PICKING 'EM TALL NOW

A new fashion in stage impersonations was established by Henry Savage when Miss Josephine Adair was cast as soubrette in "Lady Billy." She is a young Californian who stands virtually six foot tall, but Broadway likes her just the same.

SILETZ

DIED—The infant son of Mr. and Mrs. Joseph Kosydar, February 21, aged four months. The funeral was held Wednesday at 2 o'clock with interment in Riverview Cemetery.

Riverview and Riverside are much alike and often lead to confusion. Portland has a Riverview cemetery so to avoid mistakes in names Siletz cemetery is officially named Riverside. The Indian people have a cemetery of their own which is called the trail to the "Happy Hunting Ground." This is the old Indian belief and no "pale face" is admitted there unless he has been adopted into the tribe.

The public school observed Washington's birthday by assembling in the auditorium and giving a very excellent program prepared for the occasion by the teachers and Prof. Easy as principal of the school. The life and character of George Washington was pretty well gone over and no doubt it made a good impression on the minds of the pupils. It is a good thing to turn back at least once a year and go over the history of the trials, struggles and privations that our forefathers had to go thru to gain our liberties and we should be careful to maintain them. If anyone should attempt to pull down the American flag shoot him on the spot.

A grand masquerade ball was given at the Reception Hall Tuesday night in commemoration of the birthday of George Washington. The hall was filled to the walls with dancers at least 250 persons being present. A great many were masked with pretty and unique costumes. Two prizes were offered to the best dancers and the most appropriate and beautiful costumes. Mrs. E. W. Kearns, Mrs. Lee Wade and Dr. Carter were chosen as judges. After two hours of splendid dancing in full costume and the grand march, the prizes were given. First prize went to Mr. and Mrs. L. Crawford. He represented the Indian

chief in his gaudy costume and she an Indian princess with her beautiful Indian dress all decorated with beads and brilliantly colored scarf and head dress. Second prize went to Chas. Downey and Mrs. Ray L. Calkins. Mrs. Calkins wore a costume that was new and up to date, she was also a splendid dancer. Mr. Downey had on a brilliant costume of navy blue. A fine feeling of friendship and sociability seemed to pervade the whole audience. Washington himself liked to dance and at Mt. Vernon in his mansion he had a room built for that purpose.

Mr. and Mrs. J. E. Cooter were visitors at Siletz Tuesday. Mr. Radant sent for Mr. Cooter to come over and examine a cow which he thinks has tuberculosis. With all the test made on the cows in Lincoln County only one was found to have tuberculosis and she had been brought in from the Valley. Mr. C. was looking after the stock and Mrs. C. visiting Mrs. Ralph Hamar.

E. T. Thompson and family have moved back to Canada. Mr. T. said it rained too much for him here. Mrs. Thompson came here sick but went away feeling fine. Warren Hall purchased their home. It is nicely located. Several pieces of land have changed hands lately. Joseph Kosydar has bought the 10 acre piece of land near Orton, a nicely located piece of land, price \$300. This land belonged to Louis Smith. This deal enabled Louis to buy the fine span of horses and wagon from Joe Casen. Mr. Casen will probably move to the Willamette Valley in a short time.

Mr. and Mrs. Kearns have come back from Newport and will now look after their loganberries and other interests here.

L. A. Woodward has a new gas boat which he calls the Galloping Goose. He is very much stuck on it and tells very wonderful tales about it. He says he struck a four foot log bow on, and split it full length. People below here better watch out or they may have cord wood instead of logs.

We had a long and very interesting paper read by our delegate to the conference at Toledo. She was much impressed by the rest room and library of Toledo, also the dinner and supper served by the people of Toledo.

C. 117 Engineers.

ROOSEVELT HIGHWAY BILL PASSES

The amended Roosevelt Highway bill passed both houses of the Legislature and is now up to the Governor. The passing of this bill does not mean that the Roosevelt Highway will be immediately constructed, but simply places same on the road map of the State Highway Commission's general road program and assures that the road will eventually be built.

IMPROVEMENT CONFERENCE ENTHUSIASTIC

MEETING WELL ATTENDED

Dairying, mohair and wool, taxes, better roads and water transportation, were subjects discussed and with delegates from practically every section of the county, one of the best meetings ever held in Lincoln County took place at Toledo last Friday and Saturday.

Dairying, the biggest industry of the county was the first number on the program. Mr. M. S. Schrock, manager of the Oregon Dairymen's Co-operative League, explained to the dairymen present what the Oregon Dairymen's League could do for them.

This new form of cooperative handling of dairy products differs from any of the old-style cooperative movements, in that it requires that at least 70% of the dairy products must be contracted to the association before organization will take place in the territory, the farmer agreeing to sell all of his milk or milk products to the Oregon Dairymen's League for a period of five years.

The League is a non-capital stock, non-profit, co-operative association, which, on selling the products of the dairy farmer, returns every cent, less the cost of operation, to the farmer. Through its By-Products Corporation, the League establishes such creameries or cheese factories as the needs of the individual community may demand.

The management of the League is vested in a board of directors elected directly by the farmers. These directors in turn hire a manager and other employees necessary to the successful handling of the business.

The Oregon Dairymen's League has recently organized in Coos and Curry counties, and in many other parts of western Oregon. The contract, which is the backbone of the organization, is very similar to that which has been used so successfully by the Citrus

GREATEST SONG BIRD

The serious illness of the great tenor, Caruso, brought out one fact—and that is that the rank and file of the whole musical world acknowledge him the greatest singer of all time—either man or woman.

HILL STREET PAVING WORK WILL BE RUSHED

Chas. Mock commenced the paving of Hill street Monday of this week and the fine weather of the past few days has enabled him to make good headway with the work. Mr. Mock informed us that he expected to rush the work along as fast as the weather will permit. This improvement will certainly be appreciated when completed.

YACHTS COMMUNITY DOING THINGS

Bert Hays and V. P. Mitchell, of Yachats, were live-wires from the far south end of our county in attendance at the Improvement Conference. They report their community as taking an active interest in Farm Bureau work. "We are going to clean up our old orchards, clear more land, plant more clover, build more silos, eliminate poor cows, and get together in our little community for a better and more profitable time," asserted the delegates. "We will be back in June with a whole truck load of delegates," said Mr. Hays in parting.
