachats wants the support of this part of the county.

The total vote in the county on these measures is: Roosevelt Highway, Yes 2202, No 79; Newport-Corvallis Highway, Yes 1723, No 335.
Other state measures carried are: Six Per Cent Indebtedness, Soldiers, Sailors, and Marines Educational Aid Bill, Market Roads Tax Bill, Irrigation and Drainage Districts Interest Guarantee, Measures still in doubt: Industrial and Reconstruction Hospital Amendment, Measures defeated: Lieutenant-governor Amendment, Reconstruction Bond Amendment, Reconstruction Bonding Bill.
The official count in this county has not been made yet. Next issue we will give the tabulated vote by precincts in this county on the two road measures.

The booster dance held at the home of Mr. and Mrs. George Lewis at Oysterville last Saturday evening proved to be a most enjoyable affair. The Str. Noticeable among the youthful dancers was the smiling faces of Capt. Jacobson, Hon. S. G. Irvin, L. C. Smith, J. T. Porter, John Collins, and Messrs. Young, Walsh and Collins. In the wee small hours they all departed, giving high praise to the dance and delicious oyster supper.

SOME JARGON

A new Brusky man came all the way to Rock Creek. A span to build. He said it was no mistaken plan. That he was stuck without a span. So he took Joe and Bill and a lot of wire and springs and the span he starts. When he was almost stuck, in rushed the hospital man with a mighty bang. "I have 14 men right on the ground, as good span men as ever was found." So he looks all round, all over the ground, and cries, "There is no building wire to be found." The Nebraska man standing by, with a tear in his eye, says, "We got to have a steer the span to make." When up stepped Ben with a grin. "Say, Mr. Boss, I'll be rite over with my old jack boss. If Hickory Bill and Kakwa Joe don't put in that span then I don't know."
Bill and Joe and Petycrew don't know what to do without the new crew. By the help of Ben and his old jack boss we will put that bridge across.

MONEY IN MOSS

(Farm Bureau News)
Several parties asked recently where moss could be sold. We have located a market and can offer at this time \$20.00 per ton for good moss, delivered at Toledo. Arrangements can also be made to receive moss at other stations provided sufficient quantities can be accumulated to make a carload. From present indications, there is a market for 10 to 15 carloads.
The moss must be comparatively free from dirt, wood, or heavy bark; consequently, ground moss is undesirable, due to the difficulty of getting it free from dirt. The moss should be gathered, dried thoroughly, and may be baled on the premises or hauled to the warehouse and then baled. Three or four balers are available and will be provided parties desiring same.
Mr. R. W. Stow, of Monmouth, is the purchaser of the moss, but the County Agent's office will be glad to cooperate with any parties wishing to dispose of moss. Mr. Stow is traveling over a wide territory and may be hard to get in touch with, except at times when in this territory. For the present, moss will be received at the former Warren Spruce warehouse. Before bringing in moss, however, get in touch with the County Agent, so that someone may be available to open the warehouse and check in the moss.
