EXPIRING SUBSCRIPTIONS

To those receiving cards from this office notifying them that their subscriptions have expired and who do not renew: We take it for granted that you do not desire the paper and therefore your names are taken from our list.

The Leader stops coming when the time paid for expires, unless continued on special request. If you do not want it you will not get it.

THE OUTLOOK

It was inevitable that this slump would come whenever rising prices reached the top and the public became satisfied that the future, courses of prices would be downward rather than upward. Although the reactionary swing has gone farther than most people expected it to, there is no reason for extreme pessimism about it. Undoubtedly some prices have gone too low already. It is unreasonable to suppose that prices are going back at this time to pre-war levels, and where they do it is safe to say that the price level is higher than can be bought to advantage.—National City Bank Bulletin.

GIVE BUSINESS A CHANCE

Western legislatures should learn the lesson of the recent election, where the people voted down nearly every initiative bill on the ballot.

What is the meaning of this? Some of the bills had merit and many were dangerous propositions. People are tired of too much legislation.

Legislation that affects investments, securities, and the very basis of credit, like banking and insurance, should be taken up gingerly.

Give the business of our country a chance to come back and during the period of readjustment hamper it as little as possible with experiments.

State and federal interference with business and industries has been carried too far and the country wants a rest from lawmaking.

*How many miles have you driven
your car?*

HOW many miles—with-
out changing engine oil?

Dirt accumulates in the oil of every engine—carbon, road dust, fine particles of metal, and gasoline that has escaped past the pistons. This dirty, diluted oil, circulating through your engine causes unnecessary wear on bearing surfaces.

Have it drained out—now—and fresh oil put in the crankcase.

We can do that for you conveniently, quickly, economically—with

Modern Crankcase Cleaning Service. We use Calol Flushing Oil, the new, scientific flushing agent, which cleanses thoroughly without danger of contaminating the supply of fresh oil. And to assure correct lubrication we refill the cleaned crankcase with Zerolene of the correct grade.

Bring in your car today. Modern Crankcase Cleaning Service will give immediate better engine performance. Done regularly it will lengthen your car's useful life.
