

PORT COMMISSION TO INVESTIGATE DREDGING FUND

O. R. Altree Submits Proposition at Meeting Wednesday to Dredge Out Yaquina Bay Channel.

At its regular meeting on Wednesday, Aug. 9, the Toledo Port Commission was presented with a proposition from O. R. Altree to dredge the Yaquina Bay channel. His plan is to make a dredge out of the boat "Powers" and to dredge the channel for 16c per cubic yard, providing the Port Commission would guarantee a fund of \$10,000 to be expended for this purpose.

The Port Commission has not funds available for the project, but it was explained at the meeting that a \$3,000 yearly maintenance fund due from the government has not been used for approximately three years, and that if this fund could be had Mr. Altree's proposition might be well worth consideration. It is also understood that the Pacific Spruce Corporation has a fund ready for expenditure for this purpose, and this in conjunction with the government allowance for the maintenance of the channel would be a great plenty to initiate the project.

After a thorough discussion of the matter the commission instructed Secretary Trommitz to get into communication with the proper government officials and find out if the money due this port was still available. However, it is understood that unless the government fund is used yearly it automatically reverts back to the U. S. treasury.

SHOOTING EXPERT ENTERTAINS CROWD

Mr. Gus Peret, representing the Peters Arms and Ammunition Co., entertained a small crowd of local sportsmen at the fair grounds Wednesday afternoon. He demonstrated wonderful skill with all kinds of weapons. One of the most difficult stunts of his trick shooting was shooting a stick of chalk from Mrs. Peret's mouth with a revolver at a distance of 20 feet. In flying shots Mr. Peret gave his audience a thrill when he busted three eggs before they could hit the ground when they were tossed into the air some 20 feet. Another stunt among the many he pulled, which seemed to the writer to be rather difficult was the fact that he could take a common ordinary washer with an ising-glass bulls eye in the center, toss it into the air himself and shoot two holes in it before it hit the ground with a .22 calibre gun.

He explained before each exhibition that he was using Peter's ammunition which can be had at the Burcroft Merc. Co., but he did not guarantee that we could get the same results that he could.

CITY WILL IMPROVE WORN OUT STREETS

At a special meeting of the City Council held Saturday night it was decided by the "City Dads" to make several improvements in certain streets that are now in bad shape. The action for street improvement appears in this issue of the Leader and property owners adjacent to the said streets are required to do the work or allow the city to do it at their expense.

CATHOLIC WOULD VOTE FOR HALL SHOULD HE WIN

Thinks Republican Administration Necessary and That Misrepresentation Would Sink Into Oblivion.

Corvallis, Aug. 9.—Mr. Sam Dolan made the hit of the evening here Wednesday when he was called upon by the chairman at the G. O. P. meeting. He spoke very seriously about the contest between Hall and Olcott and brought the large audience of Republicans to his feet with bursts of applause with the following statement:

"You gentlemen can realize what a bitter dose it would be for us, or anyone of my faith, to have to vote for 'Charlie Hall'. Those backing him have grossly libeled and misrepresented the attitude of the church to which I belong and the statements made, and the insinuations cut deeply into the hearts of many of us who feel as deep a love and loyalty to this country as anyone who ever lived in it. Never the less, so convinced am I that Republican success is necessary to the best interests of this country, that, if Hall is successful in his contest, I pledge you here in this presence, that I will go down the line and not only vote for him myself this fall but do whatever else I can do to assist in his election, feeling assured that because only fundamental truths survive, that the present campaign of misrepresentation will of necessity sink into oblivion by the weight of its own fallacies."

B. M. ARMITAGE OPTIMISTIC AS TO COMING ELECTION

Under Leadership State Chairman Tooze Republicans Will Have Best Organization in History of Oregon.

B. M. Armitage, secretary of the Lincoln County Republican Central committee of Newport, was a Toledo business visitor Tuesday. Asked as to his opinion as to the probably outcome of the election this fall, Mr. Armitage emphatically declared: "There is only one way that it can possibly go and that is Republican from top to bottom. We are going to thoroughly organize and attempt to get out the biggest Republican majority that has ever been polled in the county and from the way State Chairman Tooze talked at the Republican meeting in Newport last week the G. O. P. ranks this year will be better organized than ever before. The Hall vs. Olcott contest will have no bearing on the results of the vote."

ROBT. MONTGOMERY DIES AT TACOMA, W. BURIED ON TUESDAY

Robt. Montgomery, formerly of Toledo, died in Tacoma, Wash., on Friday, Aug. 11. The body was shipped here and burial was made in the Toledo cemetery Tuesday afternoon, following services held at the Bateman Undertaking parlors. The young man was born in Lincoln county in 1893 and was a son of Mr. and Mrs. C. E. Montgomery, pioneer residents of Oregon. Rev. J. D. Cain preached the funeral sermon.

BROTHERS MEET AFTER 51 YEARS SEPARATION

J. C. Turnidge of Turlock, Cal., is here this week visiting at the home of his brother J. R. Turnidge who is a pioneer of Toledo and Lincoln county. This is the first time these brothers have seen each other in a period of 51 years according to their statements. Mr. J. C. made the trip from California overland and left today for home and will stop off on the road at Mill City and Gold Hill to visit friends and relatives.

OUTSIDE BUYER IS LOOKING FOR COWS IN LINCOLN COUNTY

County Agent's Office in Communication With Party Who Wishes to Purchase 50 to 80 Jerseys.

50 TO 80 COWS WANTED AT ONCE. The County Agent's office has on file an inquiry from a buyer who wants from 50 to 80 fall freshening cows, preferable grade Jerseys, coming fresh between September 15 and November 15th. We presume he would be interested in animals other than those coming within the definite time limits, and states that he would be interested in buying these cows if they can be secured at around an average price of \$40. This would probably mean that he could pay as high as \$60 and as low as \$25, if an approximate average of \$40 was secured. The buyer desires cows between the ages 3 and 8 years old. We are advising him that this number of cows can be secured in Lincoln County and consequently are asking that every man who has cows for sale fill in the following blank in detail and mail at once to the County Agent's office. We will submit this list to the purchaser and let him make his selections accordingly:

Breed of cow, Age, weight, approximate date of freshening, condition of flesh, price.
WHICH COWS WILL YOU SELL. Many farmers are at present up against the proposition of the necessity of reducing the number of cows they are going to keep this winter. We wonder how this selection is going to be made. If we were to make a recommendation it would be to have the cows milk tested for butterfat and then considering the test, the amount of milk that the cow gives throughout the year, eliminate the cow that will give you the least butterfat when the whole year's production is considered. The largest milker at the time of freshening is not necessarily the best producing cow. Consider seriously saying that cow that does not give the largest amount of milk but that holds her flow consistently

FARMERS SHOULD PLANT FALL CROPS OVERCOME DROUGHT

Spring Planted Crops Practically Failure as Result of Long Dry Spell This Season in Oregon.

Profiting by the experience of this year, which has indeed been a cruel one to the grower of spring crops, now is the time plan your fall seeding for next year. Those fields that gave you poor yields of spring sown grain which are sufficiently drained to prevent drowning out of the crop during the winter may be easily prepared through diskings being sufficient to prepare a good seed bed for winter oats, or winter oats and vetch. Rye may be also fall sown to advantage, particularly on the hills and will provide an excellent early spring feed, and in many instances considerable winter pasture. Frequently it has been found that fall sown vetch will survive the following spring where spring sown vetch will fail to make a crop.

Crimson clover sown in the fall will make a crop the following spring. This is the only annual clover that we know of that should give good results in Lincoln county. Sweet clovers are annuals in this regard but are not adapted to our conditions.

CANNING MAN HERE TO INVESTIGATE CANNERY

W. C. Brown master mechanic and representative of the Brownsville Canning Co., of Corvallis and also mechanic for the Brownsville Co-operative Fruit Growers Assn., was a business visitor in Toledo Monday, coming here to investigate the possibilities to open the local cannery for the season. After a thorough investigation Mr. Brown stated that it would be a using proposition to try to operate the plant this year due to the market price of berries and the lateness of the season. His company will plan on a cannery here for next year in plenty of time to get the benefit of all crops grown here.

"ALL GOING OUT AND NOTHING COMING IN" SAYS BONUS MAN

State Pays Out Over Four Million in Cash Bonuses While Approved Over Seven Million in Loans.

"All going out and nothing coming in" has been the rule in the State Bonus Commission up to Saturday of last week. This can no longer be maintained however, for on Saturday, the first repayment on a loan arrived at the Commission's office. Frederick Jensen of Portland obtained a loan of \$3,000.00 three months ago, being the fifth actually paid. He was the first, however, who elected to make his payments quarterly and a money order for \$45.00 arrived at the office of the Commission two days before it was due. Of this amount, \$30.00 is credited as interest and \$15.00 applies to reduce the principal. The second payment in form of a cashier's check arrived this morning from Edwar Franz, of Hood River, more payments come due during August and 33 in September, with a rapidly increasing number in the succeeding months.

While the law does not require it, said Major Harry Brumbaugh, Secretary of the Commission, we are mailing out notices of payments due in ample time for the borrower to make his arrangements for the payment. On our notice we call attention to the fact that personal checks in payment V. D. Graves, Sec. Treasurer Ray L. Jenkins, Directors C. Christensen, W. R. Strokes, H. S. Pruner and A. P. Brandt.

During the afternoon a meeting of the Boys and Girls' Club was held and Mr. Astroth explained to them the value and how and why they should have membership in the Jersey Scouts of America, a Junior Club sponsored by the American Jersey Cattle Club exclusive for the youngsters who voted in favor of joining the Scouts, which as a club is the first in Oregon to have the distinction of all members of said club being also Scout members.

It was reported that the funds for the erection of another Fair Barn is assured and that the building of same will be given over to Ray L. Jenkins, who has been appointed Lincoln County Fair Manager. This barn is to be built 40 x 80 feet and will be used for livestock and poultry. The barn erected last year will be used exclusive for Jerseys, it being sponsored and built by them.

DR. DERFLINGER IS HERE TESTING COWS FOR TUBERCULOSIS

Assistant State Veterinarian Will Make Extensive Survey in This County for Reactors; Also Inspects for Abortions.

Dr. Derflinger assistant State Veterinarian is now in the county assisting the County Agent in T. B. Testing the dairy cattle. In addition to the T. B. testing, much attention is being directed this year to locating possible aborting infections. Abortions cause twice the financial losses to the dairyman that Tuberculosis does and its spread should be a condition which every dairyman should try to prevent. Testing is now being done in the Burnt Woods area. Lower Siletz river will be the next section tested. Also all cattle listed for exhibition at the Fair are being both abortion and T. B. tested.

MRS. LARKIE LOGAN DIES ON LOWER SILETZ

Mrs. Larkie Logan lived near Kernville, on the Siletz River, with her son Roy Butterfield, at the time of her death, which occurred Monday morning the 7th of August. She was well respected by all who knew her, and where ever she went she made friends. She was strictly honest in business, dealing with others as she would have them deal with her. She has lived an exemplary life which we would do well to imitate.

The many friends that attended the funeral strewed the grave with abundance of flowers, showing their respect for her, it proved a source of comfort for her sorrowing son, who will sorely miss her.

She loved to study her bible, and read the many good books kind friends brought her.

JERSEY CATTLE CLUB HOLDS ANNUAL MEET SATURDAY JULY 29

F. B. Astroth, Representing American Jersey Cattle Club, Delivers Educational Address to Local Dairymen.

The proponents of the Jersey Kine in Lincoln Kingdom, held their annual meeting and election of officers, Saturday, July 29th, in Chamber of Commerce Rooms, Toledo, Ore. A goodly number was present and various improvement issues were discussed.

As our guest of the day, we had with us, Mr. F. B. Astroth, of the Extension Dept. of the American Jersey Cattle Club, who spoke in regard to the very intensive program of Breed Advancement for the year of 1922 which is being extended by the Jersey breed. He placed special emphasis on the need of "Better sires" and more uniform herds, greater discretion in the care, feeding and methods employed in the general supervision of our breeding program making sure always that we do not effect a bias opinion in respect to our own herds. The uniform herd should be the aim of the breeder, according to Mr. Astroth.

He is on a tour of the west in the capacity of a Fieldman for the club. The Local Club elected its officers for the ensuing year as follows: President L. A. Hulbert, Vice-President V. D. Graves, Sec. Treasurer Ray L. Jenkins, Directors C. Christensen, W. R. Strokes, H. S. Pruner and A. P. Brandt.

Another meeting of the Lincoln County Jersey Cattle Club, will be held, August 19th, in connection with the Boys and Girls' Club to prefect definite arrangements for the exhibition of as many as can be brought out, by them.

We want a big livestock attendance this year, and they'll be only too glad

COMMUNITIES SHOULD PREPARE EXHIBITS EARLY

Fair Manager Urges Community Organizations to Enter Competition for Many Prizes Offered in List.

The time is drawing near when we will be looking over the County Fair ground, in quest for something to help fill an eye. Nothing can be of more substantial benefit to a County Fair than competitive Community Exhibits. It is urged that as many Communities participate and align themselves with the movement as are in a position to compete. A community meeting should be held and committees appointed and a fund made up to defray whatever small expense there may be in collecting together a central point to be shipped to Toledo by September 5th. A full line of Agricultural products should be included to give your community the honors it rightfully deserves. Let us enter an agreement mutually that we will "Boost Lincoln County," by showing her products.

FAIR BOARD EMPLOYS DUFF AMUSEMENT CO.

According to Peter Frederick, President of the Lincoln County Fair board, arrangements have been made show on the local ground during fair week. This company has a record for entertaining crowds and they will not fall short here. Arrangements are also being made for a Dog and Monkey circus to show here during the annual Lincoln County Fair festival.

LEADER WILL ISSUE FAIR EDITION NEXT

Our next week's issue will be a complete story of what is going to happen in Toledo during fair week. A complete list of prizes that are to be offered not only by the fair board but those valuable prizes that are being offered by many of Toledo's business men will also be listed.

Owing to the fact that we have been "head over heels" in work trying to get out the Fair book and other rushed odds-jobs we have been compelled to leave out the proceedings of the county's court's last meeting but will get it in next week.

A copy of next week's Leader will be mailed to practically every resident of the county. Advertisers wishing to have an ad in this issue will necessarily have to have same in the office by Monday night to insure publication.

There will be 500 extra copies of the Leader mailed out to all sections of the county. Mr. J. E. Coater, Farm Bureau agent, will aid us in getting "the dope".

HOME ECONOMICS EXTENSION SCHOOL HERE NEXT WEEK

Miss Margaret Smith of Oregon Agricultural College Will Conduct Session Here Monday and Tuesday.

Miss Margaret Smith of the Extension Division of O. A. C. will conduct a series of extension meetings in Home Economics featuring Food selection and child feeding throughout all of next week. Monday and Tuesday Aug. 21 and 22 will be spent at Toledo. The meetings being held in Chamber of Commerce rooms with Mrs. Mary Swearingen as chairman Wednesday and Thursday Aug. 23 and 24 will be spent at Siletz. Friday meetings will be at Chitwood and Saturday the 26 will be spent at Eddyville.

OUTSIDER RECOGNIZES LINCOLN COUNTY LEADER

"I am in receipt of the sample copy of your paper and will say that you have a fine publication for a town the size of Toledo. Please find inclosed my professional card to be inserted in the columns of your paper." The above is part of a letter received by us from a professional man in Corvallis. We appreciate boasts and are getting them every day. The Lincoln County Leader claims the honor of being Lincoln County's Best Booster, barring none, and it is going to keep shouting. Help us boost by keeping your subscription paid in advance. It's the best bargain on earth, and you will not deny that fact. Think of it, 4c a week is all that it costs.

to come if the owners will come with them. The ribbons will be there for them. Come, take 'em Boy. Ray L. Jenkins, Sec. Lincoln County Cattle Club.

CHAIRMAN TOOZE CLAIMS PIERCE IS GREAT STRADDLER

Says Bourbon Candidate Will Hear From Him and He is Going to All Parts of State Spreading G. O. P. Gospel.

Thinks People of State Will "Go Down the Line" and Elect Republicans From Governor to Precinct Constables.

Walter Pierce, Democratic candidate for governor, is getting a scolding from Walter L. Tooze, chairman of the state Republican Central Committee, who is now making a tour of the state, reorganizing the G. O. P. forces into a "fighting machine" preparatory for the coming state election this fall when, he thinks, the people of the state of Oregon will "go down the line" and elect Republicans from governor to each precinct constable.

In his speech before the Republican at Marshfield Thursday evening Mr. Tooze stated, "Mr. Pierce will hear from me wherever I happen to visit in the state, and I am going to every nook and corner." Mr. Tooze classifies Mr. Pierce as a straddler with a wide spread and says he is going to let the people know all about him before the campaign is far advanced, according to the Marshfield Daily News.

Refers to Waldport Speech. Mr. Pierce, according to Mr. Tooze's observations, is all things to all men and suits his campaign statements to the locality in which he speaks or campaigns. He referred to an incident at Waldport, where he came in soon after Mr. Pierce had departed. He was told that Mr. Pierce was telling the coast electors how much he deplored bond issues. Mr. Pierce had said that it wasn't necessary to spend bonds for the good roads program. The roads could be built and paid for as they go. That talk did not suit the Waldport people altogether and some wanted to know how the Roosevelt highway could be constructed. "Of course," Pierce was quoted, "that is different, and I favor bonds for building the Roosevelt highway."

"Such," said Mr. Tooze, "is the straddling method by which Mr. Pierce hopes to slip through the obstructions to a democratic success and land in the governor's chair." Mr. Tooze went on to say that Pierce is traveling with one foot in the democratic party, another in the non-partisan party, and feels the need of more feet to plant in the socialist party or other side issues. He claimed to have heard in eastern Oregon that Mr. Pierce is the best hippodrome rider in the state and was assured that he can ride two horses to perfection, and sometimes when they are going two ways.

Mr. Tooze said he is going to build up a republican organization, which could be called a machine in one chose, but the need for missionary work he said was great and Oregon will see a real organization during his administration.

He told his hearers of the danger of a Democratic governor, who could, in the event of emergency, appoint a democratic senator, a democratic

"MOOSE-OF-A-BEAR" KILLED BY ALVA MOORE ON SUNDAY

460-Pound Bruin Pays Penalty for Several Years Ravaging Sheep and Goat Herds Near Glen.

Alva Moore of Mill Creek bagged one of the largest bears seen in this section in many a day Sunday when he killed a 460-pound member of the Bruin family on his father's ranch, W. R. Moore, who lives at Glen. The bear, according to the report, put up a considerable chase after the hounds got the scent. Several men were in the party attempting to rid the community of the pest, that has been ravaging the goats and sheep herds of the Glen section for several years.

BOY PAINFULLY BURNED LAST MONDAY

The small son of Mr. H. A. Schlecht living on the Southside was painfully burned last Monday when he stumbled and fell into a burning pile of rubbish according to a report from there today. The little fellow, although burned deeply on the face and hands, it is not thought that his injuries will prove serious. Mrs. Rosie Metzger of Hoodriver, a daughter of Mr. Schlecht, who is a trained nurse, arrived Wednesday and will nurse the little fellow back to health.
