TO OUR CUSTOMERS

Your attention is directed to the proposed measure entitled "Constitutional Amendment fixing legal rate of interest in Oregon," No. 314 and 315 on the November ballot. This measure proposes to limit interest rates in Oregon to 5% and its adoption would prevent the lending of money in Oregon and result in the financial distress which comes from lack of capital with which to finance industry and business.

Seventy per cent of the money loaned on Oregon real estate is outside capital and the passage of this measure would result in its withdrawal to other states. Wholesale foreclosures would follow and thousands of home owners, farmers and business men would lose their mortgaged property. With the Government offering 6% interest on short time loans, the Federal Reserve Bank charging 7% on rediscounts, commercial loans could not be secured in a state where the interest rate was limited to 5% and mills and factories would be forced to close. There would be widespread unemployment and financial distress.

No doubt you yourself realize the inevitable results of the passage of this measure and believe there is no danger of its adoption but have you discussed it with persons who are less experienced in financial matters and pointed out to them its fallacies and viciousness? It will not be sufficient to merely defeat this measure at the polls.

Oregon's Financial Reputation and Future Require that it be Overwhelmingly Beaten!

8.—That the formation of a drainage district under the provisions of this act is a proper and advantageous method of accomplishing the reclamation and protection of the lands included therein.

9.—That the following is a brief, general, informal statement of a proposed plan of reclamation and protection and such general facts as will enable the court to determine that there is a reasonable probability that the objects sought by the formation of the district may be accomplished, to-wit: It is planned to drain and reclaim the lands in the said district by the completion, repair and maintenance of the dam, tide gates and dikes across Orlala Slough, about one mile east of the city of Toledo. The detail plan of said improvement will be such as may be adopted by the Board of Supervisors, upon the advice and direction of the engineers for the said district.

11.—That the signers hereto agree to pay any and all expense incurred and any tax or taxes that may be levied against their lands for the purpose of paying the expense of organizing, or attempting to organize, the proposed district.

WHEREFORE, your petitioners pray for an order of the above entitled court that the lands herein described, or so much of them as may be found by the court to be properly included in said district, either permanently or until further investigation and survey may permit elimination, shall be organized into a drainage district.
