

LIME PLANT WILL OPEN
IF ORDERS ARE SENT IN

Oregon State Board Offers Opportunity for Farmers to Get Supply by Making Wants Known.

The Oregon state lime plant at Gold Hill will be opened by the state board if enough new orders are listed to justify the further grinding of agricultural lime, says the secretary of the board, A. B. Cordley, dean of agriculture at the state college. Farmers needing less than car lots may combine orders for car lot supplies as only cash-in-advance orders for 30-ton lots can be accepted by the board. The board desires as early placing of orders as possible, as it is necessary to look up the services of a contractor or new manager to take the place of the former plant superintendent, C. W. Courtney, who has resigned to go into business for himself. Contractors or managers wishing to undertake the work are asked to get in touch with the board.

Orders are coming in slowly, and now total something more than 500 tons ground limestone. The price of o. b. Gold Hill in car lots, is \$4 a ton. Special shipping rates of \$2 per ton to Salem, like reductions to other points, have been obtained from the Southern Pacific Railway company. "Inquiries indicate that Oregon farmers are learning the value of agricultural lime," says Dean Cordley. "The experiment station has made extended investigations of the value of lime on various soil types for various crops, and under favorable conditions lime should be profitable at present prices. Where its value has not already been determined for the conditions, the station recommendation is that only enough lime be ordered to make trial applications."

This need not be unduly expensive since by pooling their orders with larger orders farmers may get their trial supplies at the same rates they would pay for the large orders. Farmers wanting lime may see their neighbors and make up carlot orders which they are to send to Secretary Cordley at Corvallis.

TENT CATERPILLERS HATCHING

Tent caterpillar egg masses are now hatching in the orchard. Many growers keep a sharp lookout for these small tents that contain the immature worms so as to remove them before much damage is done. This may be done with the aid of a long stick or by cutting out the whole branch where it is small, or even by passing a torch under the tents quickly. Where they are numerous and widely distributed it is sometimes necessary to spray for them with arsenate of lead, three pounds to 100 gallons of water, at the first practical opportunity.—Ex. station.

SCAB FUNGUS IS ACTIVE

A few rainy days allow the scale and pear scab fungus to develop with more than ordinary rapidity. The fact that orchards have apparently been free from scab early in the season should not tempt the grower to let up on the spray program. Remember last year's scabby fruit.—O. A. C. Experiment station.

COWS NEED MINERAL ELEMENTS

A shortage of mineral elements in the rations fed in western Oregon dairies has been the subject of considerable discussion lately. The best practical method of insuring the cows against such lack is to feed plenty of legume hay such as alfalfa, clover, or vetch. In addition, the cows should be given a fairly long dry period in which to recuperate their reserve mineral supply. The high protein grains such as oil meal, cotton seed meal, and bran contain a higher percentage of minerals than do the small grains ordinarily fed. The matter of supplying minerals directly in the form of mineral salts is still in the experimental stage.—O. A. Experiment station.

He has also taken an active interest in the Roosevelt Highway and has been assured by the Bureau of Public Roads that this Highway is on its program as a part of the road system in Oregon, and that it is ready to proceed with construction when the State is.

Elect IKE PATTERSON

REPUBLICAN NOMINEE
FOR

GOVERNOR

at the primaries Friday, May 19.

He is a man of rare personality and proved executive ability. Here, briefly, is his story: Isaac Lee Patterson was born in Benton County, Oregon, in 1859. Attended country schools and worked his way through Christian College, Monmouth. Became a successful merchant in Salem. In 1894 was elected State Senator from Marion County. In 1898 was appointed Collector of Customs at Portland, by President McKinley; re-appointed by President Roosevelt in 1902.

A Record of Achievement

WHILE he was collector, the business of Mr. Patterson's office practically doubled yet he reduced the cost of running his office by \$6,380 a year. Since 1906 has been a successful farmer at Eola, Polk County. In 1919 and 1921 served as State Senator from Polk County. As chairman of Senate Finance Committee led the fight against wholesale salary increase bills and defeated most of them. In 1921 voted against increasing Governor's salary.

Vote for Patterson and Stop this Wastel

Since 1913 State taxes have increased 748.7 per cent! This gross extravagance must be stopped! Mr. Patterson has pledged that when elected he will make a substantial decrease in your state taxes by efficient and economical administration. A vote for Senator Patterson is a vote for clean, economical business-like government.

WILLIAMS A JOKE AS VICE-CHAIRMAN

Fithian's opponent, Ralph E. Williams, has been sidetracked by the National Committee to a harmless vice-chairmanship and is useless to Oregon. Carrying kid gloves in one hand and a cane in the other, his hands are full and he has not been able to do a single thing for Oregon during the 14 years he has been on the Committee.

If the hours spent by Williams at Portland's swellest club had been devoted to working for Oregon, he might have accomplished something for our people.

WHAT IS WRONG WITH WILLIAMS?

Williams has no chance of becoming National Chairman and running the presidential campaign in 1924, or even the Western end of it.

The reason is that the National Committee seems extremely unwilling to trust Williams with the management of even the Pacific Coast part of the national campaign. For instance, in 1918, when a Regional Director for the Coast was selected, the Committee turned Williams down in favor of Raymond, Benjamin of San Francisco. Then, in 1920, when Harding was running, Williams was again ignored and Elmer E. Dover of Tacoma was chosen to conduct the Campaign on the Coast.

What is wrong with Williams?

IS WILLIAMS LOYAL TO NOMINEES?

All over Oregon Republicans are discussing Williams' connection with the campaigns of certain Republican nominees for United States senator, and are asking the question, DID WILLIAMS DO HIS FULL DUTY BY THEM? This question is being asked by friends of the late Senator Fulton in Astoria. It is being asked in Eugene by friends of Senator R. A. Booth. In Salem by friends of Senator McNary and in Portland by friends of Senator Stanfield.

VOTE FOR FITHIAN

FITHIAN is a successful business man, a live wire, a lifelong Republican who WILL BE LOYAL TO THE REPUBLICAN NOMINEES, FITHIAN WILL GET THE NATIONAL COMMITTEE AND THE NATIONAL GOVERNMENT TO HUSTLE FOR OREGON.
