

Lincoln County Leader.

VOLUME 29

TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, OCTOBER 14th, 1921.

NUMBER 34

SILETZ

Saturday night six big rock trucks and one touring car started to come over the detour from Nortons on their way to Newport to assist in rocking the state road from Newport to Toledo as the contractor, Mr. Kearns, was greatly in need of more help, to finish the work while the weather was good. These trucks were from The Dalles and had been four days on the way. At Daily Creek, about one and a half miles from the Southwest place, they struck soft swampy land and the wheels of the trucks went down in the mud and stuck and there they were in the dark without any lights, not even moonshine and not a thing to eat. It was now about 9:30 o'clock. It was a dilemma. What to do they did not know. It was a new country and they did not know where anyone lived. At this critical moment Hoxie Simmons and Perry Batace came along with their car and offered to help them out of their trouble. Mr. Simmons told the foreman if he would send some of his men one and a half miles to Mr. Southwell's they could get help. The men went as directed and aroused the family. The Southwell boys got up and took their team and went back and after working three or four hours, got all the trucks out. It was now two o'clock in the morning. Not one of the men had had anything to eat since noon the day before. They were nearly exhausted. They were glad to get out and could not be too thankful for the help they got from Hoxie Simmons, Perry Batace and the Southwell boys. This train of heavy trucks passed the Agency about six o'clock in the morning. From the noise made people along the road did not know what had broken loose. Some of the Natives thought their time had come and called on the Great Spirit to help them out. But when told it was only a bunch of big trucks rattling along they went back to bed again and to pleasant dreams.

W. L. Sharp and Mr. Owings are putting in a sawmill just back of Jim Batace's place six miles from the Agency, near the road that leads to the Upper Farm. The mill will soon be ready to run. The mill will cut shingles as well as lumber. The company has large bodies of fir, spruce hemlock and cedar timber. It is the purpose of the company to sell lumber and shingles much cheaper than it has heretofore been selling. This will be a great blessing to the local trade as well as outside trade.

R. E. Chandler and his brother, J. M. Chandler, have formed a partnership in the stage business and will increase their stock and do a larger business than ever before. The name and title of the firm will be known as The Chandler Brothers. J. M. Chandler is an expert electrician and machinist and will be able to do any kind of car repairing. No one now need send outside to have their cars repaired, as that kind of work can be done here at Siletz with reasonable charges. Mr. Chandler makes car repairing a specialty.

Rev. Walter Ross will go to Springfield to live but his line of work will be out on the line of railroads running from Springfield. This change was made for the benefit of Mrs. Ross' health. The family will leave Saturday for their new home.

Rev. C. W. Pogue from North Bend is sent to the Siletz Indian Mission. Mr. Pogue is a young man of thirty-five years, has a wife and two children and is said to be a very successful minister.

W. L. Haines, father in law of Ray Chandler, is building a nice bungalow on his 40 acre tract of land about a mile and a half from the Agency on the road leading to the Upper Farm. These permanent settlers are what build up a community and country.

NASHVILLE

Mr. and Mrs. Olie Hamar and the babies came in from Corvallis Thursday.

Gus Winkler was a Summit visitor Wednesday.

Mr. and Mrs. Wm. Cochell have returned from Albany and are at the J. O. Davis home.

Mr. and Mrs. A. F. Englin were passengers to Albany Saturday, Mr. Englin returning Sunday.

Nash Bros. sold a carload of fat steers to Nebergall Meat Co. this week.

Wm. Cochell and Ben Hogvohl made a business trip to Nortons Tuesday.

Mr. and Mrs. Batchelor and family have moved to the Biglow-Doane mill—Mrs. Batchelor is a niece of Mr. Biglow.

The boiler at the Biglow-Doane mill exploded early Tuesday morning. Fortunately the men were at breakfast and no one was injured.

Mrs. R. N. Nash was down from the ranch Thursday, spending the day with her sister, Mrs. Edwards.

ONA

A masquerade ball will be given at the Grange Hall Saturday, October 29th. The proceeds to be used to help purchase a piano for the Grange. Everybody welcome.

Arthur Holmgren and Peter Byrnes left Wednesday for Bend, Oregon, going out in the formers' car.

Mr. and Mrs. E. L. Wilson entertained a large number of friends at a house warming Tuesday evening. Over 50 neighbors were present and all enjoyed a delightful evening.

Sunday afternoon the people of this community met at the schoolhouse and organized a Union Sunday School. The officers elected were Superintendent, Mrs. I. R. Payne; Assistant Superintendent, H. G. Rhoades; Secretary, Miss La Vera Payne; Treasurer, Miss Neta Phelps. Sunday School will be held at the school house at 10:30 a. m. and all are urged to attend.

The dance at the Grange Hall Saturday night was very much enjoyed by the young people.

Mr. and Mrs. C. S. Ohmart and sons spent Sunday with Mr. and Mrs. Frank Uddike at Winant.

Mr. and Mrs. A. H. Phelps were guests at the I. N. Huyett home on Upper Beaver Sunday.

Monday being Good Roads' Day for Ona, most of the men of the community spent that day working on the road down Beaver Creek.

H. H. Cook and sons are installing the boiler in their sawmill this week.

Mrs. H. White visited at the Covert home Monday.

ATTENTION WEST YAQUINA

Undersigned appeared before the Board of County Commissioners in regard to having our tramway fixed up before the winter storms set in, but owing to the fact that the county is financially embarrassed nothing can be done unless the people in the vicinity and those using said tramway would be willing to contribute in the way of volunteering work, then the Commissioners promised to help the community which is willing to help itself.

As you are well aware of the fact that the tramway will drop in the bay the first severe storm, let us get together and have it repaired. Please report to undersigned or County Judge what you can do in this matter. Chas. Hassman.

METHODIST CHURCH

Next Sunday, Rev. Cain will preach at Toledo at 11 A. M.; Eddyville at 2:30 P. M.; Elk City at 7:30 P. M.

The Convention is over and Rev. J. D. Cain will remain at Toledo another year.

Sunday school Sunday morning at ten o'clock. Preaching at eleven in the morning and at eight in the evening.

Epworth League at seven o'clock Sunday evening.

Prayer meeting every Thursday night at seven o'clock, sharp.

The party given by the Standard Bearers was a great success—everyone reporting a good time.

LISTENING IN ON THE WORLD!

Next to the automobile, the most amazing thing of this century, perhaps, is the way the wireless has spread among amateurs in America. The U. S. Navy asserts that 500,000 boys, girls and young men have such radiophone plants, most of them costing from \$10 to \$25. This is an average of 10,000 to each state—but of course some states have several times 10,000.

Every night news in Morse code or lectures or addresses or concerts are sent out from central stations in cities for the benefit of these amateurs. The United States Navy exercises a certain control over these amateurs through what is known as the "Navy Radio Amateur Bureau." This bureau sends the amateur copies of secret codes, arranges concerts and lectures for them and otherwise interests them. An amateur writing to Popular Science Monthly says the bureau even sent him a personal message soon after he joined.

The same writer says that when he first got his apparatus together, he took it out on the porch. The wire touched a standpipe on the porch, and instantly he heard music. Wireless sounds come through the air like ripples on a pond, and washed against the receiving wire. In this case they washed against the metal standpipe, and the minute the wire touched it, the concert that was in the air at the moment began to reproduce on the apparatus in his house.

If any of our community boys are interested in becoming amateur radiograph operators, they should write "United States Navy Radio Amateur Bureau, New York City."

In occupying our new banking rooms, we would like to extend to the people of Lincoln County our thanks for their business and support which has made our new quarters possible and necessary. We feel that our quarters are a token of our appreciation of many favors extended to us in the past and that we are in a position to give all the service possible consistent with good banking.

We have grown up with Lincoln County and we look back over our twenty years in our old quarters as well spent. We trust that in the succeeding years we can be of even more service, and that Lincoln County will come into all of the good things which seem in prospect for her.

To our patrons we extend a very sincere invitation to visit us in our new home and to those who have not availed themselves of our facilities we would extend just as sincere an invitation to come in and get acquainted.

LINCOLN COUNTY BANK,

C. E. HAWKINS, President
C. O. HAWKINS, Vice President
J. B. BOOTH, Cashier
A. E. HAWKINS, Asst. Cashier.

ROAD ROCKING NEARLY DONE

The rocking of the Toledo-Newport section of the Corvallis-Newport highway is nearly completed, there remaining at the present time but about three-fourths of a mile to rock. The fine weather of the past few weeks has enabled this work to be rushed, and it is now certain that the road will be completed this fall.

CAMPAIGN PROVES SUCCESSFUL

W. A. Crane and Col. Wm. A. Aird who have been soliciting membership to the National Farm Bureau Federation, in this section the past week, reports a very strong feeling in favor of the Farm Bureau. Mr. Crane stated that from 85 to 90 per cent of the farmers he had approached had joined the Federation. Mr. Aird stated that 37 out of 41 solicited by him, on the Siletz and in the north part of the county, had joined.

ONA GOOD ROADS CLUB HOLD REGULAR MEETING

The Ona Good Roads Club held their regular monthly meeting on Monday, October 10th, 1921, on the new road down the Creek. Eleven men and five teams were present for the day's work.

During the noon hour, a short business session was held with C. S. Ohmart presiding.

The day was spent grading and putting in a fill between Simpson Creek and the Gallagher place.

SECOND PLATOON HAS INSTRUMENTS SET UP

The 2nd Platoon under command of Lieut. L. H. Brown, 3rd Co. has a plotting room, observing stations and telephones installed so that now the members of the command may be instructed under conditions similar to those in a well equipped fort or battery, such as are used during the summer two weeks training period while away from home. Time interval bells are being installed, and the different stations are connected by phone—a target is tracked by the observing stations and transmitted to the plotting room where the data is worked out for the information of the gun crew in manning the guns.

This platoon has two complete plotting room details under instruction at this time, and the plans of Lieut. Brown are to have two thoroughly trained units that will be capable of taking over a battery at the next summer encampment with credit to the organization.

Several new enlistments have been made since the trip to Fort Stevens, a number of promotions made and a few who were not attending drills, have been discharged.

SECOND PLATOON DANCE

The dance at the Legion Club House last Saturday evening given by the Guards more than paid expenses but was not as profitable as some that have been given in the past. The Guard dance committee is trying hard to make a platoon fund with these social affairs, and appreciate the cooperation of the public in the matter.

TOLEDO COAL MINES TO BE WORKED

George Carpenter of Roseburg arrived in Toledo this week and has been busy opening up the old coal mine on the Steel place near this city. Mr. Carpenter has been getting out a couple of ton of coal to be tried out at the electric plant. If the coal proves satisfactory, the plant will probably be fired with coal this winter instead of wood. The coal was hauled to town Wednesday by Fred Romtvedt.

It will be remembered that Mr. Carpenter, who is an experienced coal miner, was here during the summer of 1915 and took out about seventy ton of coal. The mine was then closed and has remained idle until the present time.

In a talk with Mr. Carpenter Wednesday, he stated that he had all the adjacent coal lands now under lease, and was ready to commence operations on a large scale. Should the coal prove satisfactory for steam purposes at the electric plant, and he can secure a contract to furnish them coal, a new mine will be opened at once near the railroad. Failing to secure a contract to supply coal to the electric company, the mine will not be opened until March. At that time however a large crew will be put to work getting out coal for shipment to Willamette Valley points.

There are thousands and thousands of tons of merchantable coal in this country, and it begins to look now as though it will soon be placed on the market. The coal is of a semi-anthracite nature.

MEDAL OF HONOR MEN

Are there any Medal of Honor men in Lincoln County? If so they will learn something of advantage to them by writing or reporting to Lieut. W. K. Patterson, of this city.

AT THE "MOVIES"

THURSDAY-FRIDAY:—(Don't miss this show)—Thomas Ince's second Super-Feature of 7 reels "LYING LIPS"

A great drama of life and love. All star cast with House Peters and Florence Vidor as leads. Ince is the producer of "Civilization," and "The Flame of the Yukon" etc.—35c. and 15 cents.

Each of the following programs have been shown in Toledo for one night:

SATURDAY:—Harold Lloyd in the 3-reel Ford Comedy, "GET OUT AND GET UNDER," also J. Warren Kerrigan in "THE LORD LOVES THE IRISH,"—35 cents and 15 cents.

SUNDAY:—J. Warren Kerrigan in the absorbing Mystery drama "NO 99" also "FORD WEEKLY" 30c.—15c.

COMING—Nov. 4 and 5—"BLACK BEAUTY."

GIANTS WIN WORLD SERIES

By grabbing off yesterday's game by the score of 1 to 0, the New York Giants won the necessary number of games to give them the World Championship. Hurrah for the Giants!

RUMMY PARTY

The ladies of the Eastern Star will give a card party at the I. O. O. F. Hall Saturday evening, Oct. 22. Every one invited.

ANNOUNCEMENT

Dr. F. W. Kellogg, Eye Specialist, will be in Toledo, Wednesday, Thursday, Friday, Saturday, October 19, 20, 21, and 22, 4 days only.

ST. JOHN'S EPISCOPAL

Archdeacon Chambers will be here next week, either Wednesday or Thursday evening, and will hold services at St. John's Episcopal Church while here.

LOCAL TEACHERS' MEETING

There will be a local institute for the teachers in the Siletz country. Yes, it will be for all the teachers that can attend whether they are teaching in or near Siletz or not. A good program will be given and while it is called a teachers' meeting it is for school board, parents and all others who are friends to education.

The program will begin at 10 o'clock in the forenoon and at 1:30 in the afternoon. Remember the date—Saturday, October 15th, 1921.

R. P. Goin,
Co. School Supt.

ARRESTED FOR HAVING BOOZIE

Deputy Sheriff McElwain arrested John Phacker of Independence at Newport Wednesday evening, on a charge of having liquor in his possession. Mr. Phacker has been getting out Siletz on a fishing trip and on the way he picked up one James Brown. Brown had a quantity of moonshine and after reaching Siletz they proceeded to tank up. Later they picked up two Indian girls and drove to Newport where Phacker was arrested and brought to Toledo.

When brought to trial Phacker was released on motion of the District Attorney, and a warrant was issued for the arrest of Brown, who has not been apprehended as yet.

LINCOLN COUNTY BANK OCCUPIES NEW BUILDING

On the same day that Columbus landed in America, only several years later, the Lincoln County Bank, of Toledo, landed in its fine new, reinforced concrete building, and after looking around the premises, they, Mr. Columbus, decided that at last they had found what they had been looking for, viz: a modern, up to date place to do business, and so they at once began to unpack their goods and chattels.

The Lincoln County Bank Building is of reinforced concrete construction strictly fire proof, has furnace heat, a large airy lobby, customer's room, etc. The bookkeeping rooms are located on a mezzanine floor at the back of the building, over the vault. The exterior view of the building most pleasing to the eye, and adds greatly to the appearance of our street.

The erection of this costly structure during the present unsettled times, is a fine testimonial of the Lincoln County Bank's faith in the future of Toledo, and Lincoln County.

Toledo now has two as fine bank buildings as any town of its size in the land.

BRIDGE CONTRACT AWARDED

The contract for building the Ram-dell bridge across Big Elk river was awarded by the County Court Wednesday to Clarence Altree of this city. There were five bids submitted for the building of this bridge, as follows: J. C. Altree \$368; R. W. Peplin, \$316.25; Otis Hamar \$1050; J. E. Taylor \$1250; P. Frederick \$2460.

The contract for building the E-chre Creek bridge was awarded to E. Marvin. There were also five bids submitted for the building of this bridge, viz: A. E. Marvin \$482.50; W. Peplin \$489.95; J. C. Altree \$540; Otis Hamar \$600; Albert Martin \$200. The bid of Mr. Martin was according to his own plans and not according to the plans and specifications, as therefore was not considered.

SPECIAL TERM OF CIRCUIT COURT

Judge G. F. Skipworth of Eugene will arrive in Toledo this evening and will at once convene a special term of Circuit Court, holding a session this evening and another tomorrow for noon. Divorce cases and other minor matters will be heard at this time.
