TOLEDO SCHOOLS

(Continued from page one.)

First grade—Miss Jean McDonnell.  
Second grade—Miss Ardine Clark.  
Third grade—Miss Iris Akin.

Large List of Courses.

That the local high school is an institution of merit is evidenced by the fact that practically every advantage offered in similar institutions in larger communities & cities are to be had here. The school board has spared no effort to give to the boys and girls of this county the very best educational advantages and, with this end in view, they have planned to make school work this year as practical and comprehensive as possible.

The courses of study to be had at the high school this year are as follows: English, algebra, commercial arithmetic, geometry, history (American Medieval-Ancient), civics, general science, physics, botany, Latin, French, Spanish, home economics, manual training, mechanical drawing, bookkeeping, typing and teacher's training.

New Equipment Being Installed.

The Home Economics department is being equipped with a range and completely modern appliances of all kinds. Sewing machines will soon be installed. Mechanical drawing is being introduced in the manual training department.

Gymnasium Classes.

The need of physical exercises in the school has not been overlooked by the school board. Miss Ardine Clark, teacher of the second grade, will have charge of gymnasium classes for girls, while Professor Shawe will take care of the boys along this line. Miss Clark took special training in gymnasium work at the university this summer.

Superintendent Optimistic.

Speaking of the prospects for

the Toledo schools for the coming term Professor Shawe stated: "I sincerely believe that the coming school term will be the most successful in the history of this city. The people as a whole have shown a splendid spirit of cooperation and I am more than pleased with the outlook. The school board is made up of men who have the interests of the schools at heart and they are sending every effort to provide the best possible educational advantages for the boys and girls of the community."

The members of the school board are R. A. Anderson, Sherman Bateman and G. B. McClusky; L. M. Starr is school clerk.

GERMANY TODAY

(Continued from First Page)

miserable caused by the attitude of France toward the conquered. Hence they have linked to a common cause the fanatics, the discontented, and the lovers of militarism.

The German newspapers, particularly the Deutsche Tageszeitung, aid in driving the masses to despair. They infuse them with the conviction that they have nothing more to lose, no matter what happens.

Even before the blood has coagulated in the German wounds, there has been established an almost universal determination to reconquer the lost provinces, particularly upper Silesia and even Alsace-Lorraine. The old German imperialism is far from dead. Socialists Want Peace But People's Party Reverses.

As against this attitude of the National party there battle the Democratic Socialists and idealists who want to purge the country of revenge, and who dream of a lasting peace in which the nations shall lie down together, the lions becoming lambs. Plus this is found the People's party, composed of many captains of industry, bold and resolute men who have

financed Germany in the war and since the war men who are making huge profits from the revival of industry and who are doing the best they can to conceal every dollar they make. While the Nationalists would be happy with revenge, the People's group would be content with revenue. Briefly the public mind is kept in a responsive condition by wise German economists, ready to be excited in whatever direction may be most useful. It must and will be moulded to suit the emergency of the hour, and that it will respond there can be no doubt. The lion and the lamb may lay down together, but sooner or later there can be only one answer—more graves, more suffering, more treachery, and more sacrifice, thinks Lichtenberger.

There is no hurry about this thing, of course. A renewal of physical war is not probable in some time. The first phase of a struggle usually is political and economic.

1925 EXPOSITION

(Continued from page one.)

is a fact recognized in every section of the state, says the committee. While there has been much talk about the need of exploiting the state so as to gather new capital and more population, nothing of this kind has been done on a large scale and the states to the north and south have gone ahead of Oregon. California is gaining great advantages through its exploitation of itself before all parts of the world. Its tourist travel alone is worth millions of dollars annually to that state. The 1925 exposition is a move to put Oregon in line for similar development in tourist travel and actual expansion of farming, fruit-raising, stock-raising, manufacturing and all commercial lines.

All Portland asks of the rest of the state, urges the committee in charge of the campaign, is that it give its approval to the constitutional amendment that will permit Portland to tax itself for the financing of the exposition.

NEWPORT MAN

(Continued from page one.)

only way that this great industry can be built up and maintained is by improving the stock of dairy herds. For proof of this we have only to look to our sister county Tillamook that is now producing over two million dollars worth of dairy products and is a leading dairy county in the state, made so largely by the boosting qualities of the good citizens of that county, backed up by a county court that goes the limit for their annual fair.

The fair grounds should be enlarged. The county should purchase more land and build more, better and permanent buildings. The ground should be drained and sidewalks built so that a little Oregon mist would not keep people from visiting the annual fair. The people and the county court should get squarely behind the fair board and lend every assistance possible. The date of the fair should be

only a few days before the meeting of the state fair, and the best exhibits should be taken to Salem in charge of a live wire. Then Lincoln county will begin to get results.

The improvement of the dairy stock in Lincoln county is really noticeable during the past two or three years. The splendid work and untiring efforts of County Agent, Cooter has had much to do with the improving of farming conditions in Lincoln county, and anyone who ever questioned the wisdom of employing a first class county agent at a good salary, such a man as Agent Cooter, after seeing the results in Lincoln county, must now change their minds. The Lincoln County bank and others who aided the boys and girls in getting a start in a higher class of dairy stock should have the hearty thanks of every progressive citizen.

Now lets all get behind the Lincoln County Fair and make it the best ever.

B. F. JONES.

REPUBLICANS WILL

(Continued from Page 1)

held in Pendleton of eastern Oregon Republicans it was decided to hold a state wide meeting for the purpose of adopting a platform providing the plan met with the approval of the Republicans of the First and Third congressional districts. This meeting was held at Eugene at 8 p.m. and the plan was unanimously approved.

"I think it is very important," said chairman Tombs, "for the Republican party to have a platform upon which its state candidates should run. This will enable the Republicans of the state to know what they are voting for, and will fix definitely the responsibility of the fulfilling of any promises made to the people. As it is now there are 76 different platforms by as many different candidates and hence no organized responsibility. This in a large measure has been the cause of many unnecessary tax measures. We propose to hold the party responsible for legislation and we believe we will thereby get better legislation."

The Eugene meeting was an enthusiastic one, delegates from every county pledging support to Governor O'Connell in his campaign for reelection. The Governor was present and made an address at the evening banquet which was well spoken of by the delegates present. He said he proposes to submit to the legislature a definite and constructive plan for tax reduction and tax equalization and the plan will be the result of the exhaustive laborers of the tax investigation committee which he appointed last winter.

REAL ESTATE TRANSFERS

Monday, Sept. 18.
