THE UNITED STATES, 1822—1922

A comparison of the conditions under which the United States entered the year 1822 with those corresponding year of the preceding century gives us renewed confidence, says the Trade Record of The National City Bank of New York, in the industrial and commercial future of our country. The population which in 1822 was less than 10,000,000 is now 107,000,000, or more than ten times that of a century ago, while the population of the world as a whole has increased but about 150% meantime. Our international commerce even in the present moment of depression is 60 times as much as that of a century ago, having grown from \$109,000,000 in 1821 to nearly or quite \$7,000,000,000 in 1921, while international commerce of the world in 1921 may possibly total 40 times that of a century ago it stood at \$1,659,000,000.

This growth with us has been largely due to increased facilities of transportation. In 1821 our great Mississippi Valley with its wonderful producing possibilities had but about 2,000,000 people, and their only way of sending their products to tidewater was by the rivers and the Great Lakes, for even the Erie Canal was not yet finished at that date and steam railways for commercial services were then a thing unknown in any part of the world. Of the 750,000 miles of railway built in all the world since 1821, over one-third was constructed in the United States, chiefly to connect the great interior with the ocean frontages, and the "Middle West" which had then 2,000,000 population has now 50,000,000 and is not only the world's biggest producer of grain and meats but is turning out over one-third of the manufactures of the country. The manufactures of the whole world in 1820 are estimated by Mulhall at \$4,250,000,000 while our census of 1920 puts the value of those of the United States alone at \$62,000,000,000 or nearly 15 times that of the whole world a century earlier. With this tremendous growth in our manufacturing industries our exports of domestic manufactures exclusive of foodstuffs have grown from less than \$5,000,000 in 1821 to over \$2,009,000,000 in 1921, or 250 times as much in the "lean" year just ended as in the corresponding year of the preceding century. With this increase in industrial, commercial and business activity has come a corresponding advance in the financial requirements and supplies, and the total "money in circulation" which was officially reported at \$67,100,000 in 1820 is officially stated at \$5,676,711,000 on December 1, 1921. Meantime the centers of industry and business have grown amazingly, the population of New York having increased from 130,000 in 1822 to over 6,000,000 in 1922, Philadelphia from 108,000 to nearly 2,000,000, and Chicago from "a hamlet of log houses inhabited by less than 100 people" in 1830 to approximately 3,000,000 in 1922.

Not all of this growth in the industries and prosperity of the country has come from a mere increase in population, for our area has doubled meantime, the total area of the United States having grown from 1,792,000 square miles in 1821 to 3,620,000 square miles, including Alaska, at the present time. Our additions of territory since 1822 consist of Texas, Arizona, New Mexico, and the entire Pacific frontage, and thus includes enormous additions to the agricultural and mineral wealth of the country.

Thus the year 1922 finds the United States the world's chief agricultural, manufacturing, commercial and financial nation. The possibilities of a further expansion in all these lines are found in the fact that with our population, exclusive of Alaska, is still only 36 per square mile or less than one-tenth that of certain of the most prosperous of our European neighbors.

DOG TAX LAWS

Every person owning any male or female dog over the age of 8 mo. within the state of Oregon shall apply for and procure from the county clerk of the county in which said person resides a license by paying to the county clerk a license fee of \$1.00 for male spayed bitch dogs and \$2.00 for female dogs annually and upon the payment of said license fee as aforesaid, the county clerk shall issue to persons a license and also a leather collar not less than one inch in width and of suitable length, having riveted thereon

Said license shall run for a period of one year from January first of each year, and any dog not wearing same shall be considered an outlaw, and shall be killed by the sheriff, chief of police or constable of the precinct in which said dog is owned, or found running at large.

Laws 1919, Chap. 186, Sec. 8.

Penalty for failure to take out license: Any owner or keeper of said dog who shall fail or neglect to apply for, or fail to pay said license fee during the month of January in each year, or within thirty days after he becomes owner or keeper of said dog or dogs, shall pay a fine of \$10.00 for each offense, which fine shall be collected with costs of the proceedings of a civil action in the name of the state of Oregon before a justice of the peace. Neglect to apply for or pay said license fee for a period of thirty days after said fine shall become due, shall be another and separate offence, and will subject the person to pay an additional fine for each offence.

Oregon Laws 1919, Chap. 186 Sec. 9.

MENTIONED FOR JUDGE

C. W. James, of Newport, who is now acting as deputy assessor is receiving favorable mention as a possible appointee for the office of County Judge. Mr. James is a man of wide experience and possesses a broad mind. He would no doubt fill the office in a creditable manner. His worst fault appears to be his politics he being a Democrat.

A petition has been circulated and freely signed asking that the governor appoint Mr. James to fill the vacancy caused by the death of Judge Fogarty. The County Farm Bureau in session yesterday went on record as favoring the appointment.

BASKET BALL

A game of basket ball is scheduled for Friday evening, February 3rd, between the Toledo and Newport boy and girl grade school teams. The game will be played in the Fair building. Admission 25c and 35c.

WATER PERMITS SECURED

The Elk City Water Co. has secured a permit from State Engineer, Percy A. Cupper, to appropriate water from Dixon Creek for a municipal supply for the town of Elk City.

Another permit was secured by C. M. Bulkeley, of Waldport covering the appropriation of water from an unnamed tributary to Alsea river for development of three horsepower.

NEWPORT WINS DOUBLE HEADER

The Newport Grammar School teams won both games in a double header played with the Toledo Grammar School on the Newport floor last Friday evening. The score of the boys game was Toledo 5, Newport 22. That of the girls was Toledo 7, Newport 13. A return game will be played here at Toledo the evening of February 3rd.

SAWMILL NOTES

Seventy five men are now employed at the big mill.

A locomotive arrived over from Dallas Sunday which will be used in clearing up the slides on the Alsea Southern R. R. At present it is being used as a switch engine at the mill.

I. Burpee has been placed in charge of the work of clearing up the railroad. He has been busy this week establishing a camp at South Beach.

Two buildings on the northeast side of the mill have been torn down.

Scaffolding is being erected for the completion of the refuse burner. It is reported that this will be one of the biggest burners on the coast, being about 40 feet in diameter.

A footbridge is being built to connect up with Toledo. This greatly shortens the distance between the town and the mill.

MILLER VS. SAUNDERS

Chas. Miller of this place has been challenged to a wrestling match by Kid Saunders of Eastern Oregon. The contest will be staged at the Fair Building on the evening of Saturday, Feb. 4th. Saunders certainly has his work cut out if he gets anywhere with Miller.
