MONEY RUNNING SHORT

The Miami Quarry Company, which ias the contract for the building of the south jetty at the mouth of the Yaquina harber, claims to be running heavily behind on the contract, and have asked the joint ports of Toledo and Newport for financial assistance, and to this end a meeting has been called for 1 o'clock tomorrow afternoon at the City Hall, Newport, for the purpose of discussing this matter and determining on a course of action. Of course we all realize that costs

have advanced amazingly since the letting of the jetty contract, but, again was not that the main purpose of u. contract, to safeguard the interests of the ports in the face of rising prices. A large number of our people were

opposed to beginning the work while the Great War was in progress, and while the government was so busy with problems of war, that it had no time nor money to co-operate with us. But that time is past, we went ahead without the government, and now the contractor threatens to quit unless he is paid more money. The contractors are under bond to complete the contract as it stands. The question is shall we force them to do this, or shall we bear the loss ourselves,

Again, supposing the contractors had made twice as much money on the contract as he had figured on, would he have came to the ports of Toledo and Newport and said. "I have made more on the contract than I expected. will you let me turn part of it back,' do you supose they would have?

We want to see this work go ahead as it is vital to the interests of the on upon the real property of which you county, but we cannot see that it is anymore just that the taxpayers of the county should make up the loss, than the quarry company should. Perhaps part of the loss is due to mismanagement. In the early jetty construction rock was scowed from the upper river direct to the jetty. The rock for the present work has been hauled by rail from Pioneer to Winant and there transferred to scows and taken to the jetty. It appears to us that this latter method would have been much mor. expensive than the former.

But this is neither here nor there, as the contractor claims to be finantally unable to complete the work
