

OFFICIAL PAPER  
OF  
LINCOLN COUNTY

# LINCOLN COUNTY LEADER

LARGEST CIRCULATION  
—IN—  
LINCOLN COUNTY

VOLUME 30

LINCOLN COUNTY LEADER, TOLEDO, OREGON, THURSDAY, JULY 20th, 1922.

NUMBER 22

## TOLEDO WALLOPS WALDPORT TEAM HERE SUNDAY

Wren, Pitching for Visitors, Touted as Leaguer, Is Driven From Box by Hard-Hitting Toledoites.

Hall Holds Waldport to 8 Scattered Hits and Strikes Out 16; Weeks' Heavy Hitting a Feature, Getting 3 Two-Baggers.

The members of the Toledo baseball team fattened their batting averages in great style Sunday afternoon at the fair grounds field when they drove the "invincible" Wren, who is touted to be a cast-off from the "big show", out of the box in the fifth inning by a bombardment of 9 safe hits, five of them coming in the fourth inning, aided by two errors, a walk and a sacrifice, Toledo putting nine men across the rubber in the one inning. Wren was heaving the twisters for the visiting Waldport team. He was relieved by Spence, who fared little better than his predecessor, seeming to lack the necessary ability to stop the onslaught of the local lads. The Toledo bunch batted entirely around in the fatal fourth, Service and Hall each getting two safe hits in the inning, and when the dust had cleared the score-keeper, who, by the way, was Editor Davis of the Pacific Herald at Waldport, it was found that nine men had crossed the home plate, taking all the heart out of the visitors.

Although we did not attend the game, from the score sheet it would seem that "Tubby" Weeks was the hero of the day with the big stick. He connected for three two-baggers and a sacrifice getting a batting average for the day of .750. Hall and Service also fattened their averages, Hall getting four singles out of five trips to the plate while Service connected safely four times with six times at bat. Gather, Vandecovering and Hammond, each connected for two safeties each. Hall pitched a steady game and, according to the score sheet, was never in danger, striking out 16 of the opposing batsmen and allowing but 3 scattered hits. Spence must have heard of the way Louie Bain has been losing the apple in the jungles lately, and, rather than give him a chance to connect with it, the Waldport heaver "tried to kill

(Continued on Page Two)

## TOUREST PARK TO BE CONSTRUCTED SOON

Work will be started immediately on the new tourist park to be constructed on the Peter Frederick property in Run Bottom, according to E. L. Scott, a member of the committee appointed by the Chamber of Commerce to look after the building of the park. Peter Frederick is chairman of the committee, but in his absence from the city Mr. Scott has taken the work in hand. Arthur Nye will do the plumbing work and it is expected that volunteers will be asked to erect the few small buildings that will be required.

The Chamber of Commerce at a recent meeting donated \$50 for the park. The members of the committee are as follows: Peter Frederick, chairman; Miss Eleanor Grady, E. L. Scott, J. Dunn and G. W. Hall.

## Senator McNary Sees Benefit in Insurance Plan

Idea Is to Cover in Politic Great Many Hazards to Which Crops of Farmers Exposed...

Washington, July 15.—Senator McNary believes that important results may flow from the resolution he has introduced for investigation by a congressional joint committee of the subject of crop insurance and which has been approved by the senate committee on agriculture. It has been a largely neglected subject, he declares, in view of the economic benefits that may come from a balanced system covering the hazards to which the crop of the farmer is exposed.

The department of agriculture, he has found, has comparatively little written for loss against fire, destruction of grain by hail in the northern states, and few restricted forms of other character.

The McNary idea is that a plan may be devised that will cover practically all the risks to which the farmer is exposed, from the grasshopper and locust down through excessive heat or cold, frost, rains, drouth and the pests of field and orchards.

He does not expect that all these hazards can be worked into one policy, but that many of them may be. This will involve a study of climatology, recurrence of damaging pest and all the elements which enter into the safeguarding of the crops at a cost

(Cont. on Page Two)

## OLCOT INSISTS THAT HALL MAKE FULL CHECK OF RESULT PRIMARY

Governor Denounces Scheme of Going Outside of State to Build \$50,000 Re-count Fund; Recanvass of Only Part of Precincts Unfair.

Salem, July 16.—Letters showing that the Ku Klux Klan has "developed a powerful financial organization and is now raising a fund up to \$50,000 or more to be used in financing the recount contest of Mr. Hall," were made public by Governor Olcott Saturday in a statement in which the governor invites Hall "to make a fair and square count of all of the precincts of the state to determine the exact result of the election, and to satisfy the people of the state." Instead of limiting the recount to the few selected precincts in which the contestant feels that a recount might result to his advantage.

OLCOT FUND TO BE RAISED. Salem, July 18.—The governor's friends here started a move today for a fund for expenses in the Hall recount suit.

## Another Bruin Pays Penalty Goat Killing

Henry Stokes, Aided by His Bear-Hounds, Bag 150-Pound Animal Within Two Miles of Toledo Tuesday Evening.

Another "Big Black Bear" has learned to his sorrow that killing goats and sheep in Lincoln county is not a healthy pastime. Tuesday evening Henry Stokes and his dogs treed and bagged a large bear about two miles northeast of Toledo on the Claus Christensen farm.

The bear has been causing havoc among the herds of Mr. Christensen and R. H. Williams and, following the discovery of three partly devoured goats and one sheep Tuesday morning was declared and Mr. Bruin paid the penalty that many other of his calibre are doomed to pay.

According to Mr. Williams the bear weighed in the neighborhood of 135 or 140 pounds and that much credit is due Harry Stokes for getting rid of this prey. Mr. Stokes is a bear hunter of considerable ability and he will prove a valuable asset in helping eradicate the many predatory animals that Lincoln county is infested with.

One of the bear's feet is at the Leader office.

## STATE SCHOOLS INCREASE OUTSIDERS' TUITION FEE

Yearly Rate to be \$105 Next School Year at Oregon Agricultural College and University of Oregon.

Non-resident fees for students in the college and university were increased from \$60 to \$105 a year, effective with the opening of the next fall term, by action of a joint committee of regents of both institutions in Albany.

The two Oregon institutions by this action, taken as a means of reducing the burden of state taxation, puts the two Oregon institutions on a par with the state universities of Washington and California in respect to non-resident tuition. In each of the neighboring states the difference between the charges paid by the residents and those paid by students from outside the state is equal to the \$105 to be charged in Oregon.

Graduate students in both institutions will be exempt under the new fee. The committee of regents emphasizes that the increased fee is not retroactive; any non-resident who has entered the university or the college under the present fee of \$60 a year will be permitted to finish his course at that rate. To put the fees where they would be prohibitive and at the same time would be on an even basis with other states, so that the flow of non-resident students would neither be entirely cut off nor become a flood which tax the institutions' facilities, was the aim of the committee.

Members of the joint committee considering fees were J. K. Weatherford of Albany, chairman; Walter M. Pierce of La Grande, and President W. J. Keer from the college and Judge J. W. Hamilton of Roseburg, chairman; C. E. Woodson of Heppner, W. S. Gilbert of Astoria, and President P. L. Campbell from the university.

DOMESTIC SCIENCE TO BE TAUGHT IN SCHOOLS

At a meeting of the school board this week it was decided to inaugurate a new course of instruction in the schools here for the coming term. The art of domestic science will be taught to the girls students of the high school, according to G. B. McCluskey president of the board. This is a commendable step on the part of the board as domestic science has proven a valuable asset in other schools, and will no doubt appeal not only to the students but will also be appreciated by the parents.

Under this course of instruction students will learn the science of cooking and needlework.

## Roosevelt Highway More Than Dream Says Newport Man

B. F. Jones Reviews Activities of California and Oregon Associations in Recent Meeting at Crescent City.

In view of the fact that many people in Oregon and even the coast counties do not realize that thousands of dollars has been spent in the construction of the Roosevelt Highway, and that the building of a highway along the Oregon coast is now more than a dream.

Probably no other highway in Oregon has been so much advertised as the Roosevelt Coast Highway. The last fight of the Roosevelt Highway association was their effort in getting co-operation from California to obtain Federal Aid for the building of the Roosevelt highway and the California Red Wood highway along the Oregon and California Coast.

The State of California is building a Coast road known as the Red Wood highway to the Oregon-California State line, they are therefore as anxious as we of Oregon are to see the Roosevelt highway built along the shores of the Pacific to the Columbia river.

Therefore the Roosevelt highway association arranged with the North of Bay California to have a joint meeting to be held in Crescent City California on July 10, 1922.

Saturday at 9 a. m. July 8th, our party left Marshfield in 14 Autos to attend this meeting at Crescent City in the party were the governor of Oregon Ben W. Olcott, Hon. R. A. Booth, Chairman of the State Highway Commission and Commissioner Barretts and Yeon. The President and directors of the Roosevelt Highway association, County Judge and County Commissioners of nearly all the Coast counties three Representatives of Daily Newspapers in Portland and several representatives of newspapers from the Coast counties.

The party stopped at nearly all the towns along the coast south of Marshfield, Cognell, Bandon, Langlois, Port Orford, Wedderburn, Gold Beach, and Brookings, Dianer at Bandon. At Rogue River the party divided for the purpose of accommodation. Some stopping on the north side of the river at Wedderburn and others stopping at Gold Beach on the south side of the bay, a reception was held in the evening and speeches were made by a number of the party. Saturday morning the party continued on down the coast arriving at Brookings for lunch, then in the afternoon continuing on down reaching Crescent City at 5 p. m. Here a committee from the Del Norte Chamber of Commerce had the party comfortable located at their various Hotels and private residences, there not sufficient accommodations for all at the Hotels.

At 9 a. m. Monday the meeting convened Dr. C. H. Douglas President of the Del Norte Chamber of Commerce was nominated Chairman of the meeting and Fred C. Baker Secretary of the Roosevelt Highway was elected Secretary.

Hon. W. L. Miller President of the North of Bay Counties Association delivered the address of welcome, B. F. Jones President of the Roosevelt Highway association responded for Oregon then followed an address by Governor Olcott of Oregon, the Governor heartily endorsed the Roosevelt highway and promised his earnest support, then followed speeches by directors of the Associations and the Judges and commissioners of various coast counties California and Oregon, and other including the President of the Oregon Tourist association, who said the Roosevelt Highway would be the most traveled highway in Oregon when completed. All the speakers agreed that the building of the Roosevelt Highway and the Red Wood highway along the shores of the Pacific Ocean from the Mexican line to the mouth of the Columbia river was of the utmost importance and that the two states

(Continued on Page 5)

## Pierce Will Speak Here Friday Night

According to a telegram received here Wednesday evening by Geo. Schenk, one of the local followers of "The Long Eared Mule," from Mr. Walter Pierce of La Grande, Ore., Democratic candidate for governor of Oregon, he will stop over in Toledo Friday evening. According to Mr. Schenk a meeting will be held in the Chamber of Commerce rooms at which Mr. Pierce will deliver a public speech, taking for his subject "Tax Reduction."

This will give Democrats and others interested in Mr. Pierce's candidacy likely the only opportunity to hear him before election. Mr. Pierce is on his way to Yachats where he will speak to the farmers of Lincoln county attending the Farm Bureau picnic that is being held there.

## Toledo Now Has Artificial Ice Plant Operating

Can Produce 600 Pounds Per 12-Hour Day; Located With Toledo Co-operative Creamery Company.

One more home industry has been added to the list for Toledo. The Toledo Creamery Co. has installed a modern ice plant at a cost of approximately \$2500. The capacity of the plant is 600 pounds every 12 hours and it is now producing artificial ice for those business houses and residences that require extra coolness. Ice is being sold at 1c per pound.

Will Make Ice Cream. The installation of this new plant will not only supply Toledo and outsiders with all necessary ice, but will also afford this cooperation company an opportunity to manufacture a home product in ice cream. A complete equipment for the making of this delicious food is included in the purchase of the ice plant. Sixty ice cream cans, ranging in size from 1 to ten gallons and tubs to which are in stock for delivery of the product. The manufacture of ice cream will start some time next week. Clyde McMillan of Toledo has been appointed as manager of the new ice plant.

Cream Output. According to Joseph Swearingen, general manager of the Toledo Creamery Co., the installation of the ice plant has been much needed necessity not only in supplying the city with ice but also for the purpose of supplying a cooling room for the butter and cream of the creamery. The Toledo creamery company are manufacturing a fine product in creamery butter, shipping an average of 2500 pounds per week to the outside points.

The Toledo Creamery company is a cooperation organization of Lincoln county people. Its officers are G. B. Butler, president; Con Christensen, secretary and J. W. Parish, R. H. Williams, Fred Rompved and Hugh Murry constitutes the board of directors.

## HONEY OUTPUT OF STATE AMOUNTS TO 60 CARLOADS

Oregon Now Has 100,000 Colonies of Bees and Nearly 10,000 Beekeepers Says Specialist.

Sixty carloads, or what would amount to a good size freight train is a conservative estimate of the amount of honey produced each year in the state, according to H. A. Scullen, specialist in bee culture at the Oregon Agriculture college.

The state now has 100,000 colonies of bees, managed by nearly 10,000 beekeepers. The largest honey producing section in the states are the irrigated districts in eastern Oregon. Umatilla and Malheur counties leading. With 300,000 acres under irrigation and 1,200,000 more which it is possible to irrigate, Oregon is able to furnish pasturage for many more colonies than she now has. Five acres are considered sufficient for one colony.

The clear, water white honey, the best grade, is made from the nectar of alfalfa sweet clover, alsike and white clover, and fireweed blossoms. It is this grade that is produced in eastern Oregon. From 15 to 20 carloads are produced in these leading counties, some large producers selling as much as one or two carloads.

In the western part of the state bees are pastured on berry blossoms and clover. Fruit trees are of minor importance, the spray used in many cases being injurious to the bees. Much honey is produced from the fireweed found in the large burned over sections in the Cascade range.

As much as 75 per cent of the state production is sold through the local dealers, or passes through the hands of a jobber. Most of it is consumed within the state, some being shipped into Washington and other nearby states. Honey from other states and the tropics, of an inferior grade is shipped into the state, labeled and sold as the Oregon product.

The honey placed on the market is graded to some extent, but grading is not efficient enough to prevent loss by the producer. The cheaper grades are blended in with the clear white grade, bottled, and sold as Oregon honey. A large percentage is extracted and sold in bottles, bring a fancy price, although some is still sold in cakes as taken from the supers. Prices very according to the grade and amount to be sold. Large quantities sell for as low as 10 cents a pound, while fancy honey in small lots bring from 35 to 50 cents.

Steps are being made through the college and extensive service to control disease among bees, and to increase yields of honey.

S. W. Scoville of Pioneer was a Toledo business visitor Saturday. Mr. Scoville is one of the many new subscribers on the Leader list.

## HOW ABOUT YOUR SUBSCRIPTION TO HOME TOWN PAPER?

There are a few subscriptions on our list that have expired. Not many, however.

Advertisers demand a paid-up circulation and a newspaper must adhere to that policy. If you get your mail at the Toledo postoffice, you will find the date when your subscription expires stamped on the paper, thus: For example, say your subscription expires on August first, this year, the stamp on your paper will read as follows: "John Jones—8-1-22." The first figure represents the month, the second the day and the third the year you are paid to.

If you receive your paper outside the Toledo postoffice and your subscription has expired, the date of expiration will be written on the paper.

We will continue sending The Leader to those whose subscriptions have expired for a period of 30 days, if at the end of that time they have not been paid we will be compelled to cut them off.

Help us make our list 100 per cent paid up, as all newspaper circulations should be.

## Farmer Loses Home By Fire On Lower Siletz

Was Just Recovering From Effects of Losing Home in Flood Last Fall; No Insurance, Total Loss Reported.

The old saying "It never rains but it pours" is certainly true in the case of Mr. Joe Steers who lives with his family on the Lower Siletz. Mr. Steer's home was totally destroyed by fire last week according to a report from that place by a neighbor. According to the report Mrs. Steers was in the house alone when the fire started on the roof, apparently from a defective flue, and was unable to check the blaze. The house burned entirely to the ground with all its contents, including a new set of furniture just installed.

Flooded Out Last Fall. The report stated that Mr. Steers was just partly recovering from the disastrous flood that swept that country last fall and which totally destroyed his home. The people of the community are "coming to the front" nobly in helping Mr. Steers and it is expected that he will soon get another start.

It is certainly hoped that the third time will be a charm.

## LUMBER COMPANY BUYS 235 MILLION FEET OF TIMBER

Portland, Ore. July 15.—The Forest Service of the United States Department of Agriculture announces the sale of 235, 000, 000 board feet along the upper Sank River, Squeamish National Forest, Washington. Areas adjacent to this tract, which are reserved for future sale, contain approximately 200 million feet of timber. Under the proposed plan of forest management the average yearly cut will be limited to 40 million board feet. Forty years will be required to cut out the existing merchantable timber, by which time the present immature timber will be ready for the axe. By the practice of scientific forestry, logging operations can thus be sustained in perpetuity.

The contract price paid for the timber, which is subject to readjustment at 3-year intervals, was \$2.75 per 1,000 board feet for cedar, \$2 for Douglas fir, and 50 cents for white fir and hemlock.

The purchasing company will construct nine miles of railroad and will also establish permanent logging communities on the area in place of temporary camps. This plan for the management of the timber on this watershed was reviewed and approved by Secretary of Agriculture.

## ANOTHER BIG DANCE ON SATURDAY NIGHT

According to the placards that are out the American Legion are living up to their promise to supply a dance regularly for Toledo folks who enjoy the healthful pastime. The events held the first regular Saturday night affair last Saturday, and according to many who were there, the floor is excellent and the music was a fine variety of the latest in fox trots, waltzes, etc.

You are invited to attend; all that is required is the necessary dollar or 25c if you simply wish to be an on-looker. Ladies are admitted free.

W. H. Price of Chitwood, Ore., was a business visitor in Toledo Friday. Mr. Price is offering his farm for sale, the advertisement appearing in the classified ad column of this issue. He has an ideal dairy or goat farm that is offered at a bargain. Mr. Price stated that he is forced to get off the farm because of the fact that Mrs. Price's health is poor.

Mrs. Ada Soule was an outboard passenger on the train Saturday.

## PREPARATIONS BEING MADE FOR BIG FAIR

Personnel Lincoln County People Who Are Working to Make Big Show Success; All Should Cooperate.

"Preparations are going forward in fine shape to give Lincoln county a big fair this year and it is up to all Lincoln county people to get their shoulders to the wheel and help put the big show over," stated Lieutenant Patterson today. Mr. Patterson is preparing the copy for the premium list which will soon be turned over to the printer for publication. "Business men, not only of Toledo, but all over the county are contributing liberally with advertising in the booklet," Mr. Patterson stated further, "and I anticipate that this will be the largest premium list ever put out by the fair board. The fair will be held the first week in September and those anticipating displays of any kind whatsoever should get into communication with the supervisors of the different displays."

The officers, board of directors and supervisors of the various departments are as follows:

Officers of Fair Board. President—Peter Frederick. Vice president—R. P. Goin. Secretary-treasurer—W. K. Patterson.

Members—L. A. Hulbert; Ray L. Jenkins, Clifford Wakefield. Manager—Not yet appointed. Advisory Board and Exhibit Managers. Livestock—L. A. Hulbert. Poultry and Pet Stock—A. F. Grable. Vegetables—Carl Tangen. Fruits—A. E. Marvin. Lows and Lumber—Allen Mayhew. Art and Curios—Miss Corinne Pennington. Dairy Products—H. R. Hartley. Bees and honey—Tom Hawkins. Fish and Shell Fish—For Newport, Geo. R. Dickinson; for Otter Rock, Tom Hocking; for Waldport, Cass Wolfe; for Yachats, Perry Mitchell. Flowers—Mrs. Peter Frederick. Baking—Mrs. Vernie Ross. Canning—Mrs. W. T. Ball. Textiles—Mrs. Norman Sherwood. Indian Exhibit—Dr. F. Carter. School Exhibit—R. P. Goin. Sports—G. W. Ford.

Above are the names of each superintendent of each department in which you should exhibit something. Get in touch with them at once. Emulate little Julius Schafer—Julius is about 10 years old and he tackled up on the street for a coop to exhibit his chickens in. We advised him to write to Mr. Grable and he answered that his mamma was sick. So this put it up to us to write to Grable for him and in addition set us to thinking that Julius should not be compelled to enter into competition against the grown people, but in the juvenile department under Mr. Goin and, this reminds us that Helen Thomas of Newport also asked about exhibiting her freak bananas that are crossed with Chinese pheasants. The idea is to tell us your troubles now. It gives us a chance to take care of these matters in advance. When you meet a member of the fair board tell him what you thought of the outside concessions last year and what you would like to see here this year.

## Panel of Jurors Called for August Term Circuit Court

The following Lincoln County people constitute the panel of jurors called for the August term of the Lincoln County Circuit court:

E. H. Bryant, Nortons; Abe Abrams, Taft; Grover Doty, Waldport; N. L. Guillems, South Beach; Vernie Ross, Toledo; Chas. B. Arthur, Harlan; E. W. Morrison, Kernville; Alva Strom, Siletz; J. H. Early, Tidewater; B. F. Uptake, Winant; Irvin V. Coxine, Elk City; Mrs. L. J. Bain, Yachats; W. H. Martin, Nashville; Chas. Hyde, Logsdon; Ethel Fish, Nashville; John Dillon, Toledo; Chas. L. Baker, Newport; W. N. Cook, Chitwood; Wm. Scott, Siletz; Irene Johnson, Waldport; Ed. Boyle, Newport; C. S. Bateman, Toledo; C. H. Pierce, Otis; Neils Anderson, Toledo; G. A. Perrin, Newport; Arthur Nye, Toledo; L. L. McBride, Eddyville; Oliver G. Day, Logsdon; O. E. McMillan, Roselodge; Owen Callaghan, Newport; Chas. W. Bates, Deuzer.

## SCHOOLS LOOK NEW AFTER BEING PAINTED

The Toledo public school buildings, consisting of the grade school, the big gym and the High school building have taken on a new appearance since receiving two new coats of paint. The color is light grey. The carpenters are finishing the upper story of the high school building also and the entire building will be ready for occupancy by the time school opens in September.
