TRAIN DELAYED
BY BIG SLIDE

The heavy rains of the past two
weeks caused a big slide to occur near
tunnel one, just this side of summit,
and a result it has necessitated the
transferring around same each day
for a week, making the evening train
about two hours late. It is expected
the slide will be removed so today's
train will get thru.

TIE GAME PLAYED;
ALBANY WINS OUT

The basket ball game played at the
fair building last evening resulted in
a tie score of 13 to 13 at the end of
the second period. It was decided to
play five minutes more to play off the
tie. As this was the first game of the
season for the locals they were pretty
well winded and in this final period
Albany made six to their one, the
score being Toledo 14, Albany 19.

Albany College goes from here to
Waldport for a game this evening and
plays Newport tomorrow evening.

Telephone Rates and the Decline in Prices

The Telephone Company has asked its patrons in Oregon to pay more for their telephone service. It has placed the facts and figures of the situation before the Public Service Commission for their investigation and verification. The increases will not amount to much to individual subscribers, but the aggregate will permit the Company to properly maintain and develop its service.

We have shown the Commission that we are operating at a loss. Our expenses are greater than our earnings. The owners of the property are receiving nothing from their Oregon investment and the interest due on debts which should properly be borne by the Oregon properties are not being paid from Oregon receipts.

At the hearing before the Public Service Commission not a fact or figure presented by the Company was disputed or disproved. The only material contention made was that the increases were perhaps inopportune in view of the apparent decline in general commodity prices.

The Company is asking for a reasonable return upon its existing investment, without regard to the uncertainties of the future. The Company files periodical reports of its operations with public authorities and its future investments will be the subject of constant consideration and future adjustments, if necessary.

Salaries and wages make up 72 per cent of our current expenses. We hope they will not be reduced and do not think they should be.

In the five years 1916-1920 inclusive, we have increased the wages of our plant people \$307,000.00. Our traffic (operating) employees \$681,000.00, commercial employees, \$98,000.00, a total of \$1,086,000.00 per annum.

Efficient and contented employees mean good service. It is their due and our desire that their compensation be equal to that paid in other lines of business activity.

Adequate service is dependant upon adequate rates.

The Pacific Telephone and Telegraph Co.
