

# Indigestion

**DO YOU KNOW** that indigestion can be cured, permanently cured, so that you can eat any kind of food that you crave? It has been done not only once, but in almost every case when Chamberlain's Tablets are used. An instance: Mr. J. Pominville, Stillwater, Minn., who had spent over \$2,000.00 for medicine and treatment was permanently cured by these tablets.

# Scarcity of Telephone Equipment

As new subscribers a number of individuals have recently  
placed orders with us for telephones. Old subscribers have asked  
for service at new locations. They have been told by our repre-  
sentatives that immediate compliance with their desires was im-  
possible owing to lack of "telephone facilities" in a particular  
locality. "Why," one will say, "The poles and wires are on the  
street and the house is already wired."

We wish that the problem were as simple as it sounds. There  
may be poles and wires, but every wire may be in use in giving  
service to others. There may be a cable, but every circuit in it  
may be assigned to telephones already installed. There may be  
spare wires and circuits but no switch-board apparatus at the cen-  
tral office to which they can be connected. There may even be  
sections of switchboard but not available for operation on account  
of the lack of necessary accessories such as ringing keys, relays,  
etc.

The reason for the shortage of telephone equipment is sim-  
ple. During the war period we were unable to maintain our re-  
serve or stock plant as the same materials we use were required  
and taken for Government purposes and for industries properly  
favored by the Government. Since the war, with the unexpect-  
edly prolonged problems of reconstruction, production and de-  
livery of materials needed to meet even current demands have  
been delayed. Every business concern is having similar experi-  
ences. The manufacturers of telephone equipment have been  
bending every effort to fill our orders, but they in turn are meet-  
ing the same difficulties in securing rubber, paper, silk, glass,  
porcelain, tin, thread, shellac, metal parts and other articles not  
generally associated in the public mind with telephone service.

At the same time with this abnormal situation with reference  
to materials there exists an unprecedented demand for telephone  
service, and even under these circumstances our record is one of  
fulfillment of demand. In the first eight months of this year we  
have added 6863 telephones in the State of Oregon. In the eight  
months prior to our declaration of war we gained 2655 telephones.

We desire to give service as much as a patron wishes to re-  
ceive it. We desire to promptly comply with the suggestions of  
public authorities who have taken a proper interest in the situa-  
tion. We are facing abnormal conditions but we will—of necessity  
gradually—overcome our difficulties.
