

The Telephone in Business

By far the greater proportion of business today in this country is transacted by telephone. It has become the ordinary means of securing prompt and satisfactory results in the business world. Many business firms are extending the use of the telephone to include their transactions over the entire territory they serve. Buying and selling by long distance telephone is bringing satisfactory results whenever tried.

The essential thing in sales work is service to your patrons. Use of long distance lines will increase the efficiency of your service and the expense will be less.

For service to all points ask for Pacific Long Distance.

"In Every Respect" says the Good Judge

You get more genuine chewing satisfaction from the Real Tobacco Chew than you ever got from the ordinary kind.

The good tobacco taste lasts so long—a small chew of this class of tobacco lasts much longer than a big chew of the old kind. That's why it costs less to use.

Any man who has used both kinds will tell you that.
