**DOUGHNUTS and CRULLERS**  
From the NEW ROYAL COOK BOOK

**DOUGHNUTS!**  
There is nothing more wholesome and delightful than doughnuts or crullers rightly made.

**Doughnuts**  
2 tablespoons shortening  
1/2 cup sugar  
1 egg  
1/2 cup milk  
1 teaspoon nutmeg  
1 teaspoon salt  
3 cups flour  
4 teaspoons Royal Baking Powder

Cream shortening; add sugar and well-beaten egg; stir in milk; add nutmeg, salt, flour and baking powder which have been sifted together and enough additional flour to make dough stiff enough to roll. Roll out on floured board to about 1/4-inch thick; cut out 1 1/2-inch deep fat hot enough to brown a piece of bread in 60 seconds. Drain on unglazed paper and sprinkle with powdered sugar.

**Crullers**  
4 tablespoons shortening  
1 cup sugar  
2 eggs  
3 cups flour  
1 teaspoon cinnamon  
1/2 teaspoon salt  
4 teaspoons Royal Baking Powder  
1/2 cup milk

Cream shortening; add sugar gradually and beaten eggs; sift together flour, cinnamon, salt and baking powder; add one-half and mix well; add milk and remainder of dry ingredients to make soft dough. Roll out on floured board to about 1/4-inch thick and cut into strips about 4 inches long and 1/4-inch wide; roll in hands and twist each strip and bring ends together. Fry in deep hot fat. Drain and roll in powdered sugar.

**What One Fordson Tractor Owner Says in Lincoln County**

Peterson Hardware Co., Orton, Oregon, October 15, 1920.

Sirs:— I purchased a Fordson Tractor from you Mar. 15, 1920. Since that time I have plowed approximately 130 acres, threshed 200 acres, harrowed 100 acres, disced 120 acres, run binder on 140 acres, filled 4 silos and am now preparing to cut my years wood with same and am very well satisfied with its work.

You may use this for advertisement if you think it is worth while.  
Yours respectfully,

Clayton C. Pond, Orton, Oregon.

**"NOW-A-DAYS"**  
says the Good Judge

A man can get a heap more satisfaction from a small chew of this class of tobacco, than he ever could get from a big chew of the old kind. He finds it costs less, too. The good tobacco taste lasts so much longer he doesn't need to have a fresh chew nearly as often. Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles!

**Supplying Telephone Service**

Occasionally subscribers move and ask us for a continuance of telephone service at their new location. They may be told that compliance with their desires is immediately impossible owing to lack of "telephone facilities" in a particular locality. "Why," one will say, "the poles and wires are on the street and the house is already wired."

We wish that the problem were as simple as it sounds. There may be poles and wires, but every wire may be in use in giving service to others. There may be a cable, but every circuit in it may be assigned to telephones already installed. There may be a telephone in the vacant house or apartment to which you move but no spare wires and circuits from your location to the central office. There may even be sections of switchboard in the central office but not available for operation on account of the lack of necessary switchboard apparatus such as ringing keys, relays, etc.

The reason for the shortage of telephone equipment is simple. During the war period we were unable to maintain our reserve or stock plant as the same materials we use were required and taken for Government purposes and for industries properly favored by the Government. Since the war, with the unexpectedly prolonged problems of reconstruction, production and delivery of materials needed to meet even current demands have been delayed. Every business concern is having similar experiences. The manufactures of telephone equipment have been bending every effort to fill our orders, but they, in turn, are meeting the same difficulties in securing rubber, paper, silk, glass, porcelain, tin, thread, shellac, metal parts and other articles not generally associated in the public mind with telephone service.

At the same time this abnormal situation with reference to materials there exists an unprecedented demand for telephone service, and even under these circumstances our record is one of fulfillment of demand.

In the first nine months of 1920 we made a total net gain of over 7300 telephones in the State of Oregon. A fact worthy of consideration in our operations is the large number of telephones handled in proportion to net increase. In these nine months we disconnected, connected and moved 41,140 instruments to secure the net gain above mentioned.

We desire to give service as much as a patron wishes to receive it. We desire to comply with the suggestions of public authorities who have taken a proper interest in the situation. We are facing abnormal conditions but we are trying to overcome our difficulties.
