FREE LAND CLEARING

Mr. S. F. Zysset, inventor of the Zysset stump burner, writes the office that his demonstrator, Mr. Miller, would be willing to come into Lincoln County and demonstrate the effectiveness of his stump burner as a means of getting rid of the big stumps, provided the parties upon whose land the demonstration will be held would be willing to pay his traveling expenses into the county and back again and give him board and room while demonstrating. This is a good chance for somebody. If interested, write the county agent's office at once.

GOATS SHEARING WELL

Reports to date indicate that goats are shearing heavier than they did last year. It was earlier thought that the continued long, wet winter might have damaged the goats, but indications to date do not show any appreciable injury. This fact alone will be dry and in fine condition and at the present time, the only thing lacking appears to be a good price for the wool. The following are the conditions for the improvement of goats: While the goats will not get a worse price, we hope that they will at least see a fair price for their wool.
