# Ford

THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921 and how many have been sold to retail customers, in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,895	87,221

Total Production 127,074 Total Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,358 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000! These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.

### PASSING THE PIE

At the last meeting of the State Game Commission, at Portland, a resolution was adopted, to replace a number of the old game wardens with new men. Our local warden, W. G. Emery, is one of those affected by this deal and a new man, Mr. Christenson, of Oregon City, has been sent here to take charge of game affairs in Lincoln County. We have nothing against this gentlemen, for he comes highly recommended, but he has a pretty big job ahead of him if he expects to equal Mr. Emery's record as a warden. Our old warden did not receive his appointment through any political pull, but accepted a position voluntarily tendered to him. He has held that position for five years on account of his good judgement and efficiency and he has had the unanimous support of the sportsmen of this district and of all the law-abiding citizens in the handling of the duties of his difficult position we absolutely know that a petition circulated throughout this game district in favor of Mr. Emery's retention, would be signed by ninety per cent or more of our people. It is a fact known to all of us that, when Mr. Emery was appointed as warden, game conditions in Lincoln County were in a bad condition. Game laws and game officials were despised and mentally consigned to a hot resting place. This condition of public sentiment had been caused by the gumshoe, stool-pidgeon methods used by previous wardens in their enforcement of the game laws. A positive proof of Mr. Emery's ability and fitness for the position of a game warden, is the improved state of affairs today. He possesses of what is known as "good horse sense," he is energetic and attends strictly to business, and while he passes up minor, technical violations, of some of the complex variations of the game laws, yet he strictly enforces the important provisions of the game code. He is what is known as a "square shooter" and plays the game without fear or favor as some of our best citizens and prominent sportsmen of Toledo and Newport know by experience. His record during the past twelve months in the matters of arrests and fines has been an enviable one. Out of more than a score of arrests he has secured eighteen convictions, with an aggregate of \$500.00 in fines in addition to costs, and this without the outlay of one cent in litigation. During the five years he has been in the service he has not lost a single jury case. We wonder if there is another warden in the state who can equal such a record. And yet Mr. Emery does not suit the new Game Commission. Apparently also no Lincoln county man is fit for such a position. Since when has it been ordered that the wishes of the citizens of Lincoln county are not to be considered in the selection of officials for handling its affairs. Ben Olcott is also a "square shooter" and we wonder what he thinks of such a procedure. We will gamble that he don't know anything about it.

We believe it is just simply a case of quietly passing the pie.

### EAT CHEESE MADE IN LINCOLN COUNTY

In the north end of Lincoln County we have a number of small cheese factories, and one of the biggest problems of the dairymen operating on is the satisfactory disposition of their product.

Recently the Rose Lodge Cheese Factory sent a case of Young Americas, a small round cheese weighing from 5 1/2 to 6 1/2 pounds, to the county agent's office. There was a great rush on the part of the people seeing them to get hold of one of these cheese. The quality was declared to be fully equal that of Tillamook.

Why not everybody eat Lincoln County cheese? Ask for it in preference to other brands at your grocery store. The merchants in Toledo have already decided to handle it, and it is up to you to help them along. People in any community who wish to get this cheese direct from the factory can do so by pooling orders sufficient to order a 50-pound case. The price on case lots will be one cent under the T. O. B. Tillamook price.

E. Martin, of Rose Lodge, is secretary, and County Commissioner Warren's son is cheese maker.

### POMONA GRANGE JUNE 22 AT MOUNTAIN DELL.

The regular Lincoln County Pomona Grange is scheduled to meet with the Mountain Dell Grange on Five Rivers, June 22nd. Mountain Dell is the youngest grange in the county and draws its membership from both Lane and Lincoln counties.

It is planned to make this meeting a big affair, in that it comes at a time of the year when the roads are at their best, and it will be possible for all who wish to get there and come back with ease. State Master C. E. Spence and delegates from both Lane and Linn county will appear on the program.

Any granger in the county who desires to attend this meeting and does not have a car of his own should notify the secretary at once and an attempt will be made to provide transportation; also any granger with an extra seat in his car should report same to J. E. Cooter, secretary.

### M. E. CHURCH

On Sunday evening, June 6th, at the Methodist Church, Rev. Cain, preached the Baccalaureate Sermon to the graduating class of Toledo High School. Besides the class, an immense congregation was present. Profusions of flowers were used in decoration. Carefully prepared and very appropriate hymns were rendered by the choir. The solo of the evening was sung by Sada Marie Chambers, a member of the graduating class. The text was taken from II Timothy, Chapter 2, "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." The sermon was full of splendid thoughts and advice and should be long remembered by all who heard it.

### NEBRASKA'S NEW BID FOR MAT TITLE

### HAS MADE PRESIDENT'S SMILE FOR 20 YEARS

JOHN PESKE

Nebraska seems bent upon leading all states in the number of heavyweight wrestling champions produced within her borders. No sooner has Joe Stecher lost the title to "Strangler" Lewis than out of the Cornhusker state comes John Peske weighing 197 pounds and standing six feet high--a 24-year-old farm boy who in 144 contests lost but three decisions. His special hold is the head selector. Larney Lichtenstein, famous Chicago manager, has taken charge of Peske's affairs and says he will pilot him to the championship. "The best youngster developed since the days of Frank Gotch," is the verdict of mat critics. He threw the great Zbyszko in straight fall--one in four minutes.

Paying the president has been one of the most joyful duties of this woman for the last 20 years. Her name is Katherine Shea, an employe of the Treasury Department at Washington, who each month delivers in person at the White House a check of \$6250, the president's pay for 30 days. She is here shown with next to the last check for Woodrow Wilson. Next month it will be made out to Warren G. Harding. The yearly salary of the president is \$75,000.
