KERNVILLE AND VICINITY (Continued from 1st Page)

In Wednesday's meeting at Kernville the question of a school site was raised. It was agreed that the consolidated district ought to have about four acres on the north side of the river. At which Bill Gerttula quietly smiled, and said: "Oh, well, if it's only three or four acres, I can give 'em that; I got it paid for; they can have it!"—So the first name in Kernville's Hall of Fame is likely to be "Bill Gerttula." No less credit is due Brady Buckner, who made a similar offer privately, in case the site chosen should be on his side of the river; tho he made no grandstand play to publish his offer when he learned that the other site was preferred.

The day of the moss-back is over. Kernville is on the map, and a few more progressive, public spirited men like Bill and Brady will put her on the smallest map that's made! Three Cheers for Bill Gerttula! All together—Rah! Rah! RAH! BILL GERTTULA. Jud Bowdre and Charley Rinnon are finishing up Bowdre's new home. We shouted across the river yesterday to inquire when "she" was coming out. Maybe our ears deceived us, but we thought he answered "In June!" Are you keeping something back from we-unns, Jud?

On the afternoon of Arbor Day, February 10th, Mr. Glaser and his pupils visited Mrs. Strome's school at Reed Creek. Al Toborer was captain of the voyage; and was elected pitcher for the opposition in a baseball game. Both teachers were on the winning side; I wonder if the kids were kidding them? After rehearsing some songs for the coming joint school entertainment, and snapping a couple of pictures of the group, the visitors departed merrily homeward.—Don't forget the big free entertainment at Bruno's Hall on Tuesday evening, February 21st at 7:30 o'clock.—Don't kick yourself for not coming! COME!

Negotiations were opened Wednesday to put the five schoolless children in Kernville into one of the Drift Creek District schools. Let's speed up the negotiations business and get some action. With apologies to Kipling, "By the old Moullimo Pagoda!" Those kids gotta go to school!

There was a merry little crowd at the dance last night at Bruno's hall. After the dance, Miss Toole, who is well known as the popular young teacher of the Drift Creek school, gave an exhibition lesson in the art of fancy diving. She declares the exhibition was entirely unintentional; but it could not have been done more gracefully or dramatically by Lottie Mayer.

Somebody said we had an exceptionally high tide this morning? ! ?
