WOULD RUIN THE STATE

In many localities throughout Oregon meetings have been called for discussion among farmers and business men, of a constitutional amendment, proposed by initiative which is to limit the legal rate of interest to be charged in the state of Oregon to 4 per cent on all moneys after they become due, and 5 per cent on what are known as contract loans. The measure will go before the voters at the general election to be held Tuesday, November 2. It is estimated that 70 per cent of money loaned in Oregon comes from outside the state and this would be withdrawn over night if such a measure as this should pass.

The wording of the proposed measure appears to benefit the borrower by giving him cheap interest rates but low rates without any money to borrow will not help the man needing money.

With the U. S. Government paying 6 per cent for money what chance would individuals in Oregon stand to get it at 4 and 5 per cent?

Franklin T. Griffith, president of Portland Railway Light and Power Company, says the measure would literally ruin the state. It would close industries and throw thousands of men out of work.
