**NEED BRICK YARD HERE**

Toledo has long felt the want of a brick yard, but this need has never been filled for the want of good brick clay. About 15 years ago a kiln of brick was burned on the Dundon place north of town, and while some very good brick were made, the clay was pronounced as not first class for brick making, and no more bricks were turned out.

The new highway in making a cut in West Toledo has opened up some very likely looking clay on the D. H. Williams place which Mr. Williams believes would make first class brick. Mr. Williams says that he would like to hear from some person experienced in this line of work for he believes that an excellent opportunity is at hand for the establishment of a brick-making industry here.

Thompson, Toledo; and one silo that was taken to make a complete car load that will be sold at some future date.

The Warehouse also received a shipment of floured sulphur to be used in putting up hay to keep the mice from going through the mow.

This Warehouse carries a full line of feed in conjunction with its other business.

Berry recently resigned as president of the Fair Board, and E. S. Lister was appointed by the County Court to fill this important position.

**Ford**  
THE UNIVERSAL CAR

The Garden farmer will find the Ford Model T One Ton Truck an especially valuable factor in his business because of the flexibility as well as the reliability of the service given by this splendid truck. The worm-drive of manganese bronze carries all the power of the motor to driving the Truck, and there are combined in larger and heavier form all the elements which have made the Ford Model T Car the greatest motor car in the world in point of service. The Ford Truck with its worm-drive is most economical in operation and maintenance. There is very little, if anything, to get out of order at any time; there is the simplicity in control; there is the convenience in the flexibility of the car, it will turn in a circle of forty-eight feet; it accommodates itself to narrow alleys, and it "stands the gaff" of hard work day after day, and month after month, to the great satisfaction of the owner. There is hardly a line of business activity where the Ford One Ton Truck is not really a necessity. Come in and talk it over.

light this year, but nevertheless there will be sufficient to supply the local demand.

Waldport—The lumber company has a crew of men logging on the Glines tract just south of town. A new skid road will be built through the Ruble pasture to get the logs out.  
Otis—G. S. Parmele and Sons have accepted a contract of Grays Harbor lumber dealers for 500,000 feet of spruce lumber to be ready for shipment in 90 days.

Waldport—The salmon season opened with some good catches. Chas. Swatman caught 83 the first night. This is the best for opening night for several seasons.

Oalla—There are more wild berries than for several years around here. Geo. McCaulou, Renus Arnold and Fred Stanton have just finished remodeling and painting the school house in the Stanton district.

M. J. Ailphn and T. T. Reeder are engaged in constructing a large barn for Mr. Galtier on his place in the southeast part of town. The barn is to be 34 x 40 and 20 feet high.

Poole Slough—Mr. Schirmer took 20 gallons of strawberries to market the other day. It is rather late for strawberries.

Miss Lulu Burt will go to Newport this evening to act as assistant in the postoffice at that place during the summer season.

The Salem military band will run an excursion from that city to Newport tomorrow, returning on Monday.

The steamer Miami brought a load of freight into the Bay last Sunday and loaded a load of flour from the Corvallis Flouring Mills for Coos Bay points. She had on board some freight for Toledo people but did not bring it up. What she did with the freight is a source of some anxiety to the shippers.

Mrs. Tabitha Taylor left for Idaho last Wednesday morning where she will join her father, Henry Burns who left for that place two weeks ago.
