TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, MARCH 11th, 1921.

NUMBER 3

SILETZ

IN MEMORY—(By Dr. F. M. Carter)

Died at his home near Klamath Grade, March 6th, 1921 at 5 p. m., Scott Lane, aged 64 years. He had been a sufferer for a long time from organic heart disease. On the evening of his death, he had walked out in the open air. It was a beautiful day and on returning to the house, he passed one of the boys and remarked "I feel fine today." Mrs. Lane met him at the door and went with him to the sitting room. He reclined in a rocking chair all the while he was talking of the vanity of things and the frailty and uncertainty of life. He spoke of the family he and Mrs. Lane had raised. Said man was of small consequence in this big world and the future is unknown. Said he had tried to raise his children to be honest, truthful and industrious. Said he had been sick a long time. "I am weary and tired and want to go all at once." He threw up his hands and with a slight groan the Spirit of Scott Lane took its flight to his long home to solve the mysteries of the Unknown future. The attack was so sudden that he had no time to say goodbye to his faithful wife who had been his constant companion and was now at his side when the end came. He died almost at the exact spot where he was born 63 years ago. He is survived by his widow, four boys and one daughter, Mrs. Clayton Pond, Frank, Alfred, Archie and Joseph. Alfred is an ex-service man having served in the navy two years and three months—being stationed at Portsmouth, England and at Havre, France. He was engaged in conveying troops in the English Channel to France. Archie is in the Infantry and is stationed in Germany. Two boys are dead. Scott said of these boys, if they were alive they would have been in the army also. Scott Lane was married to Minnie Louis in 1881 and had lived at the home place ever since. It is a beautiful location and can be made one of the most beautiful homes in the Siletz Valley. Scott Lane was well known and had good luck in putting over whom he wished to get the offices. Scott will be missed among the politicians of the county. He had a rough exterior but a kind heart within. His mother was Anna Chapman—Klamath Anna as she was better known by the old timers. She was a friend and associate of Maggie Harney, both Klamaths and both princesses in the tribe. These young women were the best known and most popular with the early agents and employees. Scott Lane's father was Commodore Lane and was on the reservation at an early day and was a member of one of the most noted families in Oregon. The funeral was held at the Catholic Church, Wednesday at 2 p. m., conducted by Father Vollebregt of Newport with interment in the cemetery near the Agency. L. R. Bateman, the undertaker from Toledo had charge of the undertaking work.

M. E. CHURCH

The Epworth League had a social in the basement of the Church last Friday evening. There were between thirty-five and forty present. A dainty lunch was served, consisting of sandwiches, cake and chocolate. The crowd broke up about eleven o'clock. The Leaguers are singing the League song:—"It's a good thing to be a Leaguer, It's the best thing I know, It's a good thing to be a Leaguer Where ever you may go A goodbye

sin and Satan Farewell all that's bad It's a good, good thing to be a Leaguer It makes my heart glad." Come out and help us sing this song. Epworth League Sunday evening at seven o'clock. Topic: Leader, Norman Coniber. Rev. Cain was called home Sunday afternoon on account of the sickness of his daughter. She is reported to be better. There will be no preaching Sunday morning as Rev. Cain will preach at Edenville. Don't forget our Sunday School is at ten o'clock next Sunday.

SILETZ SCHOOL

During the last report month the school room having the highest percent of attendance was that of Miss Julia Smith, of the Long Prairie School, having a percentage of 97.9. This week a number of the pupils are looking forward to and preparing numbers for the Community Club, which meets on Friday evening. The music, dialogue and papers being prepared promise to be especially interesting, as well as the parliamentary practice of the business meeting. It is planned to have an outside lecturer at the next meeting, of which special announcement will be made. Last Friday, when Mr. Tangermann was ringing the 8:30 bell a great thud was heard above, the building quivered, and all was still from the turret for the remainder of the day. A large bolt holding the bell in place had broken off, and let the bell fall from its hanging. It seemed different to have the school go on with no bell sounding, but in the evening, with the work of the blacksmith and Messrs. Andrew and Chas. Goodell the old bell was prepared to swing and toll better than ever. The pupils who are being transported from Lower Farm experienced a bit of real excitement last week when a large flame sprang up in the truck it was exciting—the children were very quick to get out of the machine. The little pool of lighted gasoline soon burned and no more damage was done. The first game of volleyball for some time was staged in the gym on Tuesday between two groups of boys. Preliminary practice for the great American game is also starting. Plans are being worked out for planting of some suitable trees on the school campus. There is also a prospect of developing an experimental garden plot very soon. On Tuesday evening an assembly of those interested in stringed instruments met at the home of Chas. Larsen for practice.

HELD FOR LARCENY

Merle Jones and Arthur Barnes were arrested this week under a charge of larceny of a store building. Barnes was arrested here Wednesday by deputy sheriff McElwain. Barnes confessed to deputy McElwain and prosecuting attorney McCluskey to having robbed Walrad's grocery and Iverson's store at Newport as well as bedding and other effects from cottages at Agate Beach. He implicated Merle Jones so the authorities here phoned down and had constable Albert Taylor pick him up also. The two were given a hearing before Justice Parrish yesterday. They waived examination and were held to the Grand Jury under \$500 bonds. Being unable to furnish the bond they are being held in the county jail.

BATTERY C MUSTERED IN

On Sunday afternoon at the Club House, a meeting of members of the 3rd Platoon, 3rd Co., C. A. C. was held for the purpose of electing a 1st lieutenant. After the ballots were tallied it was found Thomas A. Rice, Resident Engineer for the Highway Commission, was elected by a substantial majority. On Tuesday evening, the State mustering officer, Major J. S. Dusenbury, with Capt. Matthews and Sgt. Dimick officially mustered the platoon into the National Guard of Oregon. Mr. Rice the newly elected lieutenant, was former service man, having served at Camp Lewis, Camp Taylor, Kentucky, Camp Jackson, South Carolina, and successfully completed the School of Fire for Officers at Fort Sill, Okla. in the heavy motorized Field Artillery branch, and was at Camp Knox, Kentucky as a Lieutenant in the 69th Field Artillery at the signing of the Armistice.

Interesting talks were given by Major Dusenbury and Capt. Matthews, and from their remarks, clothing and equipment will be immediately requisitioned for use of the new platoon. The Major intimated that plans are being made to have the summer camp for the Coast Artillery arm to be held at the Presidio of San Francisco, but if this plan would not materialize, the platoon would be taken to Camp Lewis for training with the regulars as was done last year. Arrangements are being made to use the Club House as an Armory. Later as the organization grows, Club Rooms will be fitted up for the members, and such conveniences as pool tables, reading rooms, shower baths, etc., may not be imaginary. The majority of men desired that Tuesday night be set aside as drill night, except when circumstances prevent and the drill changed to another night.

The strength of the platoon is limited to fifty men only. There are now on the roll 43 names, all of whom are enlisted. The limit being 50 it is readily seen that but few more men are required to bring the platoon to its maximum, and when that is attained there can be no further enlistments, except as vacancies or transfers occur. The boys are contemplating giving a dance in the near future, a baseball team will be organized, the committee headed by Toll Weeks is obtaining samples for suits at this time. Wrestling, boxing, smokers, picnics and eats after drills will be arranged at various times. Every effort will be made to make the platoon attractive to the members not only from the training in Coast Artillery, but from social activity as well.

For the formation of this unit in Toledo must be given A. G. Schwartz, W. A. Cooper, W. K. Patterson, and others, who have worked persistently and patiently in getting the platoon organized.
