

THE ASHLAND TIDINGS

FRIDAY, JULY 6, 1877

The Editor of the Tidings will assume no responsibility for views expressed by correspondents, and no communication will receive attention unless the author's real name is furnished. The name will not be used in print if the writer so requests.

GONE.

Since our last issue, another anniversary of American Independence has come and gone. It was welcomed by the thunderous roar of cannon, joined by millions of glad voices, and departed, with the grand salute of a proud and powerful nation clothed with the beautiful ensign of liberty—The Glorious Old Stripes and Stars. The joys and the sorrows of the year it closes, with it, have gone, only to exist as memory shall treasure them up and perpetuate their existence. To some the national year just closed, has been one of fortune and happiness, and to them the journey of life will go on with this great day as a bright oasis—a happy dream from which there is no desire to awaken. Others who have been less favorably dealt with by time—who have seen the death of the beautiful and the aged, lost true friends that cannot be replaced, and watched the solemn funeral cortege wind its way slowly to the grave, bearing with it the loved and the lost, who last year were happy in its celebration, will think of it with solemn sadness, and tears. But onward will the world rush, filled with new hopes of the future, which add strength to the wavering ambition that has lived the year out and continues for advancement to glory and renown. Let the dead past bury its dead, and the new hopes go on, unencumbered, and each and all strive for success in the time to come, with a determination to let good deeds live down the errors of the past.

MORE WARRIORS.

The Indians on the Simcoe reservation are demonstrating. A letter dated June 27th from Yakima city, is as follows:

Our citizens are very much alarmed, as some of the Indians belonging to this (Simcoe) reservation, have grown quite impudent since receiving the news of Col. Perry's defeat, telling us that the land we occupy is theirs, and that they are going to have it.

On Monday, the 25th, two Indians came down from the Spokane country and told the Indians in Kittitas and this valley to get out from among the whites, there were about 500 warriors in that country who were about to make a descent on those settlements, and they didn't want to kill any but the bastards. This came from an Indian squaw who is living among us and is friendly to the whites. This report threw many of our citizens, especially the women and children, into an excitement little short of frenzy. That night nearly all the citizens collected with their families and bedding in the Centennial hall and remained there until the next day.

On yesterday, the 28th, a session of the board of county commissioners as held, and a requisition for 200 stand of arms was made and forwarded to The Dalles by a special messenger, who left this place last night at 7 o'clock.

Several bands of armed Indians have left this reservation to join Joseph's band, and more talk of going. Steps are being taken to stock a portion of this city.

GENERAL NEWS.

(Condensed from dispatches to the Oregonian.)

A special from London June 29, says the last detachment of the 14th corps of Russians have crossed to Matchin.

Communications are complete from Galatz. There are 30,000 infantry and 5,000 cossacks in Dobrudzha. Hirzova was evacuated on the advance of the Russians.

A severe fight has been reported at Tchernavoda.

Yesterday the Russians were crossing the Danube at Simnitsa and expect to make a crossing at Turna.

At Nikopolis and Silistria Wednesday the losses on both sides were most appalling.

Sixteen thousand rifles and two and one half million cartridges are expected to-day from Egypt to Constantinople.

A Russian official dispatch from St. Petersburg claims slight advantages and capture of some outposts before Sewin on the 25th. The dispatch says nothing about the killed and wounded.

Fifteen hundred Russian cavalry endeavored to relieve Bayazid, but have been beaten back by the Kurds with a loss of 60 killed and 200 wounded, the Russian garrison still holds the citadel.

The bay of Tunis has requested the Ottoman government to send him a vessel to convey a present of mules from Tunis to Constantinople.

The British and French consuls are stated to have recommended the bey to observe neutrality.

Telegrams to Paris papers assert the Russian losses were enormous while crossing the Danube.

A WARNING TO GOVERNMENT TIMBER CUTTERS.

The Government has issued a circular letter to land agents, changing its method of protecting timber on public lands. And those who have been in the habit of using the timber on Uncle Sam's land, without asking any questions, will do well to stop it at once. They might find themselves in company with a detective any day, the result of which would prove anything but agreeable to the timber-cutter upon closer acquaintance. For the benefit of those whom it may concern, we subjoin the circular letter sent out from the Interior Department:

Hereafter, as it may be found advisable, from time to time, for the end in view, clerks or employees will be detailed from this office to act under instructions of the Commissioner in ascertaining when, where and by whom depredations have been committed upon the public lands, and to report to him the facts in each case.

If, upon an examination of the reports so obtained, the Commissioner finds that the facts elicited in any case warrant the commencement of legal proceedings to punish the trespassers, or to collect damages for the waste already committed, or both, he will report the same to the Secretary of the Interior, with his opinion thereon, in order that such further proceedings may be had in the premises as the case may require.

The clerks or employees detailed as aforesaid will not be permitted to make any compromise for depredations committed on the public lands. If any propositions are submitted to them with that object, they will be required to report the same to this office, with a full statement of the facts in the case, showing the nature and extent of said depredations, when and by whom committed, the amount and value of the timber when cut, and the value of the land in its present and former condition, all of which, together with the opinion of the Commissioner, will be submitted to the head of the department for further consideration.

If, in any case, the emergencies should seem to require more prompt action than is contemplated in the rules above indicated, in order to arrest the offender, or to secure the Government for the damages suffered, it will be the duty of the clerk or employee detailed to act in the matter to make direct application to the United States District Attorney for the district in which the waste was committed to institute in proper legal proceedings for that purpose. This course, however, must be taken only in cases where the evidence is clear and indisputable.

Private Reception to Senator Morton.

A writer in the Oregonian of June 30, pertinently discusses the propriety of the action of the Board of Trade in tendering a private reception to Senator Morton and party, as follows:

"Almost every person in Oregon has been looking forward to the arrival of these distinguished visitors with a degree of interest. There are several reasons for this unusual interest on the part of the people, the most important of which is: The position these Honorable gentlemen occupy in the United States Senate will enable them to do more for the interests of Oregon—and if for the interests of Oregon, for every person having interests here—than any person traveling in a private capacity. These gentlemen have come here upon United States business, and their interests are with all classes of the people. Without doubt every citizen of Oregon gladly welcomes them and many feel aggrieved that the board of trade of this city has tendered them a private reception—a reception at which none can be present unless holding an invitation sent out by the secretary of this board—a worthy gentleman whose presence among us has been of comparatively short duration. This reception will, without doubt, be a *recherche* affair at which the elite and public talent of the city will have an opportunity of welcoming these gentlemen, while the poorer, yet as worthy a class of the population, a class more desirous of doing so, perhaps, are quietly, in the face of the republican institutions of our land, told to stand aside and leave this matter to our merchant princes and their friends."

Mr. Editor, I do not question the right of the board of trade to make this reception a private one, but as this is probably the only opportunity the residents of Portland will have to welcome these gentlemen, and as Gov. Morton and his co-commissioners have been elevated to the honorable positions they occupy by the votes of the people and not by the coin of the rich, it seems to your humble correspondent at least in bad taste that the length of the purse should be the measure by which the welcome to the first reception in Oregon are made.

The Oregonian of the 31, starts off an extended notice of the affair with the following paragraph, which is sufficiently comprehensive:

"The reception given last night by the board of trade to the senator investigating committee was probably the most magnificent affair of the kind ever given in this State. Never have we witnessed a more fashionable ingathering of our citizens. We recognized among the large throng assembled a vast majority of our most prominent business and professional fellow-citizens generally accompanied by their wives and daughters, elegantly and costily attired in silks and diamonds."

STATE NEWS.

W. R. Danbar, G. W. C. T. has announced Capt. O. C. Applegate, Linkville, and Rev. J. R. N. Bell, Ashland, commissioned as State Deputies for the respective districts, for the present Grand Lodge year.

Clark and Johnson were fooling with a pistol, on Camp Creek, Lane county. Clark was shot in the neck, but will live.

The following are the estimates of the population of Oregon by counties. The estimates were made by the various county clerks: Baker, 9,000; Benton, 6,000; Clackamas, 8,000; Clatsop, 4,500; Coos, 6,000; Columbia, 1,600; Curry, 10,000; Douglas, 8,000; Grant, 4,000; Jackson, 6,500; Josephine, 1,600; Lane, 10,000; Linn 14,000; Lake, 1,500; Marion, 12,000; Multnomah, 17,000; Polk, 6,000; Tillamook, 800; Umatilla, 5,700; Union, 6,000; Wasco, 4,000; Washington, 6,000; Yamhill, 6,000. Total 146,700.

The Commercial Reporter says the rains of the past few days have had a beneficial result. They came in time to revive a strong confidence in a very full and large yield of late sown grain—for the early sown and fall sown nothing could possibly check a very large out-turn. San Francisco exchanges are figuring the amount that we will export direct to Liverpool at 150,000 short tons; this is too small unless much more than we expect will be sent to San Francisco for reshipment to Europe. All present advices point with certainty to a surplus of from 220,000 to 260,000 tons; this includes the Willamette valley, Lewis river valley, and all sections east of the Cascades.

The Reporter says diphtheria is prevailing on the south Yamhill to an alarming extent. Adults are as sorely afflicted as the little ones.

Corvallis Gazette: Work on the Yaquina railroad is progressing very handsomely, and now friends of the road are continually coming to the front. The importance of this enterprise demands, and it is receiving the earnest attention of all true friends of public improvement.

At the recent convention of the State Dental Association it was resolved that: "owing to the risk attending the use of all anesthetics in surgical operations, and the very great danger in the administration of chloroform in such cases, that the Association disapprove of the use of chloroform as an anesthetic in dental operations, therefore do recommend and respectfully request all persons engaged in the practice of dentistry in the state of Oregon to discontinue its use as an anesthetic, believing that by adopting such a course we shall do honor to our profession as well as justice to our patients."

On Thursday morning of last week the dryhouse of Messrs. Douglas & Carter, at Harrisburg, was burned to the ground.

Wool at Albany jumped up on Monday to 27 1/2¢ per pound.

Albany Register: About seven miles east of Lebanon a vein of coal eight feet in thickness has been recently struck. Should it prove a true vein, the discoverer has a bright thing.

On the 22d inst., a man by the name of August J. Anderson, a native of Switzerland, while working in a logging camp on Coos Bay, was killed by a falling limb.

THE DISTANCE—From Lebanon to Corvallis, on an air line, as recently surveyed, is 17 miles. The right of way will soon be secured, and the work of grading will then begin on the extension of the Yaquina Bay Railroad.

Albany Democrat: Dr. E. O. Smith, of this city, and some other gentlemen, have just commenced a mining enterprise which they think will line their pockets with ducats. A company was organized here a few days ago by the doctor, which will be known as the Santiam Gold Canyon Mining Co., and which will engage in gravel mining on the Santiam, about 65 miles from Albany.

Roseburg Plaindealer: The new grade over Roberts' Hill, will be regular, and only about 18 inches to the rd on this side of the mountain; so that a team can take as much over that part of the road as anywhere else. The grade is being made wide and substantial, the road bed being well paved with the stone and gravel taken from the hill-side. The curves are easy and the piece of road so far completed is perfect.

The Standard and Lateman seem to think it has become necessary to revive the "Oregon Style" of newspaper "argument." Come, gentlemen, if you can't be decent, be as decent as you can. Don't call your neighbor "a liar!" if you really think he is, just cause his public ear to become pregnant with your firm conviction that he is guilty of heterodoxy—it will have just as much effect on him, and sound "a heap" better to your "country consuls."

NURSE & THATCHER,

Dealers in

DRY GOODS, CLOTHING, HATS,

CAPS, BOOTS and SHOES,

HARDWARE, FANCY GOODS,
