GOOD SEED HELPS CROP

The good potato hill for seed is the one that is vigorous, has no disease in top or tuber, and has a good number of fair sized potatoes, smooth and true to type. By marking the hills now and examining the tubers at harvest good crop holds. This will bestow his crop holds. This will help get a good crop of marketable potatoes next year.—O. A. C.

CAMPAIGN CONTRIBUTION INCONSISTENCY

In a frantic last minute effort to raise some campaign funds with which to combat the Republican tidal wave now sweeping the country, the Democratic National Committee has leased Convention Hall in Washington, covering half a city block, and is about to install therein a large force of clerks, a battery of 150 automatic type-writers, and all the other paraphernalia thought necessary to beguile supporters of Wilsonism, into parting with their money. If Gov. Cox has any regard for consistency he will cease his prattle about Republican slush funds.

The lands within the boundaries above set forth constitute a contiguous body of swamp, wet, or overflowed land.

3.—The land in the proposed district lies wholly within Lincoln County, Oregon and has a total area of approximately 185 acres.

4.—That the names of owners of land in said district as shown by the records of Lincoln County, Oregon, and acreage owned by each of said owners, are as follows:

William Oldenborg	6.22 Acres
W. W. McMickel	14.51 "
John Pennock	46.21 "
Jay Dunn	32.35 "
S. Johnson	5.43 "
M. W. Johnson	9.43 "
K. S. Langhele	2.99 "
N. H. Sherwood	1.95 "
Nels Anderson	8.31 "
J. W. Robertson	32.49 "
Sigri Holm	9.33 "
Hans and Barbara Olson	8.92 "

5.—That the proposed reclamation or protection is for agricultural purposes and that such proposed reclamation will be conducive to the public benefit.

6.—That all of the lands included in said proposed district are properly included therein and will be beneficially affected by the operation of the proposed district.

7.—That the benefits of such proposed reclamation will exceed the damage to be done, and that the best interests of the land included and of the owners of such land as a whole, and of the public at large, will be promoted by the formation and proposed operations of such district.

8.—That the formation of a drainage district under the provisions of this act is a proper and advantageous method of accomplishing the reclamation and protection of the lands included therein.

9.—That the following is a brief, general, informal statement of a proposed plan of reclamation and protection and such general facts as will enable the court to determine that there is a reasonable probability that the objects sought by the formation of the district may be accomplished, to-wit: that

It is planned to drain and reclaim the lands in the said district by the completion, repair and maintenance of the dam, tide races and dikes across Olalla Slough, about one mile east of the city of Toledo. The detail plan of said improvement will be such as may be adopted by the Board of Supervisors, upon the advice and direction of the engineers for the said district.

11.—That the signers hereto agree to pay any and all expense incurred and any tax or taxes that may be levied against their lands for the purpose of paying the expense of organizing, or attempting to organize, the proposed district.

WHEREFORE, your petitioners pray for an order of the above entitled court that the lands herein described, or so much of them as may be found by the court to be properly included in said district, either permanently or until further investigation and survey may permit elimination, shall be organized into a drainage district. (Signed.)
