In a Gambler's Market

A clerk's error, adding three ciphers to a thousand-bushel selling order, caused wheat to fall 8¼ points on the Chicago Board of Trade last October. It didn't change the world's wheat supply by a single grain or affect actual wheat needs by so much as a crust of bread, but every farmer whose wheat was marketed that day lost money as a result.

A short time before, the market was sent tumbling by a false cablegram announcing that France had a big harvest of wheat.

When a clerical error or baseless rumor can rob the farmer of millions, some remedy MUST be found.

A practical remedy is knowledge of world markets. Accurate information on all foreign crops can be gathered and given out. This would make supply known and demand steady.

The Farm Bureau aims to prevent costly price fluctuations by this means. They believe in the "light cure" as a remedy for distribution evils. And you can help! If you are not a Farm Bureau member, join today.

In your individual effort to contribute toward the improvement of farm conditions, you will find THE COUNTRY GENTLEMAN a powerful ally. With a large staff of editors and contributors covering every corner of the land—even studying foreign markets—THE COUNTRY GENTLEMAN presents each angle of our national farm problems in the most helpful and interesting way. It warns you of causes for price changes before they occur, helps you to make money, entertains and inspires you—all for just \$1.00 for 52 big issues. Send a dollar bill—or your check is good!

"You Save Money" says the Good Judge

And get more genuine chewing satisfaction, when you use this class of tobacco. This is because the full, rich, real tobacco taste lasts so long, you don't need a fresh chew nearly as often. And a small chew gives more real satisfaction than a big chew of the ordinary kind ever did. Any man who uses the Real Tobacco Chew will tell you that.
